Ecology Of Language Evolution

Alwin F. Fill, Hermine Penz

Ecology Of Language Evolution:

The Ecology of Language Evolution Salikoko S. Mufwene, 2001-08-30 This major new work explores the development of creoles and other new languages focusing on the conceptual and methodological issues they raise for genetic linguistics. Written by an internationally renowned linguist, the book surveys a wide range of examples of changes in the structure, function, and vitality of languages and suggests that similar ecologies have played the same kinds of roles in all cases of language evolution. The Ecology of Language Evolution will be welcomed by students and researchers in sociolinguistics, creolistics, theoretical linguistics, and theories of evolution.

Approaches to Teaching the History of the English Language Mary Hayes, Allison Paige Burkette, 2017 The History of the English Language has been a standard university course offering for over 150 years. Yet relatively little has been written about teaching a course whose very title suggests its prodigious chronological, geographic, and disciplinary scope. In the nineteenth century, History of the English Language courses focused on canonical British literary works. Since these early curricula were formed, the English language has changed, and so have the courses. In the twenty-first century, instructors account for the growing prominence of World Englishes as well as the English language's transformative relationship with the internet and social media. *Approaches to Teaching the History of the English Language* addresses the challenges and circumstances that the course's instructors and students commonly face. The volume reads as a series of master classes taught by experienced instructors who explain the pedagogical problems that inspired resourceful teaching practices. Although its chapters are authored by seasoned teachers, many of whom are preeminent scholars in their individual fields, the book is designed for instructors at any career stage, beginners and veterans alike. The topics addressed in *Approaches to Teaching the History of the English Language* include the unique pedagogical dynamic that transpires in language study, the course's origins, and relevance to current university

curricula scholarly approaches that can offer an abiding focus in a semester long course advice about navigating the course s formidable chronological ambit ways to account for the language s many varieties and the course s substantial and pedagogical relationship to contemporary multimedia platforms Each chapter balances theory and practice explaining in detail activities assignments or discussion questions ready for immediate use by instructors Biosemiotic Perspectives on Language and Linguistics Ekaterina Velmezova,Kalevi Kull,Stephen J. Cowley,2015-12-11 The first international volume on the topic of biosemiotics and linguistics It aims to establish a new relationship between linguistics and biology as based on shared semiotic foundation The Routledge Handbook of Ecolinguistics Alwin F. Fill,Hermine Penz,2017-07-31 The Routledge Handbook of Ecolinguistics is the first comprehensive exploration into the field of ecolinguistics also known as language ecology Organized into three sections that treat the different topic areas of ecolinguistics the Handbook begins with chapters on language diversity language minorities and language endangerment with authors providing insight into the link between the loss of languages and the loss of species It continues with an overview of the role of language and discourse in describing concealing and helping to solve environmental problems With discussions on new orientations and topics for further exploration in the field chapters in the last section show ecolinguistics as a pacesetter into a new scientific age This Handbook is an excellent resource for students and researchers interested in language and the environment language contact and beyond The Dynamics of Language Rajend Mesthrie,David Bradley,2018-06-26 Linguistics the close study of language and languages is an indispensable foundation for all forms of knowledge The African continent is blessed with hundreds of languages which act as local repositories of culture and interaction South Africa alone has eleven official languages plus Sign Language many heritage languages and new languages of global movements and migration Part of the linguist s business is to document record and affirm languages and diversity Applied linguists use their training to understand and enhance the role of language in education and upliftment and the opportunities and challenges of new technologies of communication The International Congress of Linguists meets every five years to reflect the development of the field and 2018 is the first time that the congress is being held in Africa This book is a collection of the plenary and focus papers presented at the conference and thus represents current thinking in the major branches of language study as represented by leading local and international scholars The papers discuss the history of languages their structure acquisition diversity and use At the same time due regard is paid to the African continent in connection with its linguistic diversity multilingualism and educational and societal concerns The Congress is meant to affirm the value of the languages of Africa of languages and Linguistics in general as well as to inspire and equip younger scholars to undertake advanced research into language in its many facets **Concise Encyclopedia of Pragmatics** J.L. Mey,2009-08-07 Concise Encyclopedia of Pragmatics Second Edition COPE is an authoritative single volume reference resource comprehensively describing the discipline of pragmatics an important branch of natural language study dealing with the study of language in

its entire user-related theoretical and practical complexity As a derivative volume from *Encyclopedia of Language and Linguistics* Second Edition it comprises contributions from the foremost scholars of semantics in their various specializations and draws on 20 years of development in the parent work in a compact and affordable format Principally intended for tertiary level inquiry and research this will be invaluable as a reference work for undergraduate and postgraduate students as well as academics inquiring into the study of meaning and meaning relations within languages As pragmatics is a centrally important and inherently cross-cutting area within linguistics it will therefore be relevant not just for meaning specialists but for most linguistic audiences Edited by Jacob Mey a leading pragmatics specialist and authored by experts The latest trends in the field authoritatively reviewed and interpreted in context of related disciplines Drawn from the richest most authoritative comprehensive and internationally acclaimed reference resource in the linguistics area Compact and affordable single volume reference format

