Growing Up Fast:

Growing Up Fast, 2004-11 Tells the life stories of six teen mothers whom Joanna Lipper first met in 1999 when they were all enrolled in the Teen Parent Program in Pittsfield Massachusetts They shared with her the daily reality of their lives and their experiences growing up in the economically depressed postindustrial landscape of Pittsfield Jacket Growing Up Fast and Furious Wayne Warburton, Danya Braunstein, 2012 I am often approached by parents and professionals who work with children who have heard conflicting reports about the effects of violent or sexualised media on children Usually they simply want to know what the scientific research has found This book summarises the research findings in plain language World leading scholars in disciplines such as psychology psychiatry neuropsychology law and ethics discuss what we currently know about the effects of television movies video games music and advertising as well as the ethical legal and policy implications This book is anchored in up to date scientific evidence offers plenty of helpful practical advice and will assist everyone with an interest in the effects of media on children to be well informed Wayne Warburton The breadth of content and diversity of contributors come together to discuss important issues raised in the book John Murray on behavioural and neurological effects of viewing violence on children Craig Anderson and Wayne Warburton on the effects of violent video games Wayne Warburton on the effects of music and music lyrics Ed Donnerstein on the impact of the internet on youth and children Louise Newman on the sexualisation of youth on the role of the media in such sexualisation and on the potential effects of restricting the distribution of sexual themes in the mass media Cordelia Fine on the roles that advertisements in the mass media and particularly highly sexualised advertisements play in altering children's self images and behaviour Emma Rush philosophical ethicist asks in the context of media effects and media regulation Are principles or consequences more important Is it more ethical to empower children or to protect them What is the most ethical balance between allowing freedom of expression and protecting children from harm Elizabeth Handsley exposes the difficulties of formal government regulation of violent and sexual media in societies that value free expression Danya Braunstein and her colleagues make a strong plea to base regulation on empirical evidence rather than on political or even ethical positions The evidence is in they correctly point out so let's base regulation on the evidence that is in and let's do it now Alan Hayes points out the multiply determined nature of aggressive and violent behaviour that needs to be addressed if real reductions in violence are to be obtained Growing Up Healthy, 2005 **Growing up with Parents who have Learning Difficulties** Tim Booth, Wendy Booth, 2005-08-10 Growing up with Parents who have Learning Difficulties uses a life story approach to present new evidence about how children from such families manage the transition to adulthood and about the longer term outcomes of such an upbringing It offers a view of parental competence as a social attribute rather than an individual skill assessing the implications for institutional policies and practices The authors address the notion of children having to parent their disabled parents and argue for a shift in emphasis from protecting children to supporting families This innovative book

provides a fresh approach to a subject rife with prejudice and challenges us to think again about many taken for granted ideas about the process of parenting and the needs of children. It also demonstrates the power of narrative research and its capacity for bringing alive people's experience in a way that enables us to better understand their lives. *Mental* Jermaine Pennant, John Cross, 2018-08-09 I've seen things no one else has seen in football. Jermaine Pennant is one of English football's most controversial figures. Love him or loathe him, there is no ignoring the story he has to tell. Raised by a mother who faked her own death to abandon her black baby and a father who kept guns and Class A drugs in the house, meant that life's options for a young Jermaine were limited. Yet he saw professional football as his way out and took his chance, emerging to be one of England's most gifted young footballers. A true prodigy, Jermaine climbed to the pinnacle of his sport to compete for the highest honours with legends at Arsenal and Liverpool. The boy from one of England's toughest neighbourhoods was barely into his twenties and rich beyond his wildest dreams. But for Jermaine, some of life's most important lessons were learned late. His outrageous lifestyle would spark a fall from the dizzying heights he had reached, ensuring he'd be remembered as much for being the mental yob with an ankle tag as for his heroic performance in a Champions League final. Jermaine Pennant has seen and done it all: the highs, the lows, and everything in between. His autobiography is a gritty coming-of-age story, an exposé into the excess-fuelled life of a super-rich Premier League footballer and a cautionary tale of the dangers of plying young players with too much too young. His turbulent climb through the battleground of the beautiful game holds a mirror up to the broken face of English football. Told with unblinking truth, his story is a no-holds-barred riot of determination and debauchery, excellence and excess. *Missing Children* James N. Tedisco, Michele Antoinette Paludi, 1996-01-01 Child abduction is the most widespread form of child victimization studied. In 1992 alone, a total of 27,553 cases of missing children were reported in New York State through the Missing Children Register. The majority of missing children cases involved suspected runaways. Abduction cases accounted for one percent of the total report; those committed by family members comprised the most frequent form of abduction, as opposed to abduction by strangers. In addition, 88 percent of the children reported missing were age 13 or older, 60 percent were girls, and 58 percent were white. Child abduction is a serious socio-economic problem. Until now, there has been no text that addresses the incidence, psychological dimensions, and explanatory models of child abductions. This book fills a need by focusing on variables that assist in confronting and preventing child abductions, including teacher training, public education, and awareness, psychotherapeutic techniques for families and friends of abducted children, as well as the children themselves. *The Hurried Child* David Elkind, 2010-09-07 With the first edition of *The Hurried Child*, David Elkind emerged as the voice of parenting reason, calling our attention to the crippling effects of hurrying our children through life. He showed that by blurring the boundaries of what is age-appropriate by expecting or imposing too much too soon, we force our kids to grow up too fast to mimic adult sophistication while secretly yearning for innocence. In the more than two decades since this book first appeared, new generations of parents have inadvertently stepped up the

assault on childhood in the media in schools and at home In the third edition of this classic 2001 Dr Elkind provided a detailed up to the minute look at the Internet classroom culture school violence movies television and a growing societal incivility to show parents and teachers where hurrying occurs and why And as before he offered parents and teachers insight advice and hope for encouraging healthy development while protecting the joy and freedom of childhood In this twenty fifth anniversary edition of the book Dr Elkind delivers important new commentary to put a quarter century of trends and change into perspective for parents today

Walking with Hope Paul Niles, 2021-04-27 I was in tears at this cross on top of this mountain in Riverside California and asking the Lord to give me back my mother and family You see I came from a broken home We are all over the states Then I saw flashes of light in the clouds like he heard my prayers Then I found myself in the hospital after being shot seven times Twice in the back of my head and once in the heart It was a professional hit Someone didn't like me very much I thought I did something bad to end up in hell My whole family was back together for a short time my sister and her family my brothers on both sides of my parents my aunts and uncle my stepfather and most of all my mother Now I say that's a miracle if ever I heard of one The Father is here He exists in every one of us In this book I will show you how to hear from him the All Mighty You just have to let things be Let it be let it be let it be let it be speaking words of wisdom let it be I tried a lot of different lifestyles before I was awakened by the Lord after being shot seven times I mean I was running wild without a care in the world Well I'm finally on the right path he had led me on It was all for a reason and that reason is to prove that there is a Lord named Jesus Christ
