Joseph Conrad and H. G. Wells L. Dryden, 2015-05-24 This book traces the literary friendship between Joseph Conrad and H G Wells from their early correspondence through to the differences that caused their estrangement including their respective responses to the First World War It thus gives an overview of the literary scene in the late Victorian and early Edwardian period

Stephen Crane Paul Sorrentino, 2014-06-05 Stephen Crane s short compact life a life of fire he called it is surrounded by myths distortions and fabrications Paul Sorrentino has sifted through garbled chronologies and contradictory eyewitness accounts scoured the archives and followed in Crane s footsteps The result is the most accurate account of the poet and novelist to date

Student Companion to Stephen Crane Paul M. Sorrentino, 2005-11-30 Born into a family of writers Stephen Crane wrote his first poem I d Rather Have when he was eight and his first short story Uncle Jake and the Bell Handle at around the age of 13 Despite never having completed a course of study at any of the colleges he attended Crane decided in the spring of 1891 to pursue a career as a writer While working as a journalist he penned *Maggie A Girl of the Streets* a novella written in the Naturalist style that depicted the seaminess of urban tenement life Enduring his own poverty and taking temporary reporting jobs Crane completed his literary masterpiece *The Red Badge of Courage* a dramatic depiction of a soldier s inner life during the American Civil War in April 1894 The author who continued to write both journalistic pieces and short stories until his death in June 1900 is one of the most highly regarded and popularly taught American authors today Stephen Crane pursued his writing career during a time when the literary world was moving from Romanticism to Realism and Naturalism and later in his life Impressionism and Modernism Sorrentino examines each of Crane s works identifying the influence of these literary movements and world events on his novels short stories and poetry including *Maggie A Girl of the Streets* *New York City Stories* and *Sketches* *The Red Badge of Courage* *War Stories* *Western Stories* and *Tales of Whilomville*

The Good Soldier Ford Madox Ford, 2007-04-26 The Dowells a wealthy American couple have been close friends with the Ashburnhams for years Edward Ashburnham a first rate soldier seems to be the perfect English gentleman and Leonora his perfect wife but beneath the surface their marriage seethes with unhappiness and deception Our only window on the strange tangle of events surrounding Edward is provided by John Dowell the husband he deceives Gradually Dowell unfolds a devastating story in which everyone s honesty is in doubt This extraordinary novel of passion and betrayal is a masterpiece of narrative skill and emotional depth

Staging the Trials of Modernism Dale Barleben, 2017-01-23 In *Staging the Trials of Modernism* Dale Barleben explores the interactions among literature cultural studies and the law through detailed analyses of select British modern writers including Oscar Wilde Joseph Conrad Ford Madox Ford and James Joyce By tracing the relationships between the literature authors media and judicial procedure of the time Barleben illuminates the somewhat macabre element of modern British trial process which still enacts and re enacts itself throughout contemporary judicial systems of the British Commonwealth Using little seen legal documents like Ford s