World English(es) and the Multilingual Turn Annalisa Bonomo, 2017-01-06 The recent multilingual turn involves various different implicit and explicit language policies urging pressure and resistance with regard to the spread of English and its dominant relationships with other national languages As such this book considers the social value of communication as the basis of multilingualism and of the evolution of language systems The data presented here show English as being in the middle of the double listening of cultural mediation and the imperfect magnifying glass of translation with worldwide Standard English being but one of the many other related varieties which enjoy prestige on a large scale These varieties may be identified according to different features which make the plural world Englishes an umbrella term with blurred edges New approaches to dialects study have been developed in recent decades and cartographic mapping has overlapped with the emergence of a new dialectology which deals with the description of language phenomena as complex concepts where complexity provides a challenging framework for investigation and research of languages as dynamic systems made up of variables which mutually influence each other Thus dialectometry dialectology and standardization become interesting tools for measuring linguistic differences establishing language typologies and endorsing the systemic characteristics which can be formalized Comprehensive and well informed this volume will appeal to anyone interested in the spread of English from researchers and teachers to students providing them with a greater understanding of some examples of world Englishes analysed under the light of complexity as a product of global society

Language and Identity in Englishes Urszula Clark, 2013-04-12 *Language and Identity in Englishes* examines the core issues and debates surrounding the relationship between English language and identity Drawing on a range of international examples from the UK US China and India Clark uses both cutting edge fieldwork and her own original research to give a comprehensive account of the study of language and identity Key features include Discussion of language in relation to various aspects of identity such as those connected with nation and region as well as in relation to social aspects such as social class and race A chapter on undertaking research that will equip students with appropriate research methods for their own projects An

analysis of language and identity within the context of written as well as spoken texts With its accessible structure international scope and the inclusion of leading research in the area this book is ideal for any student taking modules in language and identity or sociolinguistics The Handbook of Educational Linguistics Bernard Spolsky, Francis M. Hult, 2010-02-01 The Handbook of Educational Linguistics is a dynamic scientifically grounded overview revealing the complexity of this growing field while remaining accessible for students researchers language educators curriculum developers and educational policy makers A single volume overview of educational linguistics written by leading specialists in its many relevant fields Takes into account the diverse theoretical foundations core themes major findings and practical applications of educational linguistics Highlights the multidisciplinary reach of educational linguistics Reflects the complexity of this growing field whilst remaining accessible to a wide audience **The Language of the Sangleys** Henning Klöter, 2011 An incisive multi faceted study of a Spanish Chinese manuscript grammar of the seventeenth century The Language of the Sangleys presents a fascinating new chapter in the history of Chinese and general linguistics The Anthropology of Extinction Genese Marie Sodikoff, 2012 The Anthropology of Extinction offers compelling explorations of issues of widespread concern *Variation and Change in Postcolonial Contexts* Rita Calabrese, J. K. Chambers, Gerhard Leitner, 2015-10-13 This volume addresses recent issues concerning language change and standardization in postcolonial settings The book brings together experts from North America Africa Asia and the insular areas of Australia and Trinidad and Tobago and discusses aspects of language variation in the emergence of new varieties The approaches range from linguistic diagnostics and related methodologies to the most accredited interpretative theories on the evolution of New Englishes The book includes a section on emerging varieties of English in new media and special focus has been given to those new varieties of Philippine and Nigerian English spoken in a non canonical post colonial context represented by the city of Turin Italy The result is a collection of studies that illuminate issues of language variability from different perspectives in order to contribute to the lengthy debate on language contact diversification speciation and standardization An Introduction to African Languages George Tucker Childs, 2003-01-01 This book introduces beginning students and non specialists to the diversity and richness of African languages In addition to providing a solid background to the study of African languages the book presents linguistic phenomena not found in European languages A goal of this book is to stimulate interest in African languages and address the question What makes African languages so fascinating The orientation adopted throughout the book is a descriptive one which seeks to characterize African languages in a relatively succinct and neutral manner and to make the facts accessible to a wide variety of readers The author s lengthy acquaintance with the continent and field experiences in western eastern and southern Africa allow for both a broad perspective and considerable depth in selected areas The original examples are often the author s own but also come from other sources and languages not often referenced in the literature This text also includes a set of sound files illustrating the phenomena under discussion be they the clicks of

