Economic Geography Resource Use Locational Choices And Regional Specialization In The Global Economy:

Economic Geography Brian J. L. Berry, Edgar C. Conkling, David Michael Ray, 1987 **A Companion to Economic Geography** Eric Sheppard, 2008-04-15 A Companion to Economic Geography presents students of human geography with an essential collection of original essays providing a key to understanding this important subdiscipline The contributions are written by prominent international scholars offering a wide ranging overview of the field Places economic geography in the wider context of geography Contributions from leading international scholars in the field Presents a comprehensive up to date and accessible overview of all the major themes in the field Explores key debates controversies and questions using a variety of historical and theoretical vantage points Charts the important work that has been done in recent years and looks forward to new developments in the global economy *The Economic Geography of the Tourist Industry* Keith G. Debbage, Dimitri Ioannides, 1998-04-02 The Economic Geography of the Tourist Industry bridges the gap between tourism research and economic geography by bringing together leading academics in geography planning and tourism The authors explain tourism s definitions and examine whether tourism can be categorized as an industry They provide detailed analyses of key sectors such as tour *Racism and Anti-Racism in World Perspective* Benjamin Bowser, 1995-09-18 Bowser is a unique and valuable resource for students and scholars of race relations The book s contributors come from a wide range of backgrounds including anthropology classics sociology political science communications and history They examine racism and anti racism through the historical and cultural lenses of different world settings including Europe South America Africa America and the Caribbean World Trade Since 1431 Peter J. Hugill, 1993 In 1431 the Portuguese navigator Velho set sail into the Atlantic establishing a trade route to the Azores and marking the beginning of commerce with the West as we know it today Equipped with reliable maps and instruments for open ocean navigation and highly sea worthy three masted cannon armed ships Portugal soon dominated the Atlantic trade routes until the diffusion of Portuguese technologies to wealthier polities made Holland the eventual successor owing to its geographic position and its immense commercial fleet Beyond Edge Cities Richard D. Bingham, William M. Bowen, Yosra Amara, 2013-05-13 In his influential 1991 book Edge City Joel Garreau argued that every American city is growing in the fashion of Los Angeles with multiple urban cores He named these cores edge cities because they perform all of the city functions but rise in places that were farmlands or villages only decades ago far from the old downtowns This new book expands and clarifies Garreau s pioneering concept as it develops a comprehensive theory of edge city growth and functions The contributors draw on their expertise as geographers political scientists economics planners and sociologists to offer a wide range of insights and analyses **The Earth as Transformed by Human Action** B. L. Turner, William C. Clark, Robert W. Kates, John F. Richards, Jessica T. Mathews, William B. Meyer, 1993-01-29 The Earth as Transformed by Human Action is the culmination of a mammoth undertaking involving the examination of the toll our continual strides forward technical and social take on our world The purpose of such a study is to

document the changes in the biosphere that have taken place over the last 300 years to contrast global patterns of change to those appearing on a regional level and to explain the major human forces that have driven these changes The first section deals strictly with the major human forces of the past 300 years and the second is a detailed account of the transformations of the global environment wrought by human action The final section examines a range of perspectives and theories that purport to explain human actions with regard to the biosphere

Development in Crisis Rae Lesser Blumberg, Samuel Cohn, 2015-08-20 Development in Crisis Threats to human well being in the Global South and Global North is a provocative engaging and interesting collection of real world case studies in development and globalization focusing on under emphasized threats to growth and human welfare worldwide Created by two of America s top development sociologists it targets undergraduates graduates academics and development professionals Crises such as falling state capacity declining technological innovation increasing class inequality and persisting gender inequality are considered along with their economic and social consequences

The Global Economy Brian J. L. Berry, Edgar C. Conkling, David Michael Ray, 1993 Taking a global approach to economic geography this text analyses the changing character of human and physical resources and provides an introduction to spatial economics The book provides a thorough review of the theories of location and trade and demonstrates the interrelatedness of spatial processes and uses real world examples and simplified diagrams throughout The authors examine the forces reshaping the global economy the new sequence of stages of economic development that is emerging and the cultural differences among nation states that serve as countervailing pressures to globalization

Urban Ecology John Marzluff, Eric Shulenberger, Wilfried Endlicher, marina Alberti, Gordon Bradley, Clare Ryan, Craig ZumBrunnen, Ute Simon, 2008-01-03 Urban Ecology is a rapidly growing field of academic and practical significance Urban ecologists have published several conference proceedings and regularly contribute to the ecological architectural planning and geography literature However important papers in the field that set the foundation for the discipline and illustrate modern approaches from a variety of perspectives and regions of the world have not been collected in a single accessible book Foundations of Urban Ecology does this by reprinting important European and American publications filling gaps in the published literature with a few targeted original works and translating key works originally published in German This edited volume will provide students and professionals with a rich background in all facets of urban ecology The editors emphasize the drivers patterns processes and effects of human settlement The papers they synthesize provide readers with a broad understanding of the local and global aspects of settlement through traditional natural and social science lenses This interdisciplinary vision gives the reader a comprehensive view of the urban ecosystem by introducing drivers patterns processes and effects of human settlements and the relationships between humans and other animals plants ecosystem processes and abiotic conditions The reader learns how human institutions health and preferences influence and are influenced by the others members of their shared urban ecosystem
