thematically devoted to subjects that have been of importance to the naval community as reflected in the pages of the journal. It concludes with an assessment of how well the Naval Review has succeeded in its founders' aim and what influence it has had on policy.

Cyprian Sir Bridge, a distinguished naval officer and historian, draws upon his extensive experience in service and academia to inform his writings. His scholarly pursuits are deeply rooted in his firsthand observations of maritime operations and the historical significance of naval power in shaping international relations. Bridge's unique perspective as both a practitioner and an authoritative voice enriches his exploration, illuminating the intricate balance between maritime dominance and national security.

Sea Power and Other Studies is a must-read for scholars, naval enthusiasts, and policymakers alike. Bridge's compelling insights into the role of sea power in shaping world affairs provide a vital framework for understanding contemporary geopolitical tensions. Engaging and informative, this work invites readers to reflect on the complexities of maritime strategy in our interconnected world.
