## **Growth Of The Red Army:**

**The Growth of the Red Army** Dimitri Fedotoff White, 1944      **The Development of the Soviet Armed Forces, 1917-1966** Kenneth R. Whiting, 1966 This document describes the development of the Soviet Armed Forces during the period 1917 through 1966 It includes the organization the size the quality and the weapons as they evolved during this time

Red Army Self-Propelled Guns of the Second World War Alexey Tarasov, 2025-01-30 Among all the branches of the Red Army during the Second World War self propelled artillery is probably the most overlooked and misinterpreted Attention has focused on the tanks the Red Army deployed against the Germans on the Eastern Front the T 34 in particular the self propelled guns which played an increasingly important tactical role after the shocking defeats of 1941 and 1942 have been neglected Alexey Tarasov in this detailed wide ranging and very heavily illustrated history describes how the Soviets rose to the challenge of creating a series of self propelled guns in extraordinarily difficult wartime conditions and he assesses and illustrates all the types they produced Also he covers the organization training tactics and combat operations of the self propelled artillery units When the Germans invaded the Soviets lacked self propelled artillery believing that tanks and field guns would provide sufficient support for their infantry But the effectiveness of the German assault guns persuaded them that they had to design similar armoured vehicles and rapidly they did so As the author shows by the end of the war after an intense process of improvisation and development they fielded self propelled guns in particular the SU 76 SU 122 and SU 152 which matched those of the Germans in terms of performance and heavily outnumbered them on the battlefield Alexey Tarasov s photographic history will be essential reading for anyone who has a special interest in Soviet armour and armoured warfare in general and it will be a valuable source for modellers      *The Development of the Soviet Armed Forces, 1917-1977* Kenneth R. Whiting, 1978      **Mao's Road to Power: Revolutionary Writings, 1912-49: v. 4: The Rise and Fall of the Chinese Soviet Republic, 1931-34** Zedong Mao, Stuart Schram, 2016-04-08 This projected ten volume edition of Mao Zedong s writings provides abundant documentation in his own words regarding his life and thought It has been compiled from all available Chinese sources including the many new texts that appeared in 1993 Mao s centenary      **The 1929 Sino-Soviet War** Michael Walker, 2021-02-01 For seven weeks in 1929 the Republic of China and the Soviet Union battled in Manchuria over control of the Chinese Eastern Railroad It was the largest military clash between China and a Western power ever fought on Chinese soil involving more than a quarter million combatants Michael M Walker s *The 1929 Sino Soviet War* is the first full account of what UPI s Moscow correspondent called the war nobody knew a limited modern war that destabilized the region s balance of power altered East Asian history and sent grim reverberations through a global community giving lip service to demilitarizing in the wake of World War I Walker locates the roots of the conflict in miscalculations by Chiang Kai shek and Chang Hsueh liang about the Soviets political and military power flawed assessments that prompted China s attempt to reassert full authority over the CER The Soviets on the other hand were dominated by a

Stalin eager to flex some military muscle and thoroughly convinced that war would win much more than petty negotiations This was in fact Walker shows a watershed moment for Stalin his regime and his still young and untested military disproving the assumption that the Red Army was incapable of fighting a modern war By contrast the outcome revealed how unprepared the Chinese military forces were to fight either the Red Army or the Imperial Japanese Army their other primary regional competitor And yet while the Chinese commanders proved weak Walker sees in the toughness of the overmatched infantry a hint of the rising nationalism that would transform China s troops from a mercenary army into a formidable professional force with powerful implications for an overconfident Japanese Imperial Army in 1937 Using Russian Chinese and Japanese sources as well as declassified US military reports Walker deftly details the war from its onset through major military operations to its aftermath giving the first clear and complete account of a little known but profoundly consequential clash of great powers between the World Wars      **The Soviet Military And The Communist Party** Roman Kolkowicz,2019-07-11

This book investigates the relationship between the Communist Party and the military establishment in the Soviet Union It indicates that there are several factors influencing the dynamics of that relationship and thus the respective roles of the protagonists      **The Red Army** Erich Wollenberg,1973      **The Growth of the Red Army** D. Fedotoff White,1954

**Economic Management And Big Data Application - Proceedings Of The 3rd International Conference** Sikandar Ali Qalati,2024-01-03 This book mainly focuses on the research fields of Economic Management and Big Data Applications specifically on the combination of the two It covers all the excellent papers presented in the 3rd International Conference on Economic Management and Big Data Application ICEMBDA 2022 and aims to provide a solid reference for experts and scholars engaged in the fields of economics management science data modeling and cloud computing to share typical cases scientific methods cutting edge technologies and novel insights In this age of data the book initiated by the researchers and analysts from various related disciplines will provide more knowledge technical support and directional guidance to promote the development and upgrading of research in management science and economic research      **The Soviet High Command**

