

3 Functions of Groupware

- Computer-mediated communication: 팀원들 간의 직접적인 커뮤니케이션을 돕는 기능
- Meeting and decision support systems: 공동 결정을 지원하는 기능
- Shared applications and artifacts: 팀원들의 공동 작업을 돕는 기능 (the artifacts of work)

1. Shared PCs and shared window systems

- 화면 공유, 원격 제어 등
- 공유자 혹은 제어자 막 한 명만 프로그램을 컨트롤 수 있음
- 서로 다른 페이지를 볼 수 있게 하는가? 수정한 사람의 이름을 표시하는가?

2. Co-authoring systems

- Shared editing은 단기적, co-authoring은 장기적 활동이며, 주로 비동시적임
- 공유 다이어그램, 공유 캘린더도 co-authoring system에 포함됨
- 공유 캘린더에 일만공백 정보를 공개하게 하느냐? (ex. 진짜 조경 불가 or 대표님과 회의)

Groupware And Authoring

**Carlos Coello Coello, Alvaro de
Albornoz, Luis E. Sucar, Osvaldo C.
Battistutti**

Groupware And Authoring:

Groupware and Authoring Roy Rada, 1996 Groupware and Authoring combines the experience of an international group of experts in the fields of groupware and software engineering to examine the human and technical issues surrounding shared writing tools The book covers the human factors research and requirements behind the design of shared writing tools the technical factors and innovations involved in building these systems and specific applications of these tools It also examines the factors involved in making Groupware a commercial product This book will be an essential guide for students and researchers wanting to find out more about this exciting area Covers the work of the most prominent people in the field Includes coverage of both technology and people Presents new systems and new experiences *Studying Virtual Math Teams* Gerry Stahl, 2010-05-03 Studying Virtual Math Teams centers on detailed empirical studies of how students in small online groups make sense of math issues and how they solve problems by making meaning together These studies are woven together with materials that describe the online environment and pedagogical orientation as well as reflections on the theoretical implications of the findings in the studies The nature of group cognition and shared meaning making in collaborative learning is a foundational research issue in CSCL More generally the theme of sense making is a central topic in information science While many authors allude to these topics few have provided this kind of detailed analysis of the mechanisms of intersubjective meaning making This book presents a coherent research agenda that has been pursued by the author and his research group The book opens with descriptions of the project and its methodology as well as situating this research in the past and present context of the CSCL research field The core research team then presents five concrete analyses of group interactions in different phases of the Virtual Math Teams research project These chapters are followed by several studies by international collaborators discussing the group discourse the software affordances and alternative representations of the interaction all using data from the VMT project The concluding chapters address implications for the theory of group cognition and for the methodology of the learning sciences In addition to substantial introductory and concluding chapters this important new book includes analyses based upon the author's previous research thereby providing smooth continuity and an engaging flow that follows the progression of the research The VMT project has dual goals a to provide a source of experience and data for practical and theoretical explorations of group knowledge building and b to develop an effective online environment and educational service for collaborative learning of mathematics Studying Virtual Math Teams reflects these twin orientations reviewing the intertwined aims and development of a rigorous science of small group cognition and a Web 2.0 educational math service It documents the kinds of interactional methods that small groups use to explore math issues and provides a glimpse into the potential of online interaction to promote productive math discourse **Handbook of Writing and Text Production** Eva-Maria Jakobs, Daniel Perrin, 2014-08-19 Writing matters and so does research into real life writing The shift from an industrial to an information society has increased the importance of

writing and text production in education in everyday life and in more and more professions in the fields of economics and politics science and technology culture and media Through writing we build up organizations and social networks develop projects inform colleagues and customers and generate the basis for decisions The quality of writing is decisive for social resonance and professional success This ubiquitous real life writing is what the present handbook is about The de Gruyter Handbook of Writing and Text Production brings together and systematizes state of the art research The volume contains five sections focussing on I the theory and methodology of writing and text production research as well as on problem oriented and problem solving approaches related to II authors III modes and media IV genres and V domains of writing and text production Throughout the 21 chapters exemplary research projects illustrate the theoretical perspectives from globally relevant research spaces and traditions Both established and future scholars can benefit from the handbook s fresh approach to writing in the context of multimodal multi semiotic text production

Designing Communication and Collaboration

Support Systems Yukata Matsushita,1999-03-22 This book presents selected papers by members of the Special Interest Group for Groupware of the Information Processing Society of Japan which captures the state of the art of CSCW and groupware research in Japan

