Higher Education in International Perspective Philip G. Altbach,David H. Kelly,Jan Kluczyński,1985 Thought Wilfrid Parsons,Francis Xavier Talbot,Gerald Groveland Walsh,1982 *Making Harvard Modern* Morton Keller,Phyllis Keller,2001-11-15 Making Harvard Modern is a candid richly detailed portrait of America s most prominent university from 1933 to the present seven decades of dramatic change Early twentieth century Harvard was the country s oldest and richest university but not necessarily its outstanding one By the century s end it was widely regarded as the nation s and the world s leading institution of higher education With verve humor and insight Morton and Phyllis Keller tell the story of that rise a tale of compelling personalities notable achievement and no less notable academic pratfalls Their book is based on rich and revealing archival materials interviews and personal experience Young humbly born James Bryant Conant succeeded Boston Brahmin A Lawrence Lowell as Harvard s president in 1933 and set out to change a Brahmin dominated university into a

meritocratic one He hoped to recruit the nation s finest scholars and an outstanding national student body But the lack of new money during the Depression and the distractions of World War Two kept Conant and Harvard from achieving this goal In the 1950s and 1960s during the presidency of Conant s successor Nathan Marsh Pusey Harvard raised the money recruited the faculty and attracted the students that made it a great meritocratic institution America s university The authors provide the fullest account yet of this transformation and of the wrenching campus crisis of the late sixties During the last thirty years of the twentieth century a new academic culture arose meritocratic Harvard morphed into worldly Harvard During the presidencies of Derek Bok and Neil Rudenstine the university opened its doors to growing numbers of foreign students women African and Asian Americans and Hispanics Its administration faculty and students became more deeply engaged in social issues its scientists and professional schools were more ready to enter into shared commercial ventures But worldliness brought its own conflicts over affirmative action and political correctness over commercialization over the ever higher costs of higher education This fascinating account the first comprehensive history of a modern American university is essential reading for anyone with an interest in the present state and future course of higher education
