Growing Up with Philosophy Matthew Lipman,1994

Growing Up with Philosophy Camp Claire Elise Katz,2020-08-15

Growing up with Philosophy Camp joins the substantial body of literature that contravenes centuries of thinkers in the history of philosophy who stated emphatically that children either could not or should not engage in philosophical discourse This book differs from the rest of the literature in that it reveals the extraordinary impact of philosophy camps for pre college age students as young as 6 years old through high school Often only a week in duration philosophy camp combines the intensity of both summer camp and philosophical dialogue creating a powerful experience for young people who contrary to cynical views of youth today desire intellectual engagement Through the chapters by the staff who facilitate discussions a university dean who supported the program and reflections from campers and parents a recurring theme emerges philosophy camps build authentic friendship intellectual community and an increased awareness of self identity Yet the chapters display remarkable diversity by connecting the experience of philosophy camp to questions in the history of philosophy philosophy s relationship to artistic creation and the therapeutic value of philosophical discourse

Growing Up with Philosophy Matthew Lipman,Ann Margaret Sharp,1978

Childhood, Philosophy and Open

Society Chi-Ming Lam,2013-02-26 The purpose of this book is to develop a theory and practice of education from Karl Popper s non justificationist philosophy for promoting an open society Specifically the book is designed to develop an educational programme for fostering critical thinking in children particularly when they are involved in group discussion The study conducted an experiment to assess the effectiveness of Matthew Lipman s Philosophy for Children P4C programme in promoting Hong Long Chinese children s critical thinking Forty two Secondary 1 students volunteered for the experiment from whom 28 students were randomly selected and randomly assigned to two groups of 14 each one receiving P4C lessons and the other receiving English lessons The students who were taught P4C were found to perform better in the reasoning

test than those who were not to be capable of discussing philosophical problems in a competent way and to have a very positive attitude towards doing philosophy in the classroom It was also found that P4C played a major role in developing the students critical thinking Considering that the construction of children by adults as incompetent in the sense of lacking reason maturity or independence reinforces the traditional structure of adult authority over children in society it runs counter to the goal of fostering critical thinking in children As a way to return justice to childhood and to effectively promote critical thinking in children the present study suggested reconstructing the concept of childhood highlighting the importance of establishing a coherent public policy on promotion of agency in children and also the importance of empowering them to participate actively in research legal and educational institutions

Childhood, Education and Philosophy Walter

Kohan,2014-10-24 This book explores the idea of a childlike education and offers critical tools to question traditional forms of education and alternative ways to understand and practice the relationship between education and childhood Engaging with the work of Michel Foucault Jacques Rancière Giorgio Agamben and Simón Rodríguez it contributes to the development of a philosophical framework for the pedagogical idea at the core of the book that of a childlike education Divided into two parts the book introduces innovative ideas through philosophical argument and discussion challenging existing understandings of what it means to teach or to form a child and putting into question the idea of education as a process of formation The first part of the book consists of a dialogue with a number of interlocutors in order to develop an original conception of education The second part presents the idea of a childlike education beginning with a discussion of the relationships between childhood and philosophy and followed by a critique of the place of philosophical experience in a childhood of education Instead of asking how philosophy might educate childhood this book raises the question of how childhood might educate philosophy It will be of key value to researchers educators and postgraduate students in the fields of education and the human sciences

Why Grow Up? Susan Neiman,2015-05-05 Accessible philosophy doesn't get much better than this insightful review of what Enlightenment thinkers such as Kant and Rousseau have to offer people today Publishers Weekly starred review In *Why Grow Up* the philosopher Susan Neiman asks not just why one should grow up but how In making her case she draws chiefly from the thought of Kant and Rousseau who articulated very different theories on the proper way to come of age But these thinkers complement each other in seeking a path between mindlessly accepting everything you're told and mindlessly rejecting it and in learning to live without despair in a world marked by painful realities and uncertainties Neiman challenges both those who dogmatically privilege innocence and those who see youth as weakness Her chief opponents are those who equate maturity with cynicism In our day it is more common to meet people who are stuck in the mire of adolescence The world turns out not to reflect the idea and ideals they had for it So much the worse for ideals To move beyond these immature positions Neiman writes is not simply to lapse into quiet resignation but to learn to take joy and satisfaction in what can be done and known and to face rather than feel defeated by our inevitable limits Neiman comes across as a patient