MICAI 2000: Advances in Artificial Intelligence Osvaldo Cairó Battistutti,Osvaldo Cairo,Enrique L. Sucar,Francisco J. Cantu-Ortiz,2000-03-29 This book constitutes the refereed proceedings of the Mexican International Conference on Artificial Intelligence MICAI 2000 held in Acapulco Mexico in April 2000 The 60 revised full papers presented with six invited contributions were carefully reviewed and selected from a total of 163 submissions from 17 countries The book is divided into sections on knowledge representation and reasoning robotics and computer vision machine learning neural networks knowledge based systems speech recognition and natural language multiagent systems reasoning under uncertainty and intelligent tutoring systems

Modeling and Using Context Patrick Blackburn,Chiara Ghidini,Roy M. Turner,Fausto Giunchiglia,2007-10-13 The refereed proceedings of the 4th International and Interdisciplinary Conference on Modeling and Using Context CONTEXT 2003 held in Stanford CA USA in June 2003 The 31 full papers and 15 short papers presented were carefully reviewed selected and revised for inclusion in the book The papers presented deal with the interdisciplinary topic of modeling and using context from various points of view ranging through cognitive science formal logic artificial intelligence computational intelligence philosophical and psychological aspects and information processing Highly general philosophical and theoretical issues are complemented by specific applications in various fields

Transaction Management Support for Cooperative Applications Rolf A. de by,Wolfgang Klas,J.

Veijalainen,2012-12-06 Transaction Management Support for Cooperative Application is a comprehensive report on a successful international project called TRANSCOOP carried out from 1994 to 1997 by a group of European scientists But the book is also much more than that namely an ambitious attempt to integrate Computer Supported Cooperative Work CSCW Workflow Management Systems WFMS and Transaction Processing TP technologies The very term em cooperative

transactions is in itself contradictory Cooperation technologies such as CSCW aim at providing a framework for information exchange between cooperating human participants In contrast traditional transaction technologies allow concurrent users to operate on shared data while providing them with the illusion of complete isolation from each other To overcome this contradiction the TRANSCOOP researchers had to come up with a new and original notion of correctness of concurrent executions based on controlled exchange of information between concurrent users Merging histories in accordance with prespecified commutativity rules among concurrent operations provides transactional guarantees to activities such as cooperative designing which until now had to be carried out sequentially As an interesting consequence it also provides a basis for management of consistency between disconnected or mobile users who operate independently and yet must occasionally reconcile their work with each other

Enterprise Knowledge Infrastructures Ronald Maier,Thomas Hädrich,René Peinl,2005-04-04 Success of an organization is increasingly dependent on its capability to create an environment to improve the productivity of knowledge work This book focuses on the concepts models and technologies that are used to design and implement such an environment It develops the vision of a modular yet highly integrated enterprise knowledge infrastructure and presents an ideal architecture replete with current technologies and systems The most important streams of technological development that are covered in the book are computer supported cooperative work document and content management e learning enterprise portals information life cycle management knowledge management mobile computing and the Semantic Web It includes learning goals exercises and case examples that help the reader to easily understand and practice the concepts The book is targeted at advanced bachelor and master students Practitioners profit from insights into the importance of technologies and systems and their application

MICAI 2002: Advances in Artificial Intelligence Carlos Coello Coello,Alvaro de Albornoz,Luis E. Sucar,Osvaldo C. Battistutti,2003-08-01 This book constitutes the refereed proceedings of the Second Mexican International Conference on Artificial Intelligence MICAI 2002 held in Mérida Yucatán Mexico in April 2002 The 56 revised full papers presented were carefully reviewed and selected from more than 85 submissions from 17 countries The papers are organized in topical sections on robotics and computer vision heuristic search and optimization speech recognition and natural language processing logic neural networks machine learning multi agent systems uncertainty management and AI tools and applications

New Frontiers in Artificial Intelligence Akito Sakurai,Koiti Hasida,Katsumi Nitta,2007-07-21 This book constitutes the thoroughly refereed joint post proceedings of the 17th and 18th annual conferences of the Japanese Society for Artificial Intelligence JSAI 2003 and JSAI 2004 and co located international workshops held in Niigata Japan in June 2003 and in Kanazawa Japan in May June 2004 respectively It features a number of award winning papers as well as revised full workshop papers from these conferences

