Growing Up With Disability:

Growing Up with Disability Carol Robinson, Kirsten Stalker, 1998-01-01 This book encompasses a wide range of perspectives on childhood impairment and its social implications The book adopts a child centred approach stressing the importance of communicating with disabled children and includes pieces of writing by young disabled people Preschool and school age children describe their behavior and feelings within their own families substitute families and residential homes The book explores how such children can best be protected and how their quality of life can be improved Using the social model of disability which identifies the material and social barriers to inclusion contributors give examples of progressive practice and examine the aspirations of young disabled people their friendships and how they come to terms with adolescence and the transition to adulthood *Growing Up Handicapped* Evelyn West Ayrault, 1977 *Growing Up Disabled in Australia* Carly Findlay, 2021-02-03 A rich collection of writing from those negotiating disability in their lives a group whose voices are not heard often enough My body and its place in the world seemed normal to me Why wouldn't it I didn't grow up disabled I grew up with a problem A problem that those around me wanted to fix We have all felt that uncanny sensation that someone is watching us The diagnosis helped but it didn't fix everything Don't fear the labels That identity which I feared for so long is now one of my greatest qualities I had become disabled not just by my disease but by the way the world treated me When I found that out everything changed One in five Australians has a disability And disability presents itself in many ways Yet disabled people are still underrepresented in the media and in literature In *Growing Up Disabled in Australia* compiled by writer and appearance activist Carly Findlay OAM more than forty writers with a disability or chronic illness share their stories in their own words The result is illuminating Contributors include senator Jordon Steele John paralympian Isis Holt Dion Beasley Sam Drummond Astrid Edwards Sarah Firth El Gibbs Eliza Hull Gayle Kennedy Carly Jay Metcalfe Fiona Murphy Jessica Walton and many more *Childhood and Disability in the Nordic Countries* R. Traustadóttir, B. Ytterhus, S. Egilson, B. Berg, 2015-05-05 This collection provides a comprehensive insight into disabled children and youth in Nordic countries It seeks to understand the experiences of children from their own perspectives and takes a multidisciplinary approach grounded in the new social studies of childhood and the Nordic relational approach to disability **Growing Up with a Disability** Rachel Kaplan, 2012-01-01 This is my story of growing up with a disability and learning that is ok to be different It is also to show people how important it is to show kindness to everyone and accept people just how they are Everyone has feelings goals and dreams *Growing up with risk* Thom, Betsy, Sales, Rosemary, 2007-05-16 *Growing up with risk* provides a critical analysis of ways in which risk assessment and management now a pervasive element of contemporary policy and professional practice are defined and applied in policy theory and practice in relation to children and young people Drawing on conceptual frameworks from across the social sciences the book examines contrasting perspectives on risk that occur in different policy domains and professional and lay discourses

discussing the dilemmas of response that arise from these sometimes contested viewpoints from playground safety to risks associated with youthful substance use The contributors address issues of gender ethnicity and socio economic status which impact on definitions and responses to risk and consider related concepts such as risk resilience care control and dependence autonomy Written in an accessible manner each chapter provides a specific policy case study to illustrate the cross cutting themes and issues that will make it a key text for researchers and students It also offers policy makers and practitioners a valuable insight into the complexities of balancing responsibility for protecting the young with the benefits of risk taking and the need to allow young people to experiment *Childhood and Disability* Sarah Beazley,Val Williams,2020-08-11 Drawn from Disability Society over the period 1997 2012 the twelve chapters in this book address a range of personal cultural and institutional arenas in which challenges experienced by disabled children are played out The book includes a mix of theoretical and applied material offering both powerful conceptual tools and practical insights enabling readers to connect the work of recent decades to their own research and questions about disability and childhood Readers will find this book an invaluable resource for understanding what we have learned about disability and childhood through the pages of the world leading international journal in the field The collection makes available a well informed understanding of conditions policies and practices that create disability in children s lives so that we can further the struggle for a more inclusive future in which inequalities structured around impairment are removed The importance of children s own voices for resisting disablement in childhood is clearly foregrounded in this invaluable collection This book was originally published as a special issue of Disability Society *Living Disability* Emily Macrae,2024-10-15 How can we build more accessible cities *Living Disability* brings together vibrant perspectives on disability justice and urban systems A musician and snow removal expert a queer curator a public pool aficionado and a journalist turned city councillor these are just some of the disabled writers exploring disability justice analyzing urban systems and proposing more equitable approaches to city building in this anthology Essays and interviews push the conversation about accessibility beyond policy papers and compliance checklists to show how disabled people are already creating more inclusive spaces in cities of all sizes *Living Disability* is universal in scope but intimate and local in focus grounded in personal struggles and celebrations Decisions about public transit affordable housing and park design all disproportionately impact disabled communities by sharing stories and strategies contributors consider the ways disabled thinkers and doers are embracing overlooked aspects of urban design and tackling the toughest problems facing cities Each chapter provides context to welcome both disabled and non disabled readers into conversations about the future of inclusion so that all readers can develop their own understanding of what accessible cities look and feel like This book appeals to city builders of all stripes committed to learning from and working with underrepresented communities It equips architects designers community leaders innovators and citizens with the key concepts they need to collaborate with rather than care for disabled neighbours *Living Disability* is at once hopeful

and infuriating solemn and joyous The stories shared within these pages point to both the past and future simultaneously illuminating the struggles and joys and history of disabled life while putting access barriers on blast in a way that is more necessary than ever The deep rich work of this collection lies in its embrace of complexity community grief and also its belief in the capacity of our world read us to change May these stories touch your heart kindle the flame of your anger and move you forward into fighting for the better world we all deserve Amanda Leduc author of *Disfigured On Fairy Tales Disability and Making Space* **The Routledge Handbook of Postcolonial Disability Studies** Tsitsi Chataika, Dan

