Self Experiences in Group Irene N. H. Harwood, Malcolm Pines, 1998 Using clinical examples, the contributors demonstrate the good enough healing power of carefully constructed and supervised groups conducted by therapists who apply both Kohut's self psychological concepts and those currently evolving from intersubjectivity throughout the world. Among the topics covered in this volume are the recent advances in hermeneutics, self psychology, and intersubjectivity theory; the universal need for a group object; Kohut's thinking on archaic and mature twinship; the applicability of new infant research; the need to examine early childhood multiple cross-cultural self-object and traumatic experiences within transferences; the utilization of a co-therapy model and how to create optimal group environments. Mixing new theoretical developments with clinical research and practice, *Self Experiences in Group* breaks new ground and illustrates how these concepts can be applied to work at infant, child, or adult level.

Theory and Practice of Social Group Work in Indian Society Pallassana R. Balgopal, Suresh Pathare, Meena M. Balgopal, 2024-10-26 This book describes relevant theories such as task centered and strength perspective interventions for the practice of social group work within contemporary India. These two theories are complemented by additional theories including Gestalt Therapy, Spirituality, and Raja Yoga. These theories fill the gap in the literature to indigenize social group work interventions. The book is divided into four parts: History of Social Group Work and Introduction in India; The Indian Family; Structural Properties of Group Work; Using Case Studies in Social Group Work Education. In addition, there are two separate chapters on leadership: leadership in social work groups and leader interventions relevant to Indian society. At the end of each chapter, a summary and applicable practice principles are presented. It explicitly presents the value of short and task oriented group work. It mobilizes the group members' strengths to work through problems that Indian children, parents, working adults, and the elderly experience. The group process is presented with a focus on the present day Indian cultural context, which is relevant for a range of practitioners in the helping professions. This important book is a valuable resource for students and scholars of social work, community practitioners, voluntary organizations, and social activists.