Emergent Web Intelligence: Advanced Semantic Technologies Youakim Badr,Richard Chbeir,Ajith Abraham,Aboul-Ella Hassanien,2010-06-17 The success of the World Wide Web depends on the ability of users to store process and retrieve digital

information regardless of distance boundaries languages and domains of knowledge The universality and exhibility of the World Wide Web have also enabled the rapid growth of a variety of new services and applications based on human machine interaction The semantics of exchanged information and services should be useful not only for human to human communications but also in that machines would be able to understand and automatically process web content Semantics give well defined meaning to web content and enable computers and people to work in cooperation Today the crucial challenge becomes the development of languages to express information in a machine processable format Now more than ever new advanced techniques and intelligent approaches are required to transform the Web into a universal reasoning and computing machine Web intelligence attempts to deal with this challenge by exploiting information technologies and artificial intelligence approaches to design the next generation of web empowered systems and services

Computing Fundamentals Faith Wempen, 2014-07-23 The Basic Computing Skills You Need to Enhance Your Academic Education Computing Fundamentals provides students with the basic computing skills needed to get the most from their educational endeavors regardless of field of study Written by Microsoft Office Master Instructor Faith Wempen this detailed resource helps you develop a strong understanding of how computers work and how they affect our society In addition to helping you master essential computing tasks such as working with operating systems applications and the Internet this book also provides you with all the knowledge you need for computing basics Learn the types of computer hardware and how they work together Understand operating systems and application software Get a complete introduction to Windows 7 Learn the basics of Microsoft Office applications Understand the essential technologies behind networking the Internet and the web Learn how to protect your online privacy and security Explore legal ethical and health issues of computing Each chapter includes a summary list of key terms and sample questions to help you master basic computer skills

On the Move to Meaningful Internet Systems 2004: OTM 2004 Workshops Zahir Tari, Angelo Corsaro, 2004-10-14 A special mention for 2004 is in order for the new Doctoral Symposium Workshop where three young postdoc researchers organized an original setup and formula to bring PhD students together and allow them to submit their research proposals for selection A limited number of the submissions and their approaches were independently evaluated by a panel of senior experts at the conference and presented by the students in front of a wider audience These students also got free access to all other parts of the OTM program and only paid a heavily discounted fee for the Doctoral Symposium itself In fact their attendance was largely sponsored by the other participants If evaluated as successful it is the intention of the General Chairs to expand this model in future editions of the OTM conferences and so draw in an audience of young researchers to the OnTheMove forum All three main conferences and the associated workshops share the distributed aspects of modern computing systems and the resulting application pull created by the Internet and the so called Semantic Web For DOA 2004 the primary emphasis stayed on the distributed object infrastructure for ODBASE 2004 it was the knowledge bases and methods required for enabling the use of formal semantics

and for CoopIS 2004 the main topic was the interaction of such technologies and methods with management issues such as occurs in networked organizations. These subject areas naturally overlap and many submissions in fact also treat envisaged mutual impacts among them.

Workflow Management Systems for Process Organisations Thomas Schäl, 1998-11-11 This book introduces the perspective of customer driven and teamwork oriented process organisation. Its aim is to design and test concepts of Computer Supported Cooperative Work especially concepts for workflow management systems in order to fundamentally improve business processes in enterprises. Its methodological approach to analysis and design of cooperative networks is a response to shortcomings of current support systems and misunderstandings about cooperative work and team based organisations. Several different commercial workflow management systems are presented and distinguished in terms of their main characteristics. Novel kinds of business process analysis are proposed leading to interesting new combinations of information and cooperation technologies. The book not only presents ways to get around the pitfalls resulting from a naive use of these technologies but also identifies design guidelines and critical success factors.

PUBLISHER'S WEBSITE ***Distributed Communities on the Web*** John Plaice, Peter Kropf, Peter Schulthess, Jacob Slonim, 2003-08-02 This book constitutes the thoroughly refereed post proceedings of the 4th International Workshop on Distributed Communities on the Web DCW 2002 held in Sydney Australia in April 2002. The 25 revised full papers presented together with an introductory overview and outline of the field were carefully reviewed and selected from 59 submissions. The papers are organized in topical sections on adaptive networks collaborative systems languages for the Web and adaptive distributed systems.

