Growth And Structure In The Economy Of Modern Italy:

Growth and Structure in the Economy of Modern Italy George Herbert Hildebrand, 1965 Study of postwar economic growth and economic structure of Italy comprises 3 parts on 1 economic development monetary policy price stabilisation incomes labour productivity etc 2 human resources and labour force population growth migration the occupational structure unemployment underemployment wage policy social policy wages etc and 3 the dual character of the economy and industrialization Statistical tables bibliography and references

Bibliography of European Economic and Social History Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily

The Growth of the Italian Economy, 1820-1960 Jon S. Cohen, Giovanni Federico, 2001-09-06 This volume in the New Studies in Economic and Social History series examines Italy's transformation from a largely rural state in the nineteenth century to today's industrial powerhouse At the time of unification in 1861 much of the country was backward poor and agrarian few would have believed that a hundred years later Italy would become one of the seven largest industrial countries its people among the wealthiest in the world This process of development and structural change has generated an enormous and evolving literature alive with controversies and compelling insights New research and reinterpretation of existing data have led to a reevaluation of the nature of Italian Dualism while revisions to national income accounts are modifying the traditional picture of economic growth Jon Cohen and Giovanni Federico provide a concise up to date account of this literature highlighting new views on old issues and signalling areas in need of further research

Meritocracy, Growth, and Lessons from Italy's Economic Decline Lorenzo Codogno, Giampaolo Galli, 2022-09-05 This book draws lessons on the importance of meritocracy for economic growth by analysing Italy's economic decline in the past few decades Connections rather than merit are a long standing feature of the Italian elites even in the corporate sector This became a significant problem when Italy's economy could no longer grow due to imitation devaluation and public debt and faced the challenges of becoming a frontier knowledge based open economy This book uses international comparisons on social capital governance the role of the public sector efficiency of the judiciary education gender and social inequality social mobility corporate standards financial structures and more to evaluate Italy's economic performance It argues that the arrogance of mediocracy is more damaging than that of meritocracy Italy experienced an economic miracle after the Second World War and it is still an advanced economy and a member of the G7 Until the 1960s it seemed destined to catch up with the best performing countries Then the growth engine stopped its debt skyrocketed and Italy became a weaker member of the Eurozone Many other countries in the world have heavy historical legacies and low social capital and many others have to

make the jump from imitation led growth to endogenous growth The lessons drawn from studying Italy's case can therefore have important international applications

Contemporary Italy Martin J. Bull, 1996-02-28 A unique bibliographic and historiographic guide to the study of contemporary Italy this book points to over 650 texts that have shaped the academic and scholarly study of postwar Italy It is the first guide to include a genuine mix of English language and Italian language materials and to approach these materials in a historiographic as well as a bibliographic manner It is an ideal guide for English North American and Italian scholars who have just begun their study of Italy or want to know more about research in areas outside their area of expertise Following the introduction which outlines the context within which the evolution of Italian studies should be viewed the book is divided into two parts Part I includes five historiographic chapters providing a detailed survey and analysis of works published in history politics government the economy and society Part II is an annotated bibliographic guide to all of the texts pointed to in Part I

The Italian Economy at the Dawn of the 21st Century Massimo Di Matteo, Paolo Piacentini, 2018-05-08 This title was first published in 2003 Most of the essays collected in this volume are the revised versions of the reports presented at a conference held at the University of Tokyo in October 2001 organised as part of the initiatives of the Italian Year in Japan and supported by the Foundation Italy in Japan 2001 the Italian Chamber of Commerce in Tokyo the Italian Ministries of Foreign Affairs and of Higher Education and the University of Tokyo The essays which aim at a fact based presentation provide a thorough survey of the relevant problems and aspects of present day Italian economy and society Those peculiar features of the Italian economy such as its dualistic industrial structure and territorial divide are analysed at length with an eye to open policy options The economic analyses are complemented by presentations of some of the central topics on the Italian social framework such as the role of family and the Third Sector

The Economics of Europe and the European Union Larry Neal, 2007-03-01 This distinctive textbook combines comprehensive coverage of the key policy areas of the European Union with analysis of individual countries including the recent accession countries and Turkey Part I analyzes the economic bases for the rise of the European Union from its origins in the post World War II recovery to its historic enlargement in 2004 Part II takes up the different nation state perspectives on the EU's economic policies by looking in turn at all European countries whether members of the EU or not The book is unique in providing both an EU perspective and European nation state perspective on the major policy issues which have arisen since the end of World War II as well as putting the economic analysis into an historical narrative which emphasizes the responses of policy makers to external shocks such as the Cold War the oil shocks German reunification and the collapse of the Soviet Union

The Industrialisation of the Continental Powers 1780-1914 Clive Trebilcock, 2014-07-22 The Industrialisation of the Continental Powers is both a broad survey of the process of European industrialisation from the late eighteenth century to the First World War and also a closely argued comparative economic study of how this process was experienced by different great powers

