The Effect of Employer Sanctions on the Flow of Undocumented Immigrants to the United States Keith Crane, 1990 Assesses effects of the 1986 Immigration Reform and Control Act IRCA designed to reduce the flow of undocumented immigrants to the United States Applies a mathematical model to data collecting based on wage rates Migration to the United States Frank D. Bean, Barry Edmonston, Jeffrey S. Passel, 1990 Contains a collection of essays Assesses the impact of the Immigration Reform and Control Act IRCA of 1986 on illegal immigration with emphasis on undocumented migration from Mexico Migration Policies in Europe and the United States Giacomo Luciani, 2012-12-06 The themes of migration and economic development are traditionally related. The debate over these issues has recently gained great relevance particularly in Europe as the phenomenon of migration tends to be seen as a possible conse guence and cause of political and environmental unrest In this case the impacts of migration have not only to do with development but also with welfare social norms and political stability In recent months the issues of xenophobia of openness to refugees of a rea sonable attitude towards international migration have come to the fore as a key to the future shape of Europe The discussion is unfortunately couched in ex treme and irrational terms social scientists may bear part of the responsibility for this because for a very long time they devoted only minimal attention to the phenomenon of international migration and we are still lacking a coherent view which will integrate international development with the freedom of movement of capital and labour and the preservation of the environment Given the growing attention on the issue the Conference organised by Fondazione Eni Enrico Mattei on 3 4 June 1991 at the Centro Studi Americani in Roma was extremely timely In the light of new migration phenomena such as the migration wave into Germany from the East or into Italy from Albania the Conference represented a unique opportunity to think of new policy measures to tackle migration