Artificial Intelligence in Industrial Decision Making, Control and Automation S.G. Tzafestas, H. B. Verbruggen, 2012-12-06 This book is concerned with Artificial Intelligence AI concepts and techniques as applied to industrial decision making control and automation problems. The field of AI has been expanded enormously during the last years due to that solid theoretical and application results have accumulated. During the first stage of AI development most workers in the field were content with illustrations showing ideas at work on simple problems. Later as the field matured emphasis was turned to demonstrations that showed the capability of AI techniques to handle problems of practical value. Now we arrived at the stage where researchers and practitioners are actually building AI systems that face real world and industrial problems. This volume provides a set of twenty four well selected contributions that deal with the application of AI to such real life and industrial problems. These contributions are grouped and presented in five parts as follows: Part 1 General Issues Part 2 Intelligent Systems Part 3 Neural Networks in Modelling Control and Scheduling Part 4 System Diagnostics Part 5 Industrial Robotic Manufacturing and Organizational Systems. Part 1 involves four chapters providing background material and dealing with general issues such as the conceptual integration of qualitative and quantitative models the treatment of timing problems at system integration and the investigation of correct reasoning in interactive man robot systems.

On the Move to Meaningful Internet Systems 2004: OTM 2004 Workshops R. Meersman, 2004-10-14 This book constitutes

the joint refereed proceedings of seven international workshops held as part of OTM 2004 in Agia Napa Cyprus in October 2004 The 73 revised papers presented together with 31 abstracts of posters from the OTM main conferences were carefully reviewed and selected from more than 150 submissions In accordance with the 7 workshops the papers are organized in topical sections on grid computing and its applications to data analysis Java technologies for real time and embedded systems modeling inter organizational systems regulatory ontologies ontologies semantics and e learning PhD symposium and interoperability

Business English University of Delhi, Written from an Indian perspective Business English prepares students for the emerging global business sector by making them aware of the need to adopt a sensitive approach towards business communication Its unique pedagogical features include illustrations practical guides boxes with easy references exhaustive examples that reflect the changing business world charts and diagrams as value addition to the text and exercises to help in improving linguistic skills

Handbook of Research on Educational Communications and Technology
David Jonassen, Michael J. Spector, Marcy Driscoll, M. David Merrill, Jeroen van Merriënboer, Marcy P. Driscoll, 2008-09-25
First Published in 2008 Sponsored by the Association of Educational Communication and Technology AECT the third edition of this groundbreaking Handbook continues the mission of its predecessors to provide up to date summaries and syntheses of recent research pertinent to the educational uses of information and communication technologies In addition to updating this new edition has been expanded from forty one to fifty six chapters organized into the following six sections foundations strategies technologies models design and development and methodological issues In response to feedback from users of the second edition the following changes have been built into this edition More Comprehensive topical coverage has been expanded from forty one to fifty six chapters and includes many more chapters on technology than in previous editions Restructured Chapters this edition features shorter chapters with introductory abstracts keyword definitions and extended bibliographies More International more than 20% of the contributing authors and one of the volume editors are non American Theoretical Focus Part 1 provides expanded cross disciplinary theoretical coverage Methodological Focus an extended methodological chapter begins with a comprehensive overview of research methods followed by lengthy separately authored sections devoted to specific methods Research and Development Focus another extended chapter with lengthy separately authored sections covers educational technology research and development in different areas of investigation e g experimental methods to determine the effectiveness of instructional designs technology based instructional interventions in research research on instructional design models

Writing With Sally Barr Reagan, Sally Barr Ebest, Thomas Fox, David Bleich, 1994-07-01 A collection of essays on diverse issues in collaborative work explores the political social and individual psychologies of students teachers and researchers working together

The Enigmatic Realm of **Groupware And Authoring**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Groupware And Authoring** a literary masterpiece penned by way of a renowned author, readers attempt a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of those who partake in its reading experience.

Groupware And Authoring Introduction

Groupware And Authoring Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Groupware And Authoring Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Groupware And Authoring : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Groupware And Authoring : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Groupware And Authoring Offers a diverse range of free eBooks across various genres. Groupware And Authoring Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Groupware And Authoring Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Groupware And Authoring, especially related to Groupware And Authoring, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Groupware And Authoring, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Groupware And Authoring books or magazines might include. Look for these in online stores or libraries. Remember that while Groupware And Authoring, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Groupware And Authoring eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Groupware And Authoring full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Groupware And Authoring eBooks, including some popular titles.

FAQs About Groupware And Authoring Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Groupware And Authoring is one of the best book in our library for free trial. We provide copy of Groupware And Authoring in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Groupware And Authoring. Where to download Groupware And Authoring online for free? Are you looking for Groupware And Authoring PDF? This is definitely going to save you time and cash in something you should think about.
