Groton Plantation An Archaeological Study Of A South Carolina Locality:

Groton Plantation James B. Stoltman,1974-01-01 Archaeological Perspectives on the Southern Appalachians Ramie A. Gougeon, Maureen Meyers,2015-03-10 This volume demonstrates how archaeologists working in the Southern Appalachian region over the past 40 years have developed rich interpretations of prehistoric and historic Southeastern Native societies by examining them from multiple scales of analysis The end results of these examinations demonstrate both the uses and the constraints of multiscalar approaches in reconstructing various lifeways across the Southeast *Archaeology in South Carolina* Adam King,2016-04-26 The rich human history of South Carolina from its earliest days to the present Adam King's *Archaeology in South Carolina* contains an overview of the fascinating archaeological research currently ongoing in the Palmetto state featuring essays by twenty scholars studying South Carolina's past through archaeological research The scholarly contributions are enhanced by more than one hundred black and white and thirty eight color images of some of the most important and interesting sites and artifacts found in the state South Carolina has an extraordinarily rich history encompassing the first human habitation of North America to the lives of people at the dawn of the modern era King begins the anthology with the basic hows and whys of archeology and introduces readers to the current issues influencing the field of research The contributors are all recognized experts from universities state agencies and private consulting firms reflecting the diversity of people and institutions that engage in archaeology The volume begins with investigations of some of the earliest Paleo Indian and Native American cultures that thrived in South Carolina including work at the Topper Site along the Savannah River Other essays explore the creation of early communities at the Stallings Island site the emergence of large and complex Native American polities before the coming of Europeans the impact of the coming of European settlers on Native American groups along the Savannah River and the archaeology of the Yemassee people whose history is tightly bound to the emerging European society The focus then shifts to Euro Americans with an examination of a long term project seeking to understand George Galphin's trading post established on the Savannah River in the eighteenth century A discussion of Middleburg Plantation one of the oldest plantation houses in the South Carolina lowcountry is followed by a fascinating glimpse into how the city of Charleston and the lives of its inhabitants changed during the seventeenth and eighteenth centuries Essays on underwater archaeological research cover several Civil War era vessels located in Winyah Bay near Georgetown and Station Creek near Beaufort as well as one of the most famous Civil War naval vessels the H L Hunley The volume concludes with the recollections of a life spent in the field by South Carolina's preeminent historical archaeologist Stanley South now retired from the South Carolina Institute of Archaeology and Anthropology at the University of South Carolina Proposed Establishment of Waccamaw National Wildlife Refuge, Georgetown County, Horry County, and Marion County ,1997 **Prehistory and History Along the Upper Savannah River** ,1988 Studies in South Carolina Archaeology Albert C. Goodyear, Glen T. Hanson,1989 **Histories of Southeastern Archaeology** Shannon

Tushingam, Jane Hill, Charles H. McNutt, 2002-03-18 This volume provides a comprehensive broad based overview including first person accounts of the development and conduct of archaeology in the Southeast over the past three decades. *Histories of Southeastern Archaeology* originated as a symposium at the 1999 Southeastern Archaeological Conference SEAC organized in honor of the retirement of Charles H McNutt following 30 years of teaching anthropology. Written for the most part by members of the first post depression generation of southeastern archaeologists this volume offers a window not only into the archaeological past of the United States but also into the hopes and despairs of archaeologists who worked to write that unrecorded history or to test scientific theories concerning culture. The contributors take different approaches each guided by experience personality and location as well as by the legislation that shaped the practical conduct of archaeology in their area. Despite the state by state approach there are certain common themes such as the effect or lack thereof of changing theory in Americanist archaeology the explosion of contract archaeology and its relationship to academic archaeology goals achieved or not achieved and the common ground of SEAC. This book tells us how we learned what we now know about the Southeast's unwritten past. Of obvious interest to professionals and students of the field this volume will also be sought after by historians political scientists amateurs and anyone interested in the South. Additional reviews: A unique publication that presents numerous historical topical and personal perspectives on the archaeological heritage of the Southeast. *Southeastern Archaeology* Marine Environmental Health Research Laboratory (MEHRL), Construction and Operation of High Technology and Marine Research Center, 1998 **Site Destruction in Georgia and the Carolinas** David G. Anderson, Virginia Horak, 1993 *Archaeological, Historical, and Architectural Survey of the Gibson Plantation Tract, Florence County, South Carolina* Michael Trinkley, Natalie Adams, 1992 **Agency in Archaeology** Marcia-Anne Dobres, John Robb, 2000 Nineteen internationally renowned scholars discuss nine theoretically based case studies ranging in subject from the late Pleistocene hunter gatherers to the restructuring of gender relations in the US. Essential reading for all archaeologists **Cooper River Rediversion Project, Lake Moulton and Santee River, Alternatives for Busby Park Reservoir**, 1983 The Development of Southeastern Archaeology Jay K. Johnson, 1993-02-28 Ten scholars whose specialties range from ethnohistory to remote sensing and lithic analysis to bioarchaeology chronicle changes in the way prehistory in the Southeast has been studied since the 19th century. Each brings to the task the particular perspective of his or her own subdiscipline in this multifaceted overview of the history of archaeology in a region that has had an important but variable role in the overall development of North American archaeology. Some of the specialties discussed in this book were traditionally relegated to appendixes or ignored completely in site reports more than 20 years old. Today most are integral parts of such reports but this integration has been hard won. Other specialties have been and will continue to be of central concern to archaeologists. Each chapter details the way changes in method can be related to changes in theory by reviewing major landmarks in the literature. As a consequence the reader can compare the development of each subdiscipline. As the

