Handbook Of Energy Finance: Theories, Practices And Simulations Stephane Goutte, Duc Khuong Nguyen, 2020-01-30 Modeling the dynamics of energy markets has become a challenging task. The intensification of their financialization since 2004 had made them more complex but also more integrated with other tradable asset classes. More importantly, their large and frequent fluctuations in terms of both prices and volatility, particularly in the aftermath of the global financial crisis 2008-2009, pose difficulties for modeling and forecasting energy price behavior and are primary sources of concerns for macroeconomic stability and general economic performance. This handbook aims to advance the debate on the theories and practices of quantitative energy finance while shedding light on innovative results and technical methods applied to energy markets. Its primary focus is on the recent development and applications of mathematical and quantitative approaches for a better understanding of the stochastic processes that drive energy market movements. The handbook is designed for not only graduate students and researchers but also practitioners and policymakers.

Challenges of Policing Democracies Dilip Das, Marenin Otwin, 2012-10-12 In this text, the editors analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies. This cross-cultural comparison of various systems highlights the universal observation that police are an anomaly in a democracy and explores how various influences, for example, large-scale social violence, a zeal for crime fighting, and vulnerability to temptation, often find police incapable of behaving in a democratic manner. *Challenges of Policing Democracies* goes beyond just showing the similarities and differences of the policing challenges democratic societies face; it also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing.
