Economic Geography of Tourism João Romão, 2025-05-13 This book provides an in depth exploration of the dynamic intersections between economic geography and tourism, highlighting how spatial economic and social processes shape tourism development and how tourism in turn transforms economic spaces. Combining theoretical insights with real world case studies, it offers a comprehensive understanding of tourism's evolving role within economic geography. The first part lays a strong theoretical foundation introducing key concepts such as the Tourism Area Life Cycle, path dependence, agglomeration economies, smart specialization and regional resilience within the context of tourism research. It explores

spatial and temporal patterns in tourism development the growing influence of digitalization and smart tourism and the roles of innovation and competitiveness in shaping destination dynamics The second part shifts focus to tourism s broader economic and social implications It critically assesses urban tourism s links to gentrification circular economies and social conflicts while exploring strategies to address spatial enclaves and foster integrated tourism networks in low density and fragile regions Environmental challenges including the impact of tourism mobility on local communities and ecosystems are also examined The book concludes by addressing the tensions and future trajectories of tourism development questioning whether sustainable or regenerative tourism can thrive within market driven economies where decision making prioritizes individual preferences over collective well being It calls for a reassessment of contemporary policy and regulatory frameworks to align tourism with broader economic and environmental goals By bridging economic geography and tourism studies this book equips scholars policymakers and practitioners with analytical tools to rethink tourism development and advocate for strategies that are economically viable and effectively sustainable inclusive and resilient