Khoisan talking drums or the ideophones words like English lickety split found almost everywhere which will make this book a valuable resource for teacher and student alike

Eco-Translatology (Hugs) Gengshen Hu, 2020-03-06 This book offers a panoramic view of the emerging eco paradigm of Translation Studies known as Eco Translatology and presents a systematic study of the theoretical discourse from ecological perspectives in the field of Translation Studies Eco Translatology describes and interprets translation activities in terms of the ecological principles of Eco holism traditional Eastern eco wisdom and Translation as Adaptation and Selection Further Eco Translatology approaches the phenomenon of translation as a broadly conceived eco system in which the ideas of Translation as Adaptation and Selection as well as translation as a textual transplant promoting an eco balance are integrated into an all encompassing vision Lastly Eco Translatology reinforces contextual uniqueness emphasizing the deep embeddedness of texts translations and the human agents involved in their production and reception in their own habitus It is particularly encouraging in this increasingly globalised world to see a new paradigm sourced from East Asian traditions but with universal appeal and applications and which adds to the diversity and plurality of global Translation Studies This book the first of its kind will substantially expand the horizons of Translation Studies a field that is still trying to define its own borders and will open a wealth of new possibilities Destined to become a milestone in the field of Translation Interpretation and Adaptation Studies as well as eco criticism it will introduce readers to a wholly new epistemological intervention in Translation Studies and therefore will open new vistas of thoughts discussion and criticism

The Handbook of World Englishes Braj B. Kachru, Yamuna Kachru, Cecil L. Nelson, 2009-02-09 The Handbook of World Englishes is a collection of newly commissioned articles focusing on selected critical dimensions and case studies of the theoretical ideological applied and pedagogical issues related to English as it is spoken around the world Represents the cross cultural and international contextualization of the English language Articulates the visions of scholars from major varieties of world Englishes African Asian European and North and South American Discusses topics including the sociolinguistic contexts of varieties of English in the inner outer and expanding circles of its users the ranges of functional domains in which these varieties are used the place of English in language policies and language planning and debates about English as a cause of language death murder and suicide

Language Evolution Salikoko S. Mufwene, 2008-03-31 Languages are constantly changing New words are added to the English language every year either borrowed or coined and there is often railing against the decline of the language by public figures Some languages such as French and Finnish have academies to protect them against foreign imports Yet languages are species like constructs which evolve naturally over time Migration imperialism and globalization have blurred boundaries between many of them producing new ones such as creoles and driving some to extinction This book examines the processes by which languages change from the macroecological perspective of competition and natural selection In a series of chapters Salikoko Mufwene examines such themes as natural selection in language the actuation question and the invisible hand that drives evolution

multilingualism and language contact language birth and language death the emergence of Creoles and Pidgins the varying impacts of colonization and globalization on language vitality This comprehensive examination of the organic evolution of language will be essential reading for graduate and senior undergraduate students and for researchers on the social dynamics of language variation and change language vitality and death and even the origins of linguistic diversity *The Routledge Handbook of Language and Digital Communication* Alexandra Georgakopoulou,Tereza Spilioti,2015-07-16 The Routledge Handbook of Language and Digital Communication provides a comprehensive state of the art overview of language focused research on digital communication taking stock and registering the latest trends that set the agenda for future developments in this thriving and fast moving field The contributors are all leading figures or established authorities in their areas covering a wide range of topics and concerns in the following seven sections Methods and Perspectives Language Resources Genres and Discourses Digital Literacies Digital Communication in Public Digital Selves and Online Offline Lives Communities Networks Relationships New debates and Further directions This volume showcases critical syntheses of the established literature on key topics and issues and at the same time reflects upon and engages with cutting edge research and new directions for study as emerging within social media A wide range of languages are represented from Japanese Greek German and Scandinavian languages to computer mediated Arabic Chinese and African languages The Routledge Handbook of Language and Digital Communication will be an essential resource for advanced undergraduates postgraduates and researchers within English language and linguistics applied linguistics and media and communication studies **Understanding English as a Lingua Franca** Barbara Seidlhofer,2013-01-10 A complete introduction to the theoretical nature and practical implications of English used as a lingua franca Explore the theories and principles of English as a Lingua Franca with leading expert Barbara Seidlhofer
