The Gross Peter Bart, 2024-03-26 A look at the new Hollywood by the longtime editor in chief of Variety The ultimate insider follows the winners and losers of Hollywood's 1998 Summer Season Welcome to Hollywood where gambling is a way of life and the wagers run into the hundreds of millions of dollars But in the summer of 1998 all bets are off The man who knows every mover shaker and faker explains why no one can explain the surprising season Peter Bart goes behind the scenes like no one can to track the summer movies from development through release He will reveal why Godzilla could never live up to its hype how intense rivals Robert Redford and Warren Beatty saw their worst nightmares come true when they went head to head at the box office how Jim Carrey's Truman Show stole the show and how Steven Spielberg regained his title of king of the summer in a season where sleepers upset would be blockbusters While asteroid movies were colliding with each other a billionaire newcomer was making superhuman attempts to resuscitate a moribund Universal Studios With interviews from studio executives producers directors agents and stars Peter Bart unveils the winners and losers in the new Hollywood where creativity and commerce hang in a precarious balance

The Gross Peter Bart, 1999 *The Way Hollywood Tells It* David Bordwell, 2006-04-10 Hollywood moviemaking is one of the constants of American life but how much has it changed since the glory days of the big studios David Bordwell argues that the principles of visual storytelling created in the studio era are alive and well even in today's bloated blockbusters American filmmakers have created a durable tradition one that we should not be ashamed to call artistic and one that survives in both mainstream entertainment and niche marketed indie cinema Bordwell traces the continuity of this tradition in a wide array of films made since 1960 from romantic comedies like Jerry Maguire and Love Actually to more imposing efforts like A Beautiful Mind He also draws upon testimony from writers directors and editors who are acutely conscious of employing proven principles of plot and visual style Within the limits of the classical approach innovation can flourish Bordwell examines how imaginative filmmakers have pushed the premises of the system in films such as JFK Memento and Magnolia He discusses generational technological and economic factors leading to stability and change in Hollywood cinema and includes close analyses of selected shots and sequences As it ranges across four decades examining classics like American Graffiti and The Godfather as well as recent success like The Lord of the Rings The Two Towers this book provides a vivid and engaging interpretation of how Hollywood moviemakers have created a vigorous resourceful tradition of cinematic storytelling that continues to engage audiences around the world

Spectacular Narratives Geoff King, 2000-11-24 What is the appeal of the contemporary Hollywood blockbuster The sheer scale and impact of big special effects sequences is part of the attraction of films such as Independence Day Jurassic Park Titanic or Mission Impossible But they also offer other appeals including the dynamics of narrative *Spectacular Narratives* is the first serious book length treatment of the contemporary blockbuster including the digital effects based spectacle space fictions the action film war spectacles the recent wave of disaster movies and films evoking new technologies such as virtual reality Consideration is also given to the impact of profitable spin offs such as film related theme park rides and computer games Geoff King argues against the view that an emphasis on the spectacular has led to an erosion of the importance of narrative in Hollywood Instead he suggests even the most spectacular and effects led contemporary blockbuster offers a blend of appeals mixing elements of spectacle and narrative Narrative is explored at the levels of both linear story telling and underlying thematic patterns a particular emphasis being placed on the persistence of elements of the myth ideology of the American frontier Close textual analysis is combined with consideration of the industrial and social contexts of contemporary Hollywood in a readable original and rewarding book on the cinema that dominates markets across the globe **Toward a Political Economy of Culture** Andrew Calabrese, Colin Sparks, 2003-11-22 Several of the most important and influential political economists of communication working today explore a rich mix of topics and issues that link work policy studies and research and theory about the public sphere to the heritage of political economy Familiar but

Nicole LaPorte, 2010-05-04. The definitive history of the studio created by the larger-than-life team of Spielberg, Geffen, and Katzenberg. Los Angeles Times: For sixty years since the birth of United Artists, the studio landscape was unchanged. Then came Hollywood's Circus Maximus, created by director Steven Spielberg, billionaire David Geffen, and Jeffrey Katzenberg, who gave the world *The Lion King*, an entertainment empire called DreamWorks. Now Nicole LaPorte, who covered the company for *Variety*, goes behind the hype to reveal for the first time the delicious truth of what happened. Readers will feel they are part of the creative calamities of moviemaking, as LaPorte's fly-on-the-wall detail shows us Hollywood's bizarre rules of business. We see the clashes between the often otherworldly Spielberg's troops and Katzenberg's warriors, the debacles and disasters, but also the Oscar-winning triumphs, including *Saving Private Ryan*. We watch as the studio burns through billions of dollars; its rich owners get richer, and everybody else suffers. LaPorte displays Geffen seducing investors like Microsoft's Paul Allen, showing his steel against CAA's Michael Ovitz, and staging fireworks during negotiations with Paramount and Disney. Here is a blockbuster behind the scenes: Hollywood story up close, glamorous and gritty.
