Interdependent Development Harold Brookfield, 2012-08-06 Rather than being a book about development per se this work first published in 1975 is instead a book about ideas about development designed for those drawn by a concern over social injustice into the development field In a selective review of theory which gives particular emphasis to the spatial dimension in Western Marxist and neo Marxist thought Harold Brookfield traces the evolution of ideas about world inequality and the problem of development from the days before the underdeveloped countries were considered to be a major problem through the years dominated by economic growth to the more searching approaches of the contemporary era The central argument of the book is that development is a totality which cannot properly be understood by separation into parts The developed and underdeveloped countries constitute one interdependent system and change in one cannot be understood without consideration of the other

The Political Economy of Investment in Syria

Linda Matar, 2016-02-26 Linda Matar examines Syria's failure to promote employment generating investment prior to the uprising Tackling the thorny issue of the inapplicability of modern investment theory to a developing country she situates the analysis of investment in Syria in its historical context and examines the socioeconomic structure and political preconditions that set the course of capital accumulation Matar argues that the class in charge of development which oversaw the allocation of resources during the Hafiz and Bashar Assad regimes precipitated a crisis of capital accumulation Difficult to access data and information compiled from fieldwork reveal how neoliberal reforms failed to build productive capacity and instead enriched a few through short term speculative and mercantile ventures Productive investment in Syria prior to the uprising lurched downward and the key related socio economic variables followed These deteriorating conditions contributed