Childhood Disability and Family Systems Michael Ferrari, Marvin B. Sussman, 2016-01-08 First published in 1987 this book focuses on childhood disability within the family It examines the very nature of disability itself as well as many of the

fundamental elements of families The book was written at a time when the meaning level of disability and its effect on family and society were rapidly changing and people with disabilities were starting to benefit from opportunities to compensate for whatever disabilities they may have had Modern technology and an affluent society afforded advantages to support many of its disabled members Contributors examine the contemporary context of disability the cost of disability to families ethical philosophical and social issues underlying the treatment and rehabilitation of children with severe disabilities and the role of professionals amongst other topics This book will be of interest to those involved in teaching research and direct care with families who have children with disabilities Although written in the late 80s the work discusses subjects that are still vital today Miracle Boy Grows Up Ben Mattlin,2012-08-14 No one thought Ben Mattlin would live past childhood But that didn't stop The Social Psychology of Childhood Disability David Thomas,2015-06-19 Some years ago I read the phrase the spontaneous revulsion to the deformed The phrase seemed to be both potent and provocative Was there a spontaneous revulsion to disabilities in children or did such conditions evoke a more compassionate response Originally published in 1978 the problems of the disabled were no longer confined to the medical and educational professionals but had become the concern of the community as a whole Using terminology very much of the time the author shows how attitudes towards different kinds of disability had developed at the time they varied both regionally and by social class sometimes calling into question the accepted facts about the distribution of a particular condition Most importantly the author examines these attitudes together with many other social and psychological factors in relation to their impact on the social behaviour and developing self image of the disabled child It becomes clear that the dangers of categorization and the difficulties in overcoming stigma have a profound influence on the education and socialization of disabled children This book will be of historical interest to students and teachers of psychology education social work and rehabilitation and it will provide insight for parents and all those concerned with the care and development of the disabled child about how far we have come

Childhood Disability, Advocacy, and Inclusion in the Caribbean Beth Harry,2019-10-04 This book presents an ethnographic case study of the personal motivations advocacy and activation of social capital needed to create and sustain the Immortelle Children's Centre a private school that has served children with disabilities in Trinidad Tobago for four decades Based on narratives by parents from the 1980's current parents teachers community advocates and the author who was the founder of Immortelle in 1978 the study views the school within the context of a nation standing in a liminal space between developed and developing societies It argues that the attainment of equity for children with disabilities will require an agenda that includes a legal mandate for education of all children increased public funding for education health and therapeutic services and an on going public awareness campaign Relating this study to the global debate on inclusion the author shows how the implementation of this agenda would have to be adapted to the social cultural and economic realities of the society Reflections from a Different Journey Stanley D. Klein,John D. Kemp,2004 Presents 40 stories by successful

adults who grew up with disabilities They provide insights into what it is like to persevere in the face of community prejudices and what it takes for families and children with disabilities to work together toward fulfillment While there are many books for parents on raising a child with a disability this is the first to help them learn from people with disabilities and to help children face the unique challenges and rewards of growing up with a disability It will also encourage and inspire older children and adults with disabilities other family members and education and health care professionals who serve these families Publisher s description *Growing up with Parents who have Learning Difficulties* Tim Booth,Wendy

Booth,2005-08-10 *Growing up with Parents who have Learning Difficulties* uses a life story approach to present new evidence about how children from such families manage the transition to adulthood and about the longer term outcomes of such an upbringing It offers a view of parental competence as a social attribute rather than an individual skill assessing the implications for institutional policies and practices The authors address the notion of children having to parent their disabled parents and argue for a shift in emphasis from protecting children to supporting families This innovative book provides a fresh approach to a subject rife with prejudice and challenges us to think again about many taken for granted ideas about the process of parenting and the needs of children It also demonstrates the power of narrative research and its capacity for bringing alive people s experience in a way that enables us to better understand their lives **Disability and Social**

Change Sonali Shah,Mark Priestley,2011 *Disability and Social Change* will reveal how life has changed for disabled people growing up in Britain over the past 70 years from the 1940s to the present day It seeks to provide an in depth examination of the interplay between individual biography and social context **Handbook on Ageing with Disability** Michelle

Putnam,Christine Bigby,2021-03-10 Mainstream gerontological scholarship has taken little heed of people ageing with disability and they have also been largely overlooked by both disability and ageing policies and service systems The *Handbook on Ageing with Disability* is the first to pull together knowledge about the experience of ageing with disability It provides a broad look at scholarship in this developing field and across different groups of people with disability in order to form a better understanding of commonalities across groups and identify unique facets of ageing within specific groups Drawing from academic personal and clinical perspectives the chapters address topics stemming from how the ageing with disability experience is framed the heterogeneity of the population ageing with disability and the disability experience issues of social exclusion health and wellness frailty later life and policy contexts for ageing with disability in various countries Responding to the need to increase access to knowledge in this field the *Handbook* provides guideposts for researchers practitioners and policy makers about what matters in providing services developing programmes and implementing policies that support persons ageing with long term disabilities and their families **Disability as Diversity in Higher Education**

Eunyoung Kim,Katherine C. Aquino,2017-02-03 Addressing disability not as a form of student impairment as it is typically perceived at the postsecondary level but rather as an important dimension of student diversity and identity this book explores

how disability can be more effectively incorporated into college environments Chapters propose new perspectives empirical research and case studies to provide the necessary foundation for understanding the role of disability within campus climate and integrating students with disabilities into academic and social settings Contextualizing disability through the lens of intersectionality Disability as Diversity in Higher Education illustrates how higher education institutions can use policies and practices to enhance inclusion and student success