first book of this kind to deal specifically with the region it be will valuable to archaeologists everywhere The general reader will find the book of interest because the development of southeastern archaeology reflects trends in the development of social science as a whole Contributors include Jay K Johnson David S Brose Jon L Gibson Maria O Smith Patricia K Galloway Elizabeth J Reitz Kristen J Gremillion Ronald L Bishop Veletta Canouts and W Fredrick Limp Archaeology of the Central Mississippi Valley Dan F. Morse, Phyllis A. Morse, 2014-05-10 Archaeology of the Central Mississippi Valley describes an archeological reconstruction of the preceding 11 000 years of an extraordinarily rich environment centered within the largest river system north of the Amazon This book focuses on the lowlands of the Mississippi Valley from just north of the Ohio River to the mouth of the Arkansas River Organized into 13 chapters this book begins with an overview of the territory between the Ohio and Arkansas rivers This text then attempts to humanize the archeological interpretations by reference to social organization settlement system economy religion and politics Other chapters focus on understanding the nature of change through time in the Central Mississippi Valley This book discusses as well the difference between an old braided stream surface and the younger meander belt system The final chapter deals with the investigation of prehistoric Indian remains This book is a valuable resource for archeologists zoologists and scientific hobbyists *New Histories of Pre-Columbian Florida* Neill J. Wallis, Asa R. Randall, 2014-04-29 This volume aims to bring the archaeological study of Florida's Pre-Columbian past up to date using new techniques technologies and data to reveal that the Pre-Columbian natives were not isolated and environmentally segregated as was previously thought **Mark Clark Expressway Construction, Charleston to US-17, Berkeley/Charleston Counties**, 1981 *The Mattassee Lake Sites*, 1982 **Francis Marion National Forest** David G. Anderson, 1981 **The Paleoindian and Early Archaic Southeast** David G. Anderson, Kenneth E. Sassaman, 1996-09-30 The southeastern United States has one of the richest records of early human settlement of any area of North America This book provides the first state by state summary of Paleoindian and Early Archaic research from the region together with an appraisal of models developed to interpret the data It summarizes what we know of the peoples who lived in the Southeast more than 8 000 years ago when giant ice sheets covered the northern part of the continent and such mammals as elephants saber toothed tigers and ground sloths roamed the landscape Extensively illustrated this benchmark collection of essays on the state of Paleoindian and Early Archaic research in the Southeast will guide future studies on the subject of the region's first inhabitants for years to come Divided in three parts the volume includes Part I Modeling Paleoindian and Early Archaic Lifeways in the Southeast Environmental and Chronological Considerations David G Anderson Lisa D O Steen and Kenneth E Sassaman Modeling Paleoindian and Early Archaic Settlement in the Southeast A Historical Perspective David G Anderson and Kenneth E Sassaman Models of Paleoindian and Early Archaic Settlement in the Lower Southeast David G Anderson Early Archaic Settlement in the South Carolina Coastal Plain Kenneth E Sassaman Raw Material Availability and Early Archaic Settlement in the Southeast I Randolph Daniel Jr Paleoindian and Early Archaic Settlement
