*The Global Competitiveness Report 2002-2003* World Economic Forum, 2003-03-27 The annual Global Competitiveness Report is widely recognized as the world's leading cross country comparison of data and information relating to economic competitiveness and growth Over the years the Report has become the most authoritative and

comprehensive assessment of the comparative strengths and weaknesses of national economies throughout the world The

World Economic Forum continues its tradition of excellence with The Global Competitiveness Report 2002 2003 which

provides the most updated and recent data rankings and analysis of 75 industrialized and emerging economies and the latest thinking and research from prominent academics and international institution leaders on global competitiveness This year's

report begins by presenting the widely quoted global competitive index that really comprises two indices one for growth and

one for productivity It then provides global and regional analyses with examinations of the competitive landscapes of Africa

Asia Central and Eastern Europe and Latin America Essays on a wide range of special topics follow including national

innovative capacity governance foreign direct investment and trade performance The Report concludes with detailed country

profiles data presentation and an exhaustive survey of senior business executives that touches on business conditions

infrastructure the character of the regulatory regime the quality of government organized labor corruption and tax evasion

performance or productivity

**IMF Staff Papers, Volume 56, No. 4** International Monetary Fund. Research Dept., 2009-11-04 This paper empirically evaluates four types of costs that may result from an international sovereign default

reputational costs international trade exclusion costs costs to the domestic economy through the financial system and

political costs to the authorities It finds that the economic costs are generally significant but short lived and sometimes do

not operate through conventional channels The political consequences of a debt crisis by contrast seem to be particularly

dire for incumbent governments and finance ministers broadly in line with what happens in currency crises
