Grown Ups A Generation In Search Of Adulthood:

Grown-ups Cheryl Merser, 1988 *Grown-Ups* Cheryl Merser, 1990-09-01 **Arrested Adulthood** James E. Cote, 2000-06 An examination into the social influences that have prolonged youth in today's adults Why are today's adults more like adolescents in their dress and personal tastes than ever before Why do so many adults seem to drift and avoid responsibilities such as work and family As the traditional family breaks down and marriage and child rearing are delayed what makes a person an adult Many people in the industrial West are simply not growing up in the traditional sense Instead they pursue personal individual fulfillment and emerge from a vague and prolonged youth into a vague and insecure adulthood The transition to adulthood is becoming more hazardous and the destination is becoming more difficult to reach if it is reached at all *Arrested Adulthood* examines the variety of young people's responses to this new situation James E C t shows us adults who allow the profit driven industries of mass culture to provide the structure that is missing as their lives become more individualistic and atomized He also shows adults who resist anomie and build their world around their sense of personal connectedness to others Finally C t provides a vision of a truly progressive society in which all members can develop their potentials apart from the influence of the market In so doing he gives us a clearer vision of what it means to be an adult and makes sense of the longest but least understood period of the life course *Twentysomething* Samantha Henig, Robin Marantz Henig, 2013-10-29 A mother daughter writing team reports on what's really up with kids today Science writer Robin Marantz Henig and her daughter journalist Samantha Henig offer a smart comprehensive look at what it's really like to be twentysomething and to what extent it's different for Millennials than it was for their Baby Boomer parents The Henigs combine the behavioral science literature for insights into how young people make choices about schooling career marriage and childbearing how they relate to parents friends and lovers and how technology both speeds everything up and slows everything down Packed with often surprising discoveries *Twentysomething* is a two generation conversation that will become the definitive book on being young in our time The fullest guide through this territory A densely researched report on the state of middleclass young people today drawn from several data sources and filtered through a comparative lens The New Yorker **Transcending Generations** Meredith Gould, 2017 *Transcending Generations* is a guide for church leaders seeking to communicate and collaborate with adults of all ages beyond generations In this new guide to being and doing church sociologist and culture critic Meredith Gould focuses on issues shared by people of faith regardless of chronological age psychosocial development or generational cohort In short easy to read chapters and with her characteristic wit Gould challenges readers to think in more nuanced ways about age to remove false barriers Readers are guided through practical ways to move forward together while honoring authentic differences Includes questions for individual inquiry and group discussion *What's Next, Gen X?* Tamara J. Erickson, 2010-01-05 You're a member of Generation X the 30 to 44 age cohort And you've drawn the short stick when it comes to work The economy has been stacked against you from the beginning

Worse you're sandwiched between Boomers with their constant back patting blather and refusal to retire and Gen Y's with their relentless confidence and demands for attention. You're stuck in the middle of your life and between two huge generations that dote on each other. But you can move forward in your career. In *What's Next Gen X* Tamara Erickson shows how. She explains the forces affecting attitudes and behaviors in each generation: Boomer, X, and Y, so you can start relating more productively with bosses, peers, and employees. Erickson then assesses Gen X's progress in life so far and analyzes the implications of organizational and technological changes for your professional future. She lays out a powerful framework for shaping a satisfying, meaningful career, revealing how to identify work that matches what you care most about. Succeed in a corporate career or an entrepreneurial venture. Spot and seize newly emerging professional opportunities. Use your unique capabilities to become an effective leader. Provocative and engaging, *What's Next Gen X* helps you break free from the middle and chart a fulfilling course for the years ahead. — *Elusive Adulthoods* Deborah Durham, Jacqueline Solway, 2017-10-12

Essays on the changing meanings of adulthood in places around the world. An important collection that furthers anthropological work on life stages. Susan Reynolds Whyte, author of *Generations in Africa: Connections and Conflicts*. *Elusive Adulthoods* examines why, in recent years, complaints about an inability to achieve adulthood have been heard in societies around the world. By exploring the changing meaning of adulthood in Botswana, China, Sudan, Papua New Guinea, Russia, Sri Lanka, Uganda, and the United States, contributors to this volume pose the problem of what is adulthood and examine how the field of anthropology has come to overlook this meaningful stage in its studies. Through these case studies, we discover different means of recognizing the achievement of adulthood, such as through negotiated relationships with others, including grown children, and as a form of upward class mobility. We also encounter the difficulties that come from a sense of having missed full adulthood, instead jumping directly into old age in the course of rapid social change, or a reluctance to embrace the stability of adulthood and necessary subordination to job and family. In all cases, the contributors demonstrate how changing political and economic factors form the background for generational experience and understanding of adulthood, which is a major focus of concern for people around the globe as they negotiate changing ways of living. — **Youth**

