Ghai, Interights (Organization),2004 South Africa is increasingly an attractive place for international investment Investing in South Africa provides readers with an overview of the investment environment in South Africa and information on investment opportunities developments and foreign direct investment incentives offered by the Department of Trade and Industry the DTI It also outlines the support that the DTI offers new investors in South Africa Through the New Partnership for Africa's Development NEPAD priority areas have been identified for Africa one of which is the development of the private sector as a means to stimulate growth An important element for investors in South Africa is that it is a gateway to the rest of Africa Already many South African companies have learned many lessons in tackling the challenges of these markets This provides a unique opportunity for international firms to draw on their lessons and experience Economic Perspectives on Cultural Heritage M. Hutter, I. Rizzo,1997-10-13 The maintenance and effective use of cultural heritage involves important economic aspects yet the field of contemporary cultural policy is surprisingly void of comprehensive analysis from an economic perspective Prominent academics and practitioners here fill this gap They examine the theoretical background on the value of cultural heritage consider policies from Italy France Britain and Japan and make concrete proposals for changes in cultural heritage policy **17th International ITF/OECD Symposium on Transport Economics and Policy: Benefiting from Globalisation Transport Sector Contribution and Policy Challenges** International Transport Forum,2008-10-03 Opportunities for individuals and businesses to benefit from globalisation are increased by efficient cost effective transport networks A competitive responsive well organised transport sector facilitates trade and creating the conditions for this poses policy challenges that must be tackled Research in Economic History Christopher Hanes, Susan Wolcott,2020-09-30 Research in Economic History is a well established publication presenting influential work by leading researchers in the field of economic history including economists historians and demographers **Handbook of the Economics of Art and Culture** Victor A. Ginsburgh, David Throsby,2006-09-13 Over the last 30 or 40 years a substantial literature has grown up in which the tools of economic theory and analysis have been applied to problems in the arts and culture Economists who have

surveyed the field generally locate the origins of contemporary cultural economics as being in 1966 the year of publication of the first major work in modern times dedicated specifically to the economics of the arts It was a book by Baumol and Bowen which showed that economic analysis could illuminate the supply of and demand for artistic services the contribution of the arts sector to the economy and the role of public policy Following the appearance of the Baumol and Bowen work interest in the economics of the arts grew steadily embracing areas such as demand for the arts the economic functions of artists the role of the nonprofit sector and other areas Cultural economics also expanded to include the cultural or entertainment industries the media movies the publishing industry popular music as well as heritage and museum management property right questions in particular copyright and the role of new communication technologies such as the internet The field is therefore located at the crossroads of several disciplines economics and management but also art history art philosophy sociology and law The Handbook is placed firmly in economics but it also builds bridges across these various disciplines and will thus be of interest to researchers in all these different fields as well as to those who are engaged in cultural policy issues and the role of culture in the development of our societies Presents an overview of the history of art markets Addresses the value of art and consumer behavior toward acquiring art Examines the effect of art on economies of developed and developing countries around the world