John Erickson,2001 The study makes extensive use of Soviet military histories specialist military monographs Red Army regulations military manuals and handbooks memoirs documentary collections on Soviet military organization and Army Party relations Unpublished captured German military documents describe the secret Red Army Reichswehr collaboration Japanese Army records provide detailed information on the Soviet military build up in the Far East      **The Rise to Power of the Chinese Communist Party** Tony Saich,Benjamin Yang,2016-09-16 This collection of documents covers the rise to power of the Chinese communist movement They show how the Chinese Communist Party interpreted the revolution how it devised policies to meet changing circumstances and how these policies were communicated to party members and public      *The Military History of the Soviet Union* F. Kagan,R. Higham,2016-04-30 The Military History of the Soviet Union and The Military History of Tsarist Russia treat Russian military history from the rise of the Muscovite state to the present even

peeking briefly into the future The two volumes will cover Russia's land forces extensively but will also cover the development of the Russian Navy and the creation and development of the Russian Air Force parts of the Russian military machine which are frequently neglected in general writings The historical analysis will address the development and function of the Russian military whether in peace or in war as well as the impact of war and changes in the military upon Russian society and politics **Soviet Military Thought**, 1978 **Sources of Chinese Economic Growth, 1978-1996** Chris

Bramall, 2000-09-14 This analysis of the political economy of growth in the era of Deng Xiaoping takes issue with the growth accounting methodologies and market centred explanations which characterize so much of the literature on transition era China By adopting an approach which echoes the pioneering work of Chalmers Johnson Alice Amsden and Robert Wade on other East Asian Economies and which makes full use of the rich statistical materials that have become available since 1978 this book shows that Chinese growth was driven by a combination of state led industrial policy and the favourable infrastructural legacies of the Maoist era And in giving due weight to the sheer complexity of the growth process by looking in detail at the experience of four very different Chinese regions it avoids over simplistic macroeconomic generalization Nevertheless even this type of approach is inadequate because it fails to explain why industrial policy has been so much more successful in China than in other countries This book therefore goes beyond the development state approach to argue that state autonomy in China reflected the remarkably equal distribution of income and wealth at the end of the 1970s and paradoxically the destruction of party structures and institutions during the Cultural Revolution The policy implications are stark The Chinese experience demonstrates that industrial policy and state spending on physical and social infrastructure can produce rich rewards conversely slavish reliance on foreign direct investment and trade are likely to limit the pace of growth But attempts to replicate China's success in Latin America sub Saharan Africa and South Asia will fail because their governments will not resist rent seeking by classes and interest groups Moreover as the state becomes weaker in the wake of the re emergence of a powerful capitalist class even Chinese growth may prove unsustainable **Colossus Reborn** David

M. Glantz, 2005 Beyond the battles themselves Glantz also presents an in depth portrait of the Red Army as an evolving military institution Assessing more clearly than ever before the army's size strength and force structure he provides keen insights into its doctrine strategy tactics weaponry training officer corps and political leadership In the process he puts a human face on the Red Army's commanders and soldiers including women and those who served in units security NKVD engineer railroad auto transport construction and penal forces that have till now remained poorly understood BOOK JACKET

The Soviet Army's High Commands in War and Peace, 1941-1992 Richard W. Harrison, 2022-07-28 The first full treatment of the unique phenomenon of High Commands in the Soviet Army during World War II and the Cold War The war on the Eastern Front during 1941-45 was an immense struggle running from the Barents Sea to the Caucasus Mountains The vast distances involved forced the Soviet political military leadership to resort to new organizational expedients in order to

control operations along the extended front These were the high commands of the directions which were responsible for two or more fronts army groups and along maritime axes one or more fleets In all five high commands were created along the northwestern western southwestern and North Caucasus strategic directions during 1941-42 However the highly unfavorable strategic situation during the first year of the war as well as interference in day to day operations by Stalin severely limited the high commands effectiveness As a consequence the high commands were abolished in mid 1942 and replaced by the more flexible system of supreme command representatives at the front A High Command of Soviet Forces in the Far East was established in 1945 and oversaw the Red Army's highly effective campaign against Japanese forces in Manchuria The Far Eastern High Command was briefly resurrected in 1947 as a response to the tense situation along the Korean peninsula and the ongoing civil war in China but was abolished in 1953 soon after Stalin's death Growing tensions with China brought about the recreation of the Far Eastern High Command in 1979 followed a few years later by the appearance of new high commands in Europe and South Asia However these new high commands did not long survive the collapse of the Soviet Union in 1991 and were abolished a year later The book relies almost exclusively on Soviet and post communist archival and other sources and is the first unclassified treatment of this subject in any country East or West *The Soviet Military Experience* Roger R. Reese, 2002-01-04 The Soviet Military Experience is the first general work to place the Soviet army into its true social political and international contexts It focuses on the Bolshevik Party's intention to create an army of a new type whose aim was both to defend the people and propagate Marxist ideals to the rest of the world It includes discussion of the origins of the Workers and Peasant's Red Army effects of the Civil War Bolshevik regime's use of the military as a school of socialism effects of collectivization and rapid industrialisation of the 1920s and 1930s Second World War and its profound repercussions ethnic tensions within the army effect of Gorbachev's policies of Glasnost and Perestroika **Hammer and Rifle** David R. Stone, 2000 Analysis of the central role of militarization in the development of state society and economy in the U S S R between the end of the New Economic Plan in 1926 and the conclusion of the first Five Year Plan in 1933 The Soviet Union Peter Waldron, 2018-01-18 The Soviet Union was one of the most significant historical phenomena of the twentieth century This volume brings together key articles that analyse its birth in the 1917 revolution the development of Stalin's tyranny and Soviet decline from the 1960s onwards The collection includes scholarship of the highest quality that illuminates this key episode in the history of both Europe and the wider world
