Growing Old In The Middle Ages Winter Clothes Us In Shadow And Pain:

Growing Old in the Middle Ages Shulamith Shahar, 2004 This study draws a comprehensive picture of medieval old age in western Europe combining primary sources and secondary literature to produce a broad cultural history Old Age in the Middle Ages and the Renaissance Albrecht Classen, 2012-02-14 After an extensive introduction that takes stock of the relevant research literature on Old Age in the Middle Ages and the early modern age the contributors discuss the phenomenon of old age in many different fields of late antique medieval and early modern literature history and art history Both Beowulf and the Hildebrandslied both Wolfram von Eschenbach's Parzival and Titivillus both the figure of Merlin and the trans European tradition of Perceval Peredur Parzival then the figure of the vetula in a variety of medieval French English and Spanish texts and of the Old Man in The Stricker's Daniel both the treatment of old age in Langland's Piers the Plowman and in Jean Gerson's sermons are dealt with Other aspects involve late antique epistolary literature early modern French farce in light of Disability Studies the social role of old impotent men in sixteenth and seventeenth century Netherlandish paintings and the scientific discourse of old age and health since the 1500s The discourse of Old Age proves to have been of central importance throughout the ages so the critical examination of the issues involved sheds intriguing light on the cultural history from late antiquity to the seventeenth century **Chaucer and the Ethics of Time** Gillian

Adler, 2022-02-15 Geoffrey Chaucer wrote at a turning point in the history of timekeeping but many of his poems demonstrate a greater interest in the moral dimension of time than in the mechanics of the medieval clock Chaucer and the Ethics of Time examines Chaucer's sensitivity to the insecurity of human experience amid the temporal circumstances of change and time passage as well as strategies for ethicising historical vision in several of his major works While wasting time was sometimes viewed as a sin in the late Middle Ages Chaucer resists conventional moral dichotomies and explores a complex and challenging relationship between the interior sense of time and the external pressures of linearism and cyclicity Chaucer's diverse philosophical ideas about time unfold through the reciprocity between form and discourse thus encouraging a new look at not only the characters' ruminations on time in the tradition of St Augustine and Boethius but also manifold narrative sequences and structures including anachronism **Medieval Disability Sourcebook** Cameron Hunt McNabb, 2020 The

field of disability studies significantly contributes to contemporary discussions of the marginalization of and social justice for individuals with disabilities However what of disability in the past The Medieval Disability Sourcebook Western Europe explores what medieval texts have to say about disability both in their own time and for the present This interdisciplinary volume on medieval Europe combines historical records medical texts and religious accounts of saints' lives and miracles as well as poetry prose drama and manuscript images to demonstrate the varied and complicated attitudes medieval societies had about disability Far from recording any monolithic understanding of disability in the Middle Ages these contributions present a striking range of voices to and about those with disabilities and such diversity only confirms how disability

permeated and permeates every aspect of life The Medieval Disability Sourcebook is designed for use inside the undergraduate or graduate classroom or by scholars interested in learning more about medieval Europe as it intersects with the field of disability studies Most texts are presented in modern English though some are preserved in Middle English and many are given in side by side translations for greater study Each entry is prefaced with an academic introduction to disability within the text as well as a bibliography for further study This sourcebook is the first in a proposed series focusing on disability in a wide range of premodern cultures histories and geographies
