Proceedings of the 2023 International Conference on Economic Management, Financial Innovation and Public Service (EMFIPS 2023) Peng Dou,Keying Zhang,2024-06-19 This is an open access book 2023 International Conference on Economic Management Financial Innovation and Public Service EMFIPS 2023 was held on December 29 30 2023 The idea of the conference is for the scientists scholars engineers and students from Universities all around the world and the industry to present ongoing research activities and hence to foster research relations between the Universities and the industry This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face establish business or research relations and find global partners for future collaboration EMFIPS 2023 also aims to provide a platform for experts scholars engineers technicians and technology R D personnel to share scientific research results and cutting edge technologies understand academic development trends expand research ideas strengthen academic research and discussion and promote cooperation in the industrialization of academic achievements All full paper submissions to the EMFIPS 2023 should be written in English They will be sent to the committee and reviewed by at least two editors All papers will be evaluated based on originality technicality research depth accuracy relevance to conference academic contributions and readability *The Economic Case for Greater LGBTI+ Equality in the United States* OECD,2024-06-28 Ensuring equality for LGBTI individuals is a human rights imperative but it also makes a lot of economic sense Inclusion enables LGBTI individuals to achieve their full employment and labour productivity potential benefitting not only their economic and social well being but also society as a whole Yet robust evidence supporting the economic case for greater LGBTI equality is still scarce due to challenges in accurately measuring the size and life situation of the LGBTI population This report bridges this gap by using a unique set of microdata from the United States The report begins with an overview of the share of US adults identifying as LGBTI their geographic distribution and key demographics It then evaluates the extent to which LGBTI Americans face discrimination assessing how this population fares including in the labour market Finally utilising the OECD long term model the report quantifies the potential increase in GDP resulting from closing the unexplained LGBTI gaps in employment and labour productivity The findings highlight significant economic gains although they capture only a portion of the potential benefits Notably the broader societal impacts such as the advancement of women s empowerment through the disruption of heteronormative standards are not quantified *World Economic Outlook, April 2025* International Monetary,International

Monetary Fund. Research Dept,2025-04-22 The latest World Economic Outlook reports a slowdown in global growth as downside risks intensify While policy shifts unfold and uncertainties reach new highs policies need to be calibrated to rebalance growth inflation trade offs rebuild buffers and reinvigorate medium term growth thereby reducing both internal and external imbalances Policies that promote healthy aging bridge gender disparities and enhance the alignment of migrants skills with local labor market demands can play a crucial role in countering slow economic growth and fiscal pressures especially when coupled with infrastructure investment The movement of migrants and refugees has become a fixture of public debate Chapter 3 examines how changes in the stringency of migrant and refugee policies can alter the journeys and legal pathways people choose to take within and between economies For example stricter policies can deflect flows of people to new destinations Those economies can experience short term challenges from strains on local services but ultimately benefit in the longer term Costs are likely to be more severe where challenges to integrate newcomers are larger notably in emerging market and developing economies and their skills are not well matched with local labor market needs Benefits can materialize sooner by boosting infrastructure investment and promoting private sector development International cooperation can also help by more evenly distributing short term costs across economies

Perspectives on the Economics of Aging Gölçek, Ali Gökhan,2024-12-19 The aging of global populations has profound implications for economic structures labor markets and healthcare systems demanding thoughtful analysis and proactive solutions This demographic shift challenges traditional models of economic and social organization while also presenting opportunities for innovation in areas like technology policy and workforce adaptation Understanding the economic dimensions of aging is essential for creating sustainable frameworks that support older adults while maintaining societal growth and equity Addressing these complexities benefits not only aging populations but also strengthens resilience and inclusivity across communities worldwide Perspectives on the Economics of Aging provides an interdisciplinary platform for exploring the multifaceted economic dimensions of aging populations It delves into the economic implications of aging from both global and national perspectives Covering topics such as age friendly housing economic participation and quality of life this book is an excellent resource for academicians researchers policymakers government officials healthcare professionals technology innovators non governmental organizations economists and more
