Catalog of Books**, 1996 *Democratic Education for Social Studies* Anna S. Ochoa-Becker, 2006-12-01 In the first edition of this book published in 1988 Shirley Engle and I offered a broader and more democratic curriculum as an alternative to the persistent back to the basics rhetoric of the 70s and 80s This curriculum urged attention to democratic practices and curricula in the school if we wanted to improve the quality of citizen participation and strengthen this democracy School practices during that period reflected a much lower priority for social studies Fewer social studies offerings fewer credits required for graduation and in many cases the job descriptions of social studies curriculum coordinators were transformed by changing their roles to general curriculum consultants The mentality

that prevailed in the nation's schools was back to the basics and the basics never included or even considered the importance of heightening the education of citizens. We certainly agree that citizens must be able to read, write, and calculate, but these abilities are not sufficient for effective citizenship in a democracy. This version of the original work appears at a time when young citizens, teachers, and schools find themselves deluged by a proliferation of curriculum standards and concomitant mandatory testing. In the 90s, virtually all subject areas including United States history, geography, economic, and civics developed curriculum standards, many funded by the federal government. Subsequently, the National Council for the Social Studies issued the Social Studies Curriculum Standards that received no federal support. Accountability, captured in the No Child Left Behind Act passed by Congress, has become a powerful political imperative that has a substantial and disturbing influence on the curriculum, teaching, and learning in the first decade of the 21st century. *Rethinking Our Classrooms, Volume 1*, *The Social Studies*, 1921 *Scott Foresman Social Studies*, 2005 *Data Book of Social Studies Materials and Resources*, 1984 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1976 *Resources in Education*, 1991 *The SAGE Handbook for Research in Education* Clifton F. Conrad, Ronald C. Serlin, 2011-06-10. The SAGE Handbook for Research in Education Pursuing Ideas as the Keystone of Exemplary Inquiry, edited by Clifton F. Conrad and Ronald C. Serlin, stimulates and encourages students, faculty, and educational practitioners, including individuals in Pre K-16 education, government, and the private sector, who conduct applied and policy-oriented educational research to place the pursuit of ideas at the epicenter of their research, from framing meaningful problems to identifying and addressing key challenges to the reporting and dissemination of their findings. As well as supporting readers to place the pursuit of ideas as the keystone of exemplary inquiry, the Handbook draws on the perspectives of scholars representing diverse fields within the field of education, from pre-kindergarten to elementary and secondary school to higher education, as well as qualitative, quantitative, and mixed methods approaches to inquiry. The chapters are punctuated throughout by the voices of authors who wrestle with the formidable challenges of framing and conducting and reporting meaningful inquiry. *School and Home Education*, 1917 *The Public School Journal*, 1918 *The Nation*, 1913 **The Publishers Weekly**, 1904 **State Adopted Textbooks; Circular for School Officers** Oregon.
