Park,2014-12-20 Although everybody in the world is singing about love dream money and happiness ironically not many people know what these things really are I became an artist for my dream which was to do something for the environment and I came to New York City for the dream But ironically I realized

that I didn't even know what the environment really was before I came to New York City I have done a nonprofit sign campaign for the environment in Times Square in the fall of 2011 and spring of 2014 I saw and met many people who were from all over the world The people and New York City have given me some answers in life To do something for the environment I have also picked up a lot of cigarette butts that no one really cared about on the streets of New York City Then I put the thrown cigarette butts into many different glass jars I have slowly realized that the most important thing for the environment was happiness because happiness is the primary reason for all lives There are many different reasons for each of our lives but all the reasons lean to one point That is happiness And unhappiness is the third pollution source that makes people careless with everything No one can well take care of other things if the person's level of happiness is too low We have to be happy first no matter what To be happy we need to know what happiness really is as well as the other very important things in life These eight things are the answers that I've learned from my life and from New York City
