Egypt Population Problems Prospects:

Egypt: Population Problems & Prospects Abdel R. Omran, 1973 **The Demographic Revolution in Modern Egypt** Warren C. Robinson, Fatma H. El-Zanaty, 2006-01-01 The Demographic Revolution in Modern Egypt tells the dramatic story of Egypt's transition in the last two decades from staggeringly high to low fertility and mortality rates. Scholars Warren C. Robinson and Fatma H. El-Zanaty especially delve into the reasons for the decline in fertility, including the relative success of Egypt's recent public initiatives in family planning. Robinson and El-Zanaty compellingly show the importance of continued demographic stability in Egypt for that nation, the Middle East, and indeed the world. The authors point to Egypt's optimistic progress as a model for other countries facing out of control birth rates wreaking havoc with economic and social development. **Egypt** Abdel R. Lila Abu Lughod, author of *Do Muslim Women Need Saving*. The first major historical account of gender politics during the Nasser era. *Revolutionary Womanhood* analyzes feminism as a system of ideas and political practices international in origin but local in iteration. Drawing connections between the secular nationalist projects that emerged in the 1950s and the gender politics of Islamism today, Laura Bier reveals how discussions about education, companionate marriage, and enlightened motherhood, as well as veiling, work, and other means of claiming public space.

created opportunities to reconsider the relationship between modernity state feminism and postcolonial state building Bier highlights attempts by political elites under Nasser to transform Egyptian women into national subjects These attempts to fashion a new yet authentically Egyptian woman both enabled and constrained women's notions of gender liberation and agency Ultimately Bier challenges the common assumption that these emerging feminisms were somehow not culturally or religiously authentic and details their lasting impact on Egyptian womanhood today Addresses a major void in the historical literature on Egypt Showing how gendered politics proved central to Nasserist attempts to modernize the book broadens our understanding of state feminism secularism and the postcolonial period A very welcome addition the work combines theoretical sophistication with rich evidence and well crafted arguments Beth Baron author of *Egypt as a Woman* Laura Bier's well researched and engaging text skillfully illustrates how Nasser spun the woman question to define his Arab socialist agenda Lisa Pollard author of *Nurturing the Nation*

Population and Development Ronald G. Ridker, 2013-11-26 First Published in 2011 This book grew out of a project initiated by Resources for the Future to search for selective interventions into the development process that in turn might speed the course of fertility decline in developing countries The result is a volume the authors hope will find wide use not only by researchers and serious students of population problems but also by administrators and policy makers

Economics and Demography Ian Bowen, 2011 First published in 1976 *Economics and Demography* discusses how the world population doubled in the thirty years prior to its publication and considers the economic implications of this demographic transformation Professor Bowen with many years experience of research into the economic and statistical aspects of population and world development provides a survey of the population of the world and of how political economists have explained population growth The author's survey looks first at the mechanisms of growth fertility mortality and migration followed by an account of theories of growth from Adam Smith to the present day Professor Bowen a former fellow of All Souls College Oxford who taught at universities in England America Australia and Asia writes from the point of view of a political economist rather than a demographer and *Economics and Demography* is of particular value to students of development development economics and demography within departments of economics economic history and geography