Development in Identity Societies James E. Cote, 2018-10-31. This book explores the causes and consequences of the contradictions in young people's lives stemming from the affluence/purpose paradox: a lack of purpose in life among many of those living in the most affluent societies in human history. This paradox is endemic to identity societies where people experience a choice-contingent life course and is examined using an interdisciplinary approach, largely with an integration of developmental psychology and sociology, but also using historical, anthropological, economic, and political perspectives. The transition to adulthood is now commonly a prolonged process with young people facing a number of psychological challenges and sociological obstacles in their identity formation. Challenges include difficulties in making prudent choices about goals. Obstacles involve cross pressures in the wider society as well as in educational institutions. Consequently, many youth

experience their education as alienating and stressful rather than as an opportunity for personal development Those without a sense of purpose have more difficulties with their identity formation that can produce symptoms of anxiety and depression The current student mental health crisis is examined in this context An additional challenge is an ambiguously defined adulthood Young people who are confused about appropriate adult roles often value hedonistic activities rooted in narcissism and materialism rather than in more fulfilling long term goals Conversely those who are agentic in their personal development can thrive in adulthood especially when they combine agency with generativity This book ends with a series of recommendations for researchers and policy makers to help youth cope with the affluence purpose paradox Generational Identity, Educational Change, and School Leadership Corrie Stone-Johnson, 2016-03-22 Generational identity plays a large role in how teachers view educational change and school reform Teachers of the Boomer generation an era characterized by optimism and innovation tend to be more resistant to change than those of Generation X for whom standardization represents the norm not a shift This volume reviews five decades of research on educational change and teachers varying responses to it from a generational perspective providing school leaders with insight on how best to relate to these groups to achieve a common goal Through ongoing professional development oriented by multigenerational grouping teachers and school leaders can define success and create a multigenerational understanding of what good teaching and leadership look like *Men to Boys* Gary S. Cross, 2008 When did maturity become the ultimate taboo Men have gone from idolizing Cary Grant to aping Hugh Grant shunning marriage and responsibility well into their twenties and thirties Gary Cross renowned cultural historian identifies the boy man and his habits examining the attitudes and practices of three generations to make sense of this gradual but profound shift in American masculinity Cross matches the rise of the American boy man to trends in twentieth century advertising popular culture and consumerism and he locates the roots of our present crisis in the vague call for a new model of leadership that ultimately failed to offer a better concept of maturity Advanced Introduction to Youth Studies Williamson, Howard, Côté, James E., 2022-10-07 The Advanced Introduction to Youth Studies analyses the historical development of the sociology of youth in the context of changing population demographics Howard Williamson and James C t explore competing paradigms underlying current understanding of youth with reference to key philosophical theoretical and methodological debates Young people s transitions to adulthood and youth cultural behaviour are then explored The authors conclude with a consideration of youth policies and how in the future these may be better informed by sociological research **The Fourth Turning Is Here** Neil Howe, 2023-07-18 Twenty five years ago Neil Howe and the late William Strauss dazzled the world with a provocative new theory of American history Looking back at the last 500 years they d uncovered a distinct pattern modern history moves in cycles each one lasting roughly eighty to one hundred years the length of a long human life with each cycle composed of four eras or turnings that always arrive in the same order and each last about twenty years The last of these eras the fourth turning was always the most perilous a period of civic upheaval and

national mobilization as traumatic and transformative as the New Deal and World War II the Civil War or the American Revolution Now right on schedule our own fourth turning has arrived And so Neil Howe has returned with an extraordinary new prediction What we see all around us the polarization the growing threat of civil conflict and global war will culminate by the early 2030s in a climax that poses great danger and yet also holds great promise perhaps even bringing on America's next golden age Every generation alive today will play a vital role in determining how this crisis is resolved for good or ill

Coming of Age in Times of Uncertainty Harry Blatterer, 2009-07 Adulthood is taken for granted It connotes the end of childhood the resolution to the storm and stress period of adolescence This conception is strongly entrenched in the sociology of youth and the sociology of the life course as well as in the policy arena At the same time adulthood itself remains unarticulated journey's end remains conceptually fixed and theoretically uncontested Adulthood then is both central to the social imagination and neglected as an area of sociological investigation something that has been noted by sociologists over the last four decades Going beyond the overwhelmingly psychological literature this book draws on original qualitative research and theories of social recognition and thus presents a first step towards filling an important gap in our understanding of the meaning of adulthood The Encyclopedia of Human Ecology Julia R. Miller, Richard M.

