Murray, Mathew Forstater, 2017-01-25 The contributors to this edited collection argue that a flexible Job Guarantee program able to react to an economy's fluctuating need for work would stabilize the labor standard the value of employment in relation to money During economic downturns the program would expand to provide more public sector jobs in response to private sector layoffs It would then contract when economic growth offered private sector employment opportunities This flexible full employment program would create a balanced perpetually active labor force providing the macroeconomic stability necessary to define a functioning labor standard Just as the gold standard measured the worth of money against gold reserves John Maynard Keynes argued so a labor standard ought to measure the value of money in terms of its labor equivalent However he failed to account for the fact that unlike a gold standard a labor standard does not have any kind of surety that money will continue to match its value in paid work over time Together the contributors argue that full employment would provide this missing security and allow authorities to define the value equivalencies of money and labor the way that money once represented its exact equivalent in gold *Modern Essays* Swati Aggarwal, Kama Choudhary, Madhulika Malik, 2018-04-20 Nowadays number of competitive and recruitment examinations test the writing ability of the aspirants by including a descriptive English section in the exam The Descriptive English section covers essay and passage writing to evaluate the effective writing skills of the aspirants The present book contains ample number of modern essays which are or may be asked in a number of competitive recruitment examinations The present book on Modern Essays has been divided into ten sections namely Current Affairs Society Social Issues Economy Infrastructure Education Science Technology Great Personalities Constructive Writing General Topics Environment Ecology Climate Famous Proverbs Sayings and Miscellaneous The Current Affairs section covers Mars Orbiter Mission MOM Make in India Mission to Glory Ebola Kailash Satyarthi etc whereas the Society Social Issues contains Social Evils Curse of Dowry System Female Foeticide Drug Abuse Generation Gap Corruption in India Population Explosion Poverty in India etc The Economy Infrastructure section covers Agriculture in India An Indian Farmer Mineral Wealth of India Banking in India Economic Reforms Indian Economy Globalisation etc whereas the Education section covers Right to Education RTE Vocational Education Sex Education in School etc The Science Technology section has been divided into Internet Boon India A Software Super Power Blossoming of Social Media Health Advancements A Flat on Moon Cloning etc whereas the Great Personalities section covers Ashoka the Great Nelson Mandela Sir CV Raman Kalpana Chawla Abraham Lincoln Helen Keller MS Dhoni Milkha Singh Mary Kom etc The Constructive Writing section has been divided into Independence Day My Childhood Memories My
