*Electronic Projects from the Next Dimension* Newton C. Braga, 2001 For years paranormal scientists have explored the detection and documentation of spirits auras ESP hypnosis and many more phenomena through electronics *Electronic Projects from the Next Dimension* provides useful information on building practical circuits and projects and applying the knowledge to unique experiments in the paranormal field The author writes about dozens of inexpensive projects to help electronics hobbyists search for and document their own answers about instrumental transcommunication ITC the electronic voice phenomenon EVP and paranormal experiments involving ESP auras and Kirlian photography Although paranormal studies are considered esoteric *Electronic Projects from the Next Dimension* teaches the technical skills needed to make devices that can be used in many different kinds of experiments Each section indicates how the circuit can be used in paranormal experiments with suggestions about procedures and how to analyze the results Provides unique projects for believers and skeptics Perfect for any level of electronics experience Learn from these basics projects and design your own applications

*Robotics, Mechatronics, and Artificial Intelligence* Newton C. Braga, 2002 Accessible to all readers including students of secondary school and amateur technology enthusiasts *Robotics Mechatronics and Artificial Intelligence* simplifies the process of finding basic circuits to perform simple tasks such as how to control a DC or step motor and provides instruction on creating moving robotic parts such as an eye or an ear Though many companies offer kits for project construction most experimenters want to design and build their own robots and other creatures specific to their needs and goals With this new book by Newton Braga hobbyists and experimenters around the world will be able to decide what skills they want to feature in a project and then choose the right building blocks to create the ideal results In the past few years the technology of robotics mechatronics and artificial intelligence has exploded leaving many people with the desire but not the means to build their own projects The author's fascination with and expertise in the exciting field of robotics is demonstrated by the range of simple to complex project blocks he provides which are designed to benefit both novice and experienced robotics enthusiasts The common components and technology featured in the project blocks are especially beneficial to readers who need practical solutions that can be implemented easily by their own hands without incorporating expensive complicated technology Accessible to technicians and hobbyists with many levels of experience and written to provide inexpensive and creative fun with robotics Appeals to all sorts of technology enthusiasts including those involved with electronics computers home automation mechanics and other areas

**Pirate Radio and Video** Newton C. Braga, 2001-01-22 Now that the FCC has changed the laws governing pirate radio and video stations more and more people across the country are starting broadcasts from their homes Of course transmitting equipment is very expensive but now you can build your own transmitters for a fraction of the cost of purchasing By reading about and building the over thirty projects in *Pirate Radio and Video* you can construct your own station with a minimum investment for maximum learning With

projects for UHF VHF AM and FM transmitters this book covers the gamut of popular bands and outputs Not only will you learn how to build your own transmitters but also how to troubleshoot problems test outcomes and even synthesize several types of equipment into a powerful and unique system Written with the electronics hobbyist in mind each project includes basic diagrams complete instructions as well as advice on how to make each project work best for you The list of projects includes over several different FM radio transmitters AM radio transmitters microwave transmitters shortwave transmitters UHF video transmitters VHF video transmitters as well as nearly a dozen special projects for test equipment and system set ups If you are interested in setting up your own radio or television broadcasting system you will need a copy of this book to do it Learn how to build your own UHF VHF AM and FM transmitters saving thousands of dollars over buying equipment at a specialty store Start broadcasting your own video or radio signals from your self built station Experience the fun and learning that radio and video production and broadcasting gives the whole family *Electronics World* ,2004 **High Static, Dead Lines** Kristen Gallerneaux,2021-02-24 A literary mix tape that explores the entwined boundaries between sound material culture landscape and esoteric belief Trees rigged up to the wireless radio heavens A fax machine used to decode the language of hurricanes A broadcast ghost that hijacked a television station to terrorize a city A failed computer factory in the desert with a slap back echo resounding into ruin In *High Static Dead Lines* media historian and artist Kristen Gallerneaux weaves a literary mix tape that explores the entwined boundaries between sound material culture landscape and esoteric belief Essays and fictocritical interludes are arranged to evoke a network of ley lines for the sonic spectre to travel through a hypothetical presence that manifests itself as an invisible layer of noise alongside the conventional histories of technological artifacts The objects and stories within span from the mid nineteenth century to the present day touching upon military communications and cultural history A connective thread is the recurring presence of sound audible self generative and remembered charting the contentious sonic histories of paranormal culture *The Paranormal Review* ,2002 *Introdução à Biônica com Projetos Eletrônicos* Newton C. Braga,2020-04-22 Esta obra introduz o estudo da biônica biologia Engenharia Mecânica e Eletrônica utilizando projetos eletrônicos práticos Com a finalidade de ajudar um pouco os que desejam entrar de uma forma mais intensa neste maravilhoso campo das aplicações tecnológicas linkadas aos seres vivos este livro traz uma coletânea de artigos e textos importantes selecionados numa ordem lógica com o único objetivo de introduzir esta ciência aos estudantes e professores que desejam preparar um curso e profissionais como também os makers que pretendem criar um produto de uma tecnologia totalmente nova quer seja para uma aplicação agropecuária para colocar em pets ou mesmo para usar num vestível ou num objeto de uso humano ou animal conectado Internet *The Writers Directory* ,2013 **The British National Bibliography** Arthur James Wells,2002 **Fun Projects for the Experimenter - volume 2** Newton C. Braga,2015-04-28 During more than 30 years as a collaborator with American European and Latin American electronics magazines has published a large assortment of practical circuits using common parts In 1999 he included the first selection

in a volume published by Prompt Publications in USA The idea was to proceed with the series publishing many volumes more But Prompt closed his activities and the idea was forgotten although the first volume became a best seller Now with his own publishing house NCB Publications the author returned with the idea of make many volumes more of the series So the second volume is here proceeding with the same idea give simple projects to the experimenters who want learn electronics using common parts and with no need of special knowledge about electronics So as in the first volume many of the projects collected by the author are included in this volume most of which you can build in one evening The projects range from fun types through practical types to amusement types Of course there are other devices that can be used to teach you something about circuits and components An important feature of theses projects are the ideas to Explore intended for students looking for projects in science or to use in practical research This ideal can be complemented by our book Science Fair and Technology Education Projects also published in English by the author We can consider this book as a source book of the easiest and fun to make of hundreds of projects created and published by the author during his life see more about Newton C Braga in about the author in his site *The Skeptical Inquirer* ,1979 4093 IC - Circuit Sourcebook for the Makers Newton C.
