Pragmatic Existential Counseling and Psychotherapy Jerrold Lee Shapiro, 2015-10-01 This is a masterful primer on existential therapy that has been forged from the pen of a highly seasoned theorist researcher and practitioner In *Pragmatic Existential Counseling and Psychotherapy* Intimacy Intuition and the Search for Meaning we gain the insight and personal experience of one who has lived and breathed the field for over 50 years alongside some of the greatest practitioners of the craft most notably Viktor Frankl This volume is superb for students interested in a broad and substantive overview of the field Kirk Schneider Columbia University *Pragmatic Existential Counseling and Psychotherapy* integrates concepts of positive psychology and strengths based therapy into existential therapy Turning existential therapy on its head this exciting all new title approaches the theory from a positive rather than the traditional deficit model Authored by a leading figure in existential therapy Jerrold Lee Shapiro the aim is to make existential therapy positive and easily accessible to a wide audience through a pragmatic stage wise model Shapiro expands on the work of Viktor Frankl and focuses on delivery to individuals and groups men and women and evidence based therapy The key to his work is to help the client focus on resistance and to use it as a means of achieving therapeutic breakthroughs Filled with vignettes and rich case examples the book is comprehensive accessible concrete pragmatic and very human in connection between author and reader [The Theatre of Truth](#), 2008-02-26 Doctoral Dissertation University of California Berkeley 1995ABSTRACT Jacob Moreno MD 1889 1974 is known today as the founder of psychodrama which he defined as the science which explores the truth by dramatic methods This dissertation investigates Moreno primarily as a theatre artist It starts with a philosophical analysis of the concepts of acting improvisation and spontaneity and then consolidates the elements of Moreno s theory of the nature and function of theatre which are dispersed throughout his writings and have never been thoroughly collected in one place It also examines how Moreno discovered the healing power of drama while he directed his Theatre of Spontaneity in Vienna 1920s and in New York 1930s The appendix contains Moreno s earliest theatrical text *The Godhead as Comedian* translated for the first time in its entirety from the 1919 German edition 325 pages including 19 p of German and English references chronology www.scheiffele.com [Psychological Healing](#) Paul C. Larson, 2017-05-17 This book is intended as a text in the history and philosophy of professional psychology It takes a broad view of psychological healing and traces the history of this endeavor from prehistoric times down to the present The story should be useful not only to graduate students in professional psychology but to others in the psycho social or behavioral health fields It emphasizes the importance of multicultural and diversity issues by covering a wide swath of relevant world history to help students understand the cultural matrix that is behind the many people we serve America is a nation of immigrants and they bring with them the legacy of their varied backgrounds A major metaphor is the stream of transmission We practice based on what our teachers knew we improve upon them and in turn pass them on to our students This extended lineage of psychological healing can be summed in four

archetypal roles the shaman and priest the physician the teacher and the scientist Modern professional psychology incorporates all of those and this book seeks to tell that story *Dimensions in Wholistic Healing* Herbert Arthur Otto, 1979 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com The Regulation of Psychotherapists: A study in the philosophy and practice of professional regulation Daniel B. Hogan, 1979 **Overcrowded** Roberto Verganti, 2017-01-27 A more powerful innovation which seeks to discover not how things work but why we need things The standard text on innovation advises would be innovators to conduct creative brainstorming sessions and seek input from outsiders users or communities This kind of innovating can be effective at improving products but not at capturing bigger opportunities in the marketplace In this book Roberto Verganti offers a new approach one that does not set out to solve existing problems but to find breakthrough meaningful experiences There is no brainstorming which produces too many ideas unfiltered but a vision subject to criticism It does not come from outsiders but from one person's unique interpretation The alternate path to innovation mapped by Verganti aims to discover not how things work but why we need things It gives customers something more meaningful something they can love Verganti describes the work of companies including Nest Labs Apple Yankee Candle and Philips Healthcare that have created successful businesses by doing just this Nest Labs for example didn't create a more advanced programmable thermostat because people don't love to program their home appliances Nest's thermostat learns the habits of the household and bases its temperature settings accordingly Verganti discusses principles and practices methods and implementation The process begins with a vision and proceeds through developmental criticism first from a sparring partner and then from a circle of radical thinkers then from external experts and interpreters and only then from users Innovation driven by meaning is the way to create value in our current world where ideas are abundant but novel visions are rare If something is meaningful for both the people who create it and the people who consume it business value follows *Bodymind Energetics* Mark D. Seem, Joan Kaplan, 1987-12 Dr Seem proposes an integration of Traditional Chinese Medicine and psychosomatics in this model of health care that acknowledges the connection of body and mind Group Work in the Helping Professions David G. Tiainen, Hanna Väättäinen, 2017-01-12 This is the first volume to mobilize encounters between the work of Gilles Deleuze and Félix Guattari and the rich developments in cultural studies of music and sound The book takes seriously the intellectual and political challenge that the process philosophy of Deleuze and Guattari poses for previous understandings of music as permanent objects and primarily discursive texts By elaborating on the concepts of Deleuze and Guattari in innovative ways the chapters of the book demonstrate how musical and sonic practices and expressions can be reconsidered as instances of becoming actors in assemblages and actualizations of virtual tendencies The collection pushes notions of music and sound beyond such long term paradigms as identity thinking the privileging of signification and the centrality of the human subject The chapters of the volume bring a range of new topics and methodological approaches in contact with Deleuze and Guattari These span from movement improvisation jazz and western art music studies sound and performance art and reality TV talent shows to deaf musicians and indigenous music The book also highlights such fresh ways of doing analysis and shaping the methodological tools of music and sound studies that are enabled by Deleuze and Guattari's philosophy Their philosophy too gains renewed capacities and potential when responding to ethnographic cultural ethnomusicological participatory aesthetic new materialist feminist and queer perspectives to music and sound The Life Cycle of Groups Roy B.