The Growth of European Mixed Economies, 1945-1970 Sima Lieberman,1977 **A Compendium of Italian Economists at Oxbridge** Mauro Baranzini,Amalia Mirante,2016-09-21 This study examines five decades of Italian economists who studied or researched at the Universities of Oxford and Cambridge between the years 1950 and 2000 Providing a detailed list of Italian economists associated with Hicks Harrod Bacharach Flemming Mirrlees Sen and other distinguished dons the authors examine eleven research lines including the Sraffa and the neo Ricardian school the post Keynesian school and the Stone s and Goodwin s schools Baranzini and Mirante trace the influence of the schools in terms of 1 their fundamental role in the evolution of economic thought 2 their promotion of four key controversies on the measurement of technical progress on capital theory on income distribution and on the inter generational transmission of wealth 3 the counter flow of Oxbridge scholars to academia in Italy and 4 the invigoration of a third generation of Italian economists researching or teaching at Oxbridge today A must read for all those interested in the way Italian and British research has shaped the study and teaching of economics **A Social and Economic History of Twentieth-century Europe** Gerold Ambrosius,William H. Hubbard,1989 This comprehensive single volume source of information on the social and economic transformations in Europe over the past hundred years fills a critical gap in our knowledge It examinations population trends social structures and economic structures and offers an integrative overview of changes in both the organization of the economy and the role of the state in economic management Economics 1966 International Committee for Social Science Information and Documentation,1968-07 First published in 1968 Routledge is an imprint of Taylor Francis an informa company *The Industrial Revolution in World History* Peter N Stearns,2018-04-17 The industrial revolution was the single most important development in human history over the past three centuries and it continues to shape the contemporary world With new methods and organizations for producing goods industrialization altered where people live how they play and even how they define political issues By exploring the ways the industrial revolution reshaped world history this book offers a unique look into the international factors that started the industrial revolution and its global spread and impact In the fourth edition noted historian Peter N Stearns continues his global analysis of the industrial revolution with new discussions of industrialization outside of the West including the study of India the Middle East and China In addition an expanded conclusion contains an examination of the changing contexts of industrialization The Industrial Revolution in World History is essential for students of world history and economics as well as for those seeking to know more about the global implications of what is arguably the defining socioeconomic event of modern times **The Marshall Plan** Michael J. Hogan,1987 A re interpretation of the Marshall Plan as an extension of strategic American policy views the plan as the brainchild of the New Deal coalition of progressive private and political interests **Economic Concentration** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Antitrust and Monopoly,1964 **Islamic and European Expansion** Michael Adas,1993-07-20 This volume of essays makes available the essential background information

and methods for effective teaching and writing on cross cultural history The contributors some of the most distinguished writers of global and comparative history chart the advances in understanding in their fields of concentration revealing both specific findings and broad patterns that have emerged The cover image The Arrival of the Dutch at Patane from Theodore de Bry India Orientals Part VIII Frankfurt W Richteri 1607 depicts the two key phases of global history that are covered by the essays Muslim inhabitants of the town of Patane on the Malayan peninsula warily confront a Dutch landing party whose bearing suggests that it is engaged in yet another episode in the saga of European overseas exploration and discovery The presence of the Muslims in Malaya reflects an earlier process of expansion that saw Islamic civilization spread from Spain and Morocco in the west to the Philippines in the east in the millennium between the 7th and 17th centuries The Dutch came by sea to an area on the coastal and island fringes of Asia the one zone where their warships gave them a decisive edge in this era The citizens of Patane had good reason to distrust the European intruders since the Portuguese who had preceded the Dutch had used force whenever possible to control the formerly peaceful trade in the region and often to persecute Muslim Peoples Author note Michael Adas is Abraham Voorhees Professor of History at Rutgers University New Brunswick He is currently editor of the American Historical Association's series on Global and Comparative History and co editor of the Cambridge University Press series on Studies in Comparative World History He has published numerous articles and books including most recently with Peter Stearns and Stuart Schwartz World Civilization The Global Experience 1992 and

Turbulent Passage A Global History of the Twentieth Century 1993 **The United States and European Reconstruction 1945-1960** John Killick, 2014-06-11 In this book John Killick introduces the reader to a key aspect of economic history the impact of American economic intervention in Europe after World War II The effects of this impact are still open to debate The Marshall Plan has traditionally been seen as a decisive turning point in European economic and political history but its effect is now being called into question Would Europe have revived spontaneously after 1945 Did American dollars save the world in 1947 Was American influence the underlying reason for the general drift away from socialism and the move towards European federalism in the late 1940s and early 1950s If the Marshall Plan in conjunction with NATO created a coherent and prosperous western bloc was this critical for the outcome of the Cold War These are important questions to which this careful analysis provides some new and accessible answers *Hearings, Reports and Prints of the Senate Committee on the Judiciary* United States.