Lerner, Lawrence B. Schiamberg, Pamela M. Anderson, 2003-08-13 The first and only source to integrate the multiple disciplines and professions exploring the many ways people interact with the natural and designed environments in which we live Comprising more than 250 informative entries The Encyclopedia of Human Ecology examines the interdisciplinary and complex topic of human ecology Knowledge gathered from disciplines that study individuals and groups is blended with information about the environment from the fields of family science geography anthropology urban planning and environmental science At the same time professions intended to enhance individual and family life marriage and family therapy clinical psychology social work dietetic and other health professions are represented alongside those concerned with the preservation conservation and management of the environment and its resources How rampant are eating disorders among our youth Are AIDS educational programs effective What problems do adolescents transitioning into adulthood encounter Here four leading scholars in the field have assembled a team of top tier psychologists sociologists anthropologists and other experts to explore these and hundreds of other timely issues **Parenting an Only Child** Susan

Newman, 2001-08-14 Is it possible to raise a contented only child Can we be happy with only one child The answer to both of these questions is a resounding yes In recent years the number of couples choosing to have one child has risen sharply Whether it's by choice or fate having a single child presents unique considerations opportunities and advantages Social psychologist Susan Newman who has been studying single child families since the 1980s shatters the myths of the lonely spoiled only child and provides in depth coverage of the critical issues including Making the right family size decision for you Withstanding the pressure to have another Maintaining a balance of power in a three member household Single parenting

the only child Setting boundaries with a child who is used to having your undivided attention Fostering high achievement creativity and independence in only children The effects of having parents instead of siblings as role models Confronting age old only child stereotypes Building family networks and other support systems for the future Presenting fascinating findings and family stories Dr Newman shares her knowledge and gives down to earth advice making this the most accessible up to date handbook of its kind For couples who are already raising an only child or for those who are exploring the option Parenting an Only Child offers encouraging clarity and singular insight Now with a new resource section **Richer and Poorer** Allahar, Anton, Côté, James E., 1998 Inequality increased in Canada throughout the 1990s Despite government programs designed to confront the problem more people than ever lived below the poverty line with the young women and visible minorities at greatest risk Richer and Poorer describes the problem of inequality and explains why it is so hard to eradicate The authors discuss why public policy and programs have not succeeded in ending gender racial or other types of inequality and why without action inequality in Canada will only increase Richer and Poorer is an acute and detailed analysis of the disparities of wealth and poverty as experienced in 1990s Canada **Growing Up in America** N. Ray Hiner, Joseph M. Hawes, 1985 Growing Up in America offers substantial and dramatic evidence that the history of childhood has come of age Its authors demonstrate the breadth and depth of interest as well as high quality of work in a field that is finally attracting the attention it deserves Strongly influenced by new social history and its concern for the powerless and inarticulate Growing Up in America provides illuminating insights on children from infancy to adolescence and from the colonial period to present The very title of this fine and enormously instructive anthology of essays makes its quiet but important point that children grow up in a particular nation rather than in a family or home isolated from the influence of social cultural political and historical forces An admirably diverse and instructive collection Georgia Historical Quarterly

In Defense of Childhood Chris Mercogliano, 2007 As codirector of the Albany Free School Chris Mercogliano has had remarkable success in helping a diverse population of youngsters find their way in the world He regrets however that most kids lives are subject to some form of control from dawn until dusk Lamenting risk averse parents overstructured school days and a lack of playtime and solitude Mercogliano argues that we are robbing our young people of that precious irreplaceable period in their lives that nature has set aside for exploration and innocent discovery leaving them ill equipped to face adulthood The domestication of childhood squeezes the adventure out of kids lives and threatens to smother the spark that animates each child with talents dreams and inclinations There is plenty that those involved with children can do to protect their spontaneity and exuberance We can address their desperate thirst for knowledge give them space to learn from their mistakes and let them explore what their place in the adult world might be **Social Science Quarterly**, 1988 Includes section Book reviews **American Smart Cinema** Claire Perkins, 2013-01-14 American Smart Cinema examines a contemporary type of US filmmaking that exists at the intersection of mainstream art and independent cinema and often

gives rise to absurd darkly comic and nihilistic effects
