Service Work Cameron MacDonald, Marek Korczynski, 2008-08-20

Everyday we are bombarded with advertising images of the smiling service worker. The book is written with the aim of focusing beneath the surface of these fairy tale images to seek out and understand the reality of service workers' experience. Within the sociology of work and related literatures, there are an increasing number of empirical studies.

Occupational employment and Wages, May 2005, *Informality and Inclusive Growth in the Middle East and North Africa* Gladys Lopez-Acevedo, Marco Ranzani, Nistha Sinha, Adam Elsheikhi, 2023-06-30

The long-standing informality debate in the Middle East and North Africa (MENA) Region has taken on a new urgency as it looks for a pathway to more socially inclusive growth that is less reliant on fossil fuels. This is occurring against a backdrop of subpar labor market outcomes, further growth setbacks, and deteriorating fiscal and current account deficits in the aftermath of the COVID-19 pandemic and in the wake of high inflation and supply chain disruptions triggered by the Russian Federation-Ukraine war. *Informality and Inclusive Growth in the Middle East and North Africa* aims to better understand the characteristics and incentive structure that have led to the prevalence of informal employment in three MENA countries: the Arab Republic of Egypt, Morocco, and Tunisia. The report breaks new ground by adopting a comprehensive perspective to focus on the features of and interrelationships among different aspects of these countries' institutional landscapes to make sense of the complex incentive structure that workers and firms face when deciding between formal and informal options. Specifically, the report groups these issues in three broad realms: 1) entrepreneur-worker relations, 2) taxes and transfers, and 3) market conditions. This report is an extremely welcome addition to the literature on MENA labor markets. By analyzing the incentive structure and institutional factors that have led to the prevalence of informal employment in Egypt, Morocco, and Tunisia, it points the way to policy actions that can be taken to reduce informality and increase social protection for workers. It is a must-read for anyone who cares about greater economic inclusion in MENA.

Ragui Assaad, Professor, Hubert H. Humphrey School of Public Affairs, University of Minnesota

A compelling account of the implications of informality in the workforce and how economies of MENA can design appropriate policy responses. This timely report comes amid multiple social reforms in MENA and is a must-read for policy practitioners and economists in the region.

Karim El Aynaoui, Executive

President Policy Center for the New South This report is particularly timely given the negative impact the COVID 19 pandemic and subsequent crises have had on living standards and poverty rates around the world and especially in MENA countries While the focus on boosting growth and achieving the Sustainable Development Goals has revolved around financing the report sheds new light on the benefits that tackling informality through institutional regulatory and policy changes could present to achieving these goals Mahmoud Mohieldin Executive Director International Monetary Fund

Degraded Work Marc Doussard, 2013-07-01 Critics on the left and the right typically agree that globalization the loss of manufacturing jobs and the expansion of the service sector have led to income inequality and rising numbers of low paying jobs with poor working conditions In *Degraded Work* Marc Doussard demonstrates that this decline in wages and working conditions is anything but the unavoidable result of competitive economic forces Rather he makes the case that service sector and other local serving employers have boosted profit with innovative practices to exploit workers demeaning their jobs in new ways denying safety equipment fining workers for taking scheduled breaks requiring unpaid overtime that go far beyond wage cuts Doussard asserts that the degradation of service work is a choice rather than an inevitability and he outlines concrete steps that can be taken to help establish a fairer postindustrial labor market Drawing on fieldwork in Chicago *Degraded Work* examines changes in two industries in which inferior job quality is assumed to be intrinsic residential construction and food retail In both cases Doussard shows how employers degraded working conditions as part of a successful and intricate strategy to increase profits Arguing that a growing service sector does not have to mean growing inequality Doussard proposes creative policy and organizing opportunities that workers and advocates can use to improve job quality despite the overwhelming barriers to national political action
