Growing US Security Interests In Central Asia:

Growing US Security Interests in Central Asia Elizabeth Wishnick,2002 **Growing U. S. Security Interests in Central Asia** Elizabeth Wishnick,2002-10-31 As Secretary of State Colin Powell told the House International Relations Committee in February 2002 the United States will have a continuing interest and presence in Central Asia of a kind that we could not have dreamed of before After providing background on the development of U S security interests in Central Asia this monograph examines post 9 11 trends in U S policy and military engagement In the 1990s the United States initiated military engagement with Central Asia to support the region s integration with western political military institutions as well as to protect the sovereignty and independence of these states assist them to improve their border security against transnational threats encourage them to adopt market oriented reform and democratization and ensure access to energy resources in the region U S military cooperation expanded rapidly with Central Asian states in the immediate aftermath of 9 11 due to the framework of relations that had been built piecemeal in the 1990s For the first time the United States acquired temporary basing in this region in response to a changing security environment as Uzbekistan Kyrgyzstan and Tajikistan became frontline states in Operation ENDURING FREEDOM Anti terrorism became the central focus of U S policy in the region although other goals still remain important The author argues that by placing a priority on anti terrorism in U S policy toward Central Asia and rewarding Central Asian leaders for basing rights the Bush administration is shoring up authoritarian regimes and encouraging public distrust of U S intentions in the region She points out that weak regional security organizations contingent support in Russia and China to the expanding American military foothold in the region and instability in Central Asia will pose considerable challenges for the U S military In conclusion the author recommends an emphasis on rapid deployment from existing bases in Turkey rather than continued basing in Central Asia a more coherent regional strategy and improved foreign area expertise for the Central Asian region and a multilateral approach to addressing instability in the area Growing U.S. Security Interests in Central Asia Elizabeth Wishnick,2002 **Russia, China, and**

the United States in Central Asia Elizabeth Wishnick,2009 The monograph then addresses the policy implications for the United States of the shifting regional picture in Central Asia Despite the fissures within the SCO and the competitive tendencies within the Sino Russian partnership the monograph asserts that United States will not have an easy time achieving its aims in Central Asia American policy goals **Rebalancing U.S. Forces** Andrew Sven Erickson,Carnes Lord,2014-05-15 As the U S military presence in the Middle East winds down Asia and the Pacific are receiving increased attention from the American national security community The Obama administration has announced a rebalancing of the U S military posture in the region in reaction primarily to the startling improvement in Chinese air and naval capabilities over the last decade or so This timely study sets out to assess the implications of this shift for the long established U S military presence in Asia and the Pacific This presence is anchored in a complex basing infrastructure that scholars and Americans

generally too often take for granted In remedying this state of affairs this volume offers a detailed survey and analysis of this infrastructure its history the political complications it has frequently given rise to and its recent and likely future evolution American seapower requires a robust constellation of bases to support global power projection Given the rise of China and the emergence of the Asia Pacific as the center of global economic growth and strategic contention nowhere is American basing access more important than in this region Yet manifold political and military challenges stemming not least of which from rapidly improving Chinese long range precision strike capabilities complicate the future of American access and security here This book addresses what will be needed to maintain the fundamentals of U S seapower and force projection in the Asia Pacific and where the key trend lines are headed in that regard This book demonstrates that U S Asia Pacific basing and access is increasingly vital yet increasingly vulnerable It demands far more attention than the limited coverage it has received to date and cannot be taken for granted More must be done to preserve capabilities and access upon which

Tsyarkin, 2007-09-26 This book discusses and provides examples of Russia's need to reshape its security and military policies in order to meet the global challenges of fighting terrorism and counterinsurgency It addresses some of the problems facing Russia's national security and military power including military reform US Russian relations the political economy of Russian security policy Russian policy regarding the proliferation of weapons of mass destruction the chances for US Russian cooperation in ballistic missile defence Russia's Security and the War on Terror provides a insight into Russian military policies and its changing relationship with NATO throughout the 1990s This book was previously published as a special issue of The Journal of Slavic Military Studies **Geopolitical Economy of Energy and Environment**, 2017-07-10 This book is

the product of a joint research program between the Institute of West Asia African Studies of the Chinese Academy of Social Sciences Beijing and the Energy Program Asia of the International Institute for Asian Studies Leiden University China's transition to an urban industrial society relies on its abundant domestic coal supplies and on an increase in oil and gas imports However authorities are confronted with trade offs between investments in expanding supplies of fossils environmental sustainability energy efficiency and in clean energy Resources spent on expanding imported energy have to be weighted against clean energy investments and improving efficiency of the fossil fuel sector The same is no less true for the European Union and its member states Import dependency on piped gas is again growing Security of supply of natural gas depends on political cooperation with energy rich countries At the same time the EU has to meet its clean energy commitments by compromises between member states and Brussels Chinese National Oil Companies bridge the worlds of government in China and the extractive sector in hydrocarbon exporting countries At the global level Chinese Trans National Oil Companies maintain competitive and cooperative relations with privately owned International Oil companies This book focuses among others on these networks with the objective to contribute to the study of the geopolitical economy of the energy sectors in the

