Sawyer, Diana E. Comer, 1996-06-01 Growing Up with a Schizophrenic Mother Margaret J. Brown, Doris Parker Roberts, 2015-11-03 An estimated two to three million people in the United States today were raised by a schizophrenic parent Brown and Roberts offer a unique book based on interviews with over forty adult children of mothers diagnosed as schizophrenic Such topics as the isolation their family felt their chaotic home environments their present relationships with their mothers and the lost potential of mother and child are covered Their stories are fascinating and provide important information to both the mental health community and the lay public The offspring have been described as having higher rates of increased aggressivity and sibling conflict but often their circumstances strengthened these children and contributed to artistic and creative talents resiliency and high achievements The authors provide an overview of schizophrenia behaviors of the affected parent and the marital relationship of the patient and her non schizophrenic spouse As adults the respondents now share their grievances about the psychological community what they needed and did not get Brown and Roberts then present suggestions for treatment of affected children aimed at psychiatrists psychologists social workers counselors and health care providers Growing Up with America Emily A. Murphy, 2020-09-15 When D H Lawrence wrote his classic study of American literature he claimed that youth was the true myth of America Beginning from this assertion Emily A Murphy traces the ways that youth began to embody national hopes and fears at a time when the United States was transitioning to a new position of world power In the aftermath of World War II persistent calls for the nation to grow up and move beyond innocence became common and the child that had long served as a symbol of the nation was suddenly discarded in favor of a rebellious adolescent This era marked the beginning of a crisis of identity where literary

critics and writers both sought to redefine U S national identity in light of the nation s new global position The figure of the adolescent is central to an understanding of U S national identity both past and present and of the cultural forms e g literature that participate in the ongoing process of representing the diverse experiences of Americans In tracing the evolution of this youthful figure Murphy revisits classics of American literature including J D Salinger s *The Catcher in the Rye* and Vladimir Nabokov s *Lolita* alongside contemporary bestsellers The influence of the adolescent on some of America s greatest writers demonstrates the endurance of the myth that Lawrence first identified in 1923 and signals a powerful link between youth and one of the most persistent questions for the nation What does it mean to be an American

Sell,2002-01-01 In this book members of the ChiLPA Project explore the children s literature of several different cultures ranging from ancient India nineteenth century Russia and the Soviet Union to twentieth century Britain America Australia Sweden and Finland The research covers not only the form and content of books for children but also their potential social functions especially within education These two perspectives are brought together within a theory of children s literature as one among other forms of communication an approach that sees the role of literary scholars critics and teachers as one of mediation Part I deals with the way children s writers and picturebook makers draw on a culture s available resources of orality literacy intertextuality and image Part II examines their negotiation of major issues such as the child adult distinction gender politics and the Holocaust Part III discusses children s books as used within language education programmes with particular attention to young readers pragmatic processing of differences between the context of writing and their own context of reading

**Marshfield Memories: More Stories About Growing Up** Ralph Fletcher,2018-11-13 A heartfelt middle grade companion to *Marshfield Dreams* that captures the boyhood years of twelve year old Ralph Fletcher in relatable episodes of everyday disappointments and triumphs As the oldest of nine kids Ralph was often cast as another parent to his siblings rather than as an older brother teetering between these two conflicting roles Ralph longed to be home alone on a sick day but hated the emptiness of feeling left behind He loved to play sports with his neighborhood friends but resented the skillful victories of his younger brother Thrust into the expectations of impending adolescence Ralph was curious about girls but embarrassed to take part in the school square dance This satisfying memoir offers a snapshot of those pivotal moments between grade school and high school all while tracing the roots of Ralph Fletcher s acclaimed storytelling Christy Ottaviano Books

**Growing Up in Nineteenth-Century Ireland** Mary Hatfield,2019-10-03 Why do we send children to school Who should take responsibility for children s health and education Should girls and boys be educated separately or together These questions provoke much contemporary debate but also have a longer often overlooked history Mary Hatfield explores these questions and more in this comprehensive cultural history of childhood in nineteenth century Ireland Many modern ideas about Irish childhood have their roots in the first three quarters of the nineteenth century when an emerging middle class

took a disproportionate role in shaping the definition of a good childhood This study deconstructs several key changes in medical care educational provision and ideals of parental care It takes an innovative holistic approach to the middle class child s social world by synthesising a broad base of documentary visual and material sources including clothes books medical treatises religious tracts photographs illustrations and autobiographies It offers invaluable new insights into Irish boarding schools the material culture of childhood and the experience of boys and girls in education

*Growing Up a Woman* Milena Kaličanin, Soňa Šnircová, 2015-10-13 This book explores contemporary transformations of the female Bildungsroman showing that the intersection of the genre and gender brought to critical attention in the context of second wave feminism remains of equal importance in the era of postfeminism The female Bildung narrative has acquired an important position in twentieth and twenty first century literature through its continuing depiction of female self discovery and emancipation as a process of negotiating the traditional divisions of female and male roles in relation to the private and public spaces Recognizing the seminal contribution of feminist criticism to the definition of the genre and the role of feminist cultural processes in its thematic developments this volume investigates more recent influences on the female Bildung narrative and the influence of the classic female Bildungsroman on contemporary cultural texts As a collection of fifteen essays written by international scholars the book offers a representative sample of the narratives of female development presenting a variety of genres including the novel the short story autobiography TV series and Internet video blogs and

theoretical frameworks adopting hermeneutic postcolonial feminist and postfeminist perspectives In its diversity this volume reveals that despite the ongoing process of women s emancipation the heroine s struggle with the private public divide has remained throughout the twentieth century and in the first decades of the new millennium a central issue in stories about the female quest for self definition The book will be of interest to scholars and students in the fields of literary women and gender studies particularly those interested in the narratives of female development that represent American and British cultural contexts