pedagogue rather than an angry scold Why Grow Up isn't an exercise in pop culture polemics or pop sociological cherry picking It's a case for philosophy of an admirably old fashioned kind The New York Times Book Review A spirited defence of the aspiration to maturity The Guardian Growing Up Muslim Andrew C. Garrod, Robert Kilkenny, 2014-04-15 While 9/11 and its aftermath created a traumatic turning point for most of the writers in this book it is telling that none of their essays begin with that moment These young people were living probing and shifting their Muslim identities long before 9/11 I've heard it said that the second generation never asks the first about its story but nearly all the essays in this book include long intimate portrayals of Muslim family life often going back generations These young Muslims are constantly negotiating the differences between families for whom faith and culture were matters of honor and North America's youth culture with its emphasis on questioning exploring and inventing one's own destiny from the Introduction by Eboo Patel In *Growing Up Muslim* Andrew Garrod and Robert Kilkenny present fourteen personal essays by college students of the Muslim faith who are themselves immigrants or are the children of immigrants to the United States In their essays the students grapple with matters of ethnicity religious prejudice and misunderstanding and what is termed Islamophobia The fact of 9/11 and subsequent surveillance and suspicion of Islamic Americans particularly those hailing from the Middle East and the Asian Subcontinent have had a profound effect on these students their families and their communities of origin

Growing Up in Nineteenth-Century Ireland Mary Hatfield, 2019-10-03 Why do we send children to school Who should take responsibility for children's health and education Should girls and boys be educated separately or together These questions provoke much contemporary debate but also have a longer often overlooked history Mary Hatfield explores these questions and more in this comprehensive cultural history of childhood in nineteenth century Ireland Many modern ideas about Irish childhood have their roots in the first three quarters of the nineteenth century when an emerging middle class took a disproportionate role in shaping the definition of a good childhood This study deconstructs several key changes in medical care educational provision and ideals of parental care It takes an innovative holistic approach to the middle class child's social world by synthesising a broad base of documentary visual and material sources including clothes books medical treatises religious tracts photographs illustrations and autobiographies It offers invaluable new insights into Irish boarding schools the material culture of childhood and the experience of boys and girls in education

Teaching Democracy in an Age of Uncertainty Gilbert Burgh, Simone Thornton, 2021-11-29 The strength of democracy lies

in its ability to self correct to solve problems and adapt to new challenges However increased volatility resulting from multiple crises on multiple fronts humanitarian financial and environmental is testing this ability By offering a new framework for democratic education Teaching Democracy in an Age of Uncertainty begins a dialogue with education professionals towards the reconstruction of education and by extension our social cultural and political institutions This book is the first monograph on philosophy with children to focus on democratic education The book examines the ways in which education can either perpetuate or disrupt harmful social and political practices and narratives at the classroom level It is a rethinking of civics and citizenship education as place responsive learning aimed at understanding and improving human environment relations to not only face an uncertain world but also to face the inevitable challenges of democratic disagreement beyond merely promoting pluralism tolerance and agreement When viewed as a way of life democracy becomes both a goal and a teaching method for developing civic literacy to enable students to articulate and apprehend more than just the predominant political narrative but to reshape it This book will be of interest to scholars of philosophy political science education democratic theory civics and citizenship studies and peace education research

Democracy Growing Up Laura Janara, 2012-02-01 Finalist for the 2004 C B Macpherson Prize presented by the Canadian Political Science Association Winner of the Best First Book Award presented by the Foundations of Political Theory section of the American Political Science Association Tocqueville's Democracy in America continues to be widely read but for all this familiarity the vivid imagery with which he conveys his ideas has been overlooked left to act with unexamined force upon readers imaginations In this first sustained feminist reading of Democracy in America Laura Janara assesses the dramatic feminine masculine and infantile metaphorical figures that represent the historical political drama that is Tocqueville's primary topic These tropes are analyzed as both historical artifacts and symbols for psychoanalytic interpretation deepening and complicating the standing interpretations of Tocqueville's work Democracy Growing Up comments critically upon the peculiar gendered and familial foundations of modern Western democracy and upon the notion of democratic maturity that Tocqueville offers us