Kanet,2007-06-28 The authors argue that Vladimir Putin and his advisors are committed to re establishing Russia as a great power and that the existence of nuclear weapons and the revival of the Russian economy have provided the foundations for an expanded Russian role in global affairs *Russia and its Near Neighbours* M. recently re emerged as the dominant political economic and military actor in former Soviet nations Kanet and Freire bring together a stellar cast of contributors to consider Russia s recent return as a major regional and international actor and its likely future policy toward its neighbours *China's 'Peaceful Rise' in the 21st Century* Sujian Guo,2016-12-05 China s rapid development has attracted worldwide attention in recent years The implications of China s rise from its expanding influence and military muscle to its growing demand for energy supplies are heatedly debated in the international community Jintao s officially proposed concept of peaceful development has become the underlying principle behind Chinese foreign policy under the fourth generation leadership However is peaceful development possible in the broad context of domestic and international development This comprehensive and timely study examines the conditions and challenges of China s peaceful rise and addresses the central question of whether it is possible for China to rise peacefully in the 21st century bearing in mind the implications for China and the rest of the world It is ideal as a supplementary course book in foreign policy Asian politics and development **Multilateral Approach In China's Foreign Policy** Joseph Yu-shek Cheng,2017-12-21 Since

the mid 1990s the Chinese authorities have gradually come to embrace multilateralism to realize their basic foreign policy objectives in maintaining a peaceful international environment and enhancing China s international status and influence This embrace is largely based on pragmatic considerations There is no denial however that elements of liberalism and constructivism gradually enter into the considerations of Chinese leaders They accept for example that non traditional security issues can only be tackled through genuine multilateralism This volume carefully examines China s increased participation in multilateral organizations and mechanisms and its efforts to initiate and develop its own discourses on global affairs straddling Asia the Middle East Africa and the Latin American continents China s presence in international multilateral organizations has been providing developing countries a better chance to maintain a balance of power Since China has no ambitious plan to transform the existing international order its increasing enthusiastic engagement of multilateralism is likely to be accepted by the international community NATO's New Mission Rebecca R.

Moore,2007-02-28 Reports of NATO s death have been greatly exaggerated Characterizations of NATO as a relic of the past do not square with the fact that the Alliance is busier today than at any time in its history As Europe has become more unified and more democratic NATO has assumed new layers of significance in the global security environment In a post September 11 world the old 1990s debate about what is in area and what is out of area is a luxury that the Alliance can no

longer afford Decisions made at the 2004 Istanbul summit aimed at enhancing NATO's partnerships with the states of Central Asia and extending the partnership concept to the Greater Middle East reflect the Alliance's new more global presence as do new military missions in Afghanistan Iraq and Sudan Moore argues that a careful analysis of NATO's new more global focus suggests that it's not the nature of NATO's mission that has changed but rather its scope NATO is approaching its new out of area missions with the political tools developed after the Soviet threat faded in the early 1990s when the Allies agreed that rather than merely defend an old order they would now create a new one grounded in liberal democratic values including individual liberty and the rule of law Indeed the mission of projecting stability eastward was understood to be inextricable from the promotion of these values This new mission required that NATO devote greater attention to its political dimension In fact as the United States turned to promoting democracy around the world in the wake of September 11 it ultimately sought to enlist NATO in its mission of extending democracy beyond Europe to Central Asia and the Middle East As Moore demonstrates in her attempt to provide a full and comprehensive understanding of the new NATO while divisions within the Alliance persist as to just how global NATO should be the post September 11 security environment ensures that NATO's survival depends upon its willingness to project security beyond Europe That mission will be as much political as it is military

In the Tracks of Tamerlane Daniel L. Burghart, Theresa Sabonis-Helf, 2004 Strategic Consequences of the Iraq War Elizabeth Wishnick, 2005 Central Asia is a key theater in the war on terrorism where fragile new states are attempting to consolidate political power build legitimacy and stoke economic development at the same time that they face a range of threats with security forces badly in need of reform While the United States has recognized the pivotal role of Central Asia and greatly expanded its activities there this is a new venue for America U.S. policymakers are learning in stride as they seek ways to both strengthen the Central Asian states and to encourage them to undertake badly needed political reforms In this monograph Elizabeth Wishnick builds on the analysis in her important 2002 SSI study *Growing U.S. Security Interests in Central Asia* She contends that by highlighting antiterrorism the United States addresses a symptom rather than the causes of instability in Central Asia thus it is contributing to the radicalization of political opposition movements and discrediting both democratization and the U.S. commitment to it Instead she argues the United States should do more to address the underlying human security problems in Central Asia which increase its vulnerability to terrorist movements

The Greater Middle East in Global Politics Mehdi Amineh, 2007-10-30

This anthology unites in one volume two studies of the Greater Middle East in global politics, each conceptual and empirical. First, it is a historical comparative study of politics and societies in selected Greater Middle Eastern countries from Napoleon's invasion of Ottoman Egypt in 1798 up until today. It addresses development and change in these societies as results of the complex interactions between external developments, the rise and expansion of European industrialized powers, and internal developments, the disintegration of Islamic Empires, their transformation into nation states, and their efforts to industrialize and modernize. Second, it is an empirical case study of states and societies of the Greater Middle East in global politics, addressing themes such as nationalism, revolution, political Islam, democracy, globalization, regionalism, revolution, war, energy, and conflict and cooperation. The book is comprised of three parts and nineteen chapters. Contributors include Mehdi Parvizi, Amineh, Simon Bromley, Robert M. Cutler, Louisa Dris, A. t. Hamadouche, S. N. Eisenstadt, Femke Hoogeveen, Henk Houweling, B. M. Jain, Mehran Kamrava, Roger Kangas, Fred H. Lawson, Prithvi Ram Mudiam, Nilgun Onder, Wilbur Perlot, Richard Pomfret, Kurt W. Radtke, Mirzohid Rahimov, Eva Patricia Rakel, and Yahia H. Zoubir.