contempt trial decision Staging the Trials of Modernism uncovers the conversations between the interior style of British Modern authors and the ways in which law began rethinking concepts like intent and the subconscious Barlebens s fresh insights offer a nuanced look into the ways in which law influences literary production The Early Evolutionary Imagination Emelie Jonsson,2021-09-29 Darwinian evolution is an imaginative problem that has been passed down to us unsolved It is our most powerful explanation of humanity s place in nature but it is also more cognitively demanding and less emotionally satisfying than any myth From the publication of the Origin of Species in 1859 evolution has pushed our capacity for storytelling into overdrive sparking fairy tales adventure stories political allegories utopias dystopias social realist novels and existential meditations Though this influence on literature has been widely studied it has not been explained psychologically This book argues for the adaptive function of storytelling integrates traditional humanist scholarship with current knowledge about the evolved and adapted human mind and calls for literary scholars to reframe their interpretation of the first authors who responded to Darwin **Maps of Utopia** Simon J. James,2012-02-02 This is the first study of the literary theories of H G Wells the founding father of English science fiction and once the most widely read writer in the world It explores his entire career during which he produced popular science educational theory history politics and prophecy as well as realist experimental and science fiction **Before Einstein** Elizabeth L. Throesch,2017-01-02 Before Einstein brings together previous scholarship in the field of nineteenth century literature and science and greatly expands upon it offering the first book length study of not only the scientific and cultural context of the spatial fourth dimension but also the literary value of four dimensional theory In addition to providing close critical analysis of Charles Howard Hinton s Scientific Romances 1884 1896 Before Einstein examines the work of H G Wells Henry James and William James through the lens of four dimensional theory The primary value of Hinton s work has always been its literary and philosophical content and influence rather than its scientific authority It is certain that significant late nineteenth century writers and thinkers such as H G Wells William James Olive Schreiner Karl Pearson and W E B Du Bois read Hinton Others including Henry James Joseph Conrad and Ford Madox Ford were familiar with his ideas Hinton s fourth dimension appealed to scientists spiritualists and artists and particularly at the end of the nineteenth century the interests of these different groups often overlapped Truly interdisciplinary in scope Before Einstein breaks new ground by offering an extensive analysis of four dimensional theory s place in the shared history of Modernism **Authors and Audiences** Clarence Karr,2000 From the 1890s through the 1920s the best selling fiction of Ralph Connor Robert Stead Nellie McClung Lucy Maud Montgomery and Arthur Stringer was internationally recognized In this intriguing cultural history of the conception production and reception of popular fiction Clarence Karr challenges the common assumption that best sellers are a conservative cultural influence reflecting and promoting traditional values By focusing on a society and its cultural leaders at a period when they were coming to grips with modernity Karr provides a new perspective on popular culture and the interaction between readers and popular authors

Hawkins, 2010-06-03 In an era before affordable travel National Geographic not only served as the first glimpse of countless other worlds for its readers but it helped them confront sweeping historical change There was a time when its cover with the unmistakable yellow frame seemed to be on every coffee table in every waiting room In American Iconographic Stephanie L. Hawkins traces National Geographic's rise to cultural prominence from its first publication of nude photographs in 1896 to the 1950s when the magazine's trademark visual and textual motifs found their way into cartoon caricature popular novels and film trading on the romance of the magazine's distinctive visual fare National Geographic transformed local color into global culture through its production and circulation of readily identifiable cultural icons The adventurer photographer the exotic woman of color and the intrepid explorer were part of the magazine's institutional aesthetic a visual and textual repertoire that drew upon popular nineteenth century literary and cultural traditions This aesthetic encouraged readers to identify themselves as members not only in an elite society but paradoxically as both Americans and global citizens More than a window on the world National Geographic

presented a window on American cultural attitudes and drew forth a variety of complex responses to social and historical changes brought about by immigration the Great Depression and world war Drawing on the National Geographic Society's archive of readers letters and its founders correspondence Hawkins reveals how the magazine's participation in the culture industry was not so straightforward as scholars have assumed Letters from the magazine's earliest readers offer an important intervention in this narrative of passive spectatorship revealing how readers resisted and revised National Geographic's authority Its photographs and articles celebrated American self reliance and imperialist expansion abroad but its readers were highly aware of these representational strategies and alert to inconsistencies between the magazine's editorial vision and its photographs and text Hawkins also illustrates how the magazine actually encouraged readers to question Western values and identify with those beyond the nation's borders Chapters devoted to the magazine's practice of photographing its photographers on assignment and to its genre of husband wife adventurers reveal a more enlightened National Geographic invested in a cosmopolitan vision of a global human family A fascinating narrative of how a cultural institution can influence and embody public attitudes this book is the definitive account of an iconic magazine's unique place in the American imagination *Subject Catalog* Library of Congress,1982 Library Journal ,1982 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **Catalog of Copyright Entries** Library of Congress.