Growing Up Absorbed Richard S. Gilbert, 2014 How long does it take to grow a soul to love and to be loved and to help repair the world One lifetime so it is best to be totally engaged in the process Growing Up Absorbed follows the journey from cradle to grave through an education focus There are no shortcuts in this spiritual pilgrimage It can be hard but we are companioned along the way What happens is what Gilbert calls spiritual osmosis absorbing what the world has to teach us and passing on what we have learned an absorbing business Within these covers lies a history of religious education in the Unitarian Universalist tradition with reflections on faith development in the 21st century Beginning with Walt Whitman's poem A Child Went Forth as a metaphor the author concludes with life questions that empty the room He finds the journey has its valleys plateaus and mountain peaks and is no casual matter Gilbert shares his excitement on making the journey

Gareth B. Matthews, The Child's Philosopher Maughn Rollins Gregory, Megan Jane

Laverty, 2021-08-26 Winner of the 2022 Book Award of the Philosophy of Education Society of Australasia Gareth B Matthews

The Child's Philosopher brings together groundbreaking essays by renowned American philosopher Gareth B Matthews in three fields he helped to initiate: philosophy in children's literature, philosophy for children, and philosophy of childhood. In addition, contemporary scholars critically assess Matthews' pioneering efforts and his legacy. Gareth B Matthews (1929–2011) was a specialist in ancient and medieval philosophy who had conversations with young children, discovering that they delight in philosophical puzzlement and that their philosophical thinking often enriched his own understanding. Those conversations became the impetus for a substantial component of Matthews' scholarship, from which this book features essays spanning the length of his career. Contemporary contributors to the book critically evaluate Matthews' scholarship, showing where he broke new ground and identifying developments and debates in the fields he helped to initiate. They take up pressing challenges, including biased idealizations of childhood in children's literature, the tensions between teaching philosophy to and doing philosophy with young people, the merits of theorizing childhood without theorizing children, and how professional philosophy at once desires and resists a return to childhood. This second volume in the *Philosophy for Children Founders* series is an important resource for philosophers, educators, and anyone interested in children's philosophical thinking, developmental psychology, what it means to philosophize with children, the nature of childhood, and how children's literature goes philosophical. It will guide and inspire those who share Matthews' conviction that the impulse to philosophize begins in early childhood. Contributors, in addition to Gareth B Matthews, include Stephanie Burdick, Shepherd Cristina Cammarano, Claire Cassidy, Stanley Cavell, Maughn Rollins Gregory, Jennifer Glaser, Walter Omar Kohan, Megan Jane Laverty, Jana Mohr Lone, Karin Murris, Peter Shea, Susan M. Turner, Susannah Sheffer.

Living in Truth, Beauty, and Goodness Jeffrey Wattles, 2016-07-21

Truth, beauty, and goodness are more than traditional ideas; they are living realities bearing dynamic potentials for a future we can help create. As we grow, these supreme values increasingly guide our thinking, feeling, and doing. No matter what your philosophical, religious, or spiritual orientation may be, having a philosophy of living centered on these ideals will enhance your understanding and integration. Seasoned by the author's experience in leading thousands of students through experiential projects, *Living in Truth, Beauty, and Goodness* contains all the essential ingredients to help you develop your own personal philosophy. Your guides are Darwin, Socrates, Jesus, Bach, and other world-class pioneers whose strengths and insights can inspire you to develop a resilient and virtuous character. As you explore truths in science, philosophy, and spiritual experience, beauty in nature and the arts, and goodness in morality and character, you will be encouraged to transplant what is proposed here into the garden of your own concepts and then creatively to put the emerging meanings and values into practice.
