Growing Up Fatherless in Antiquity Sabine R. Hübner, David M. Ratzan, 2009-02-19 As the changes in the traditional family accelerated toward the end of the

twentieth century a great deal of attention came to focus on fathers both modern and ancient While academics and politicians alike singled out the conspicuous and growing absence of the modern father as a crucial factor affecting contemporary family and social dynamics ancient historians and classicists have rarely explored ancient father absence despite the likelihood that nearly a third of all children in the ancient Mediterranean world were fatherless before they turned fifteen The proportion of children raised by single mothers relatives step parents or others was thus at least as high in antiquity as it is today This book assesses the wide ranging impact high levels of chronic father absence had on the cultures politics and families of the ancient world The Greenwood Encyclopedia of Asian American Literature Guiyou

American Poetry as Transactional Art Stephen Fredman, 2020-06-02 Explores the ways American poetry engages with visual art music fiction spirituality and performance art Many people think of poetry as a hermetic art as though poets wrote only about themselves or as if the subject of poetry were finally only poetry its forms and traditions Indeed much of what constitutes poetry in the lyric tradition depends on a stringently controlled point of view and aims for a timeless intransitive utterance Stephen Fredman s study proposes a different perspective American Poetry as Transactional Art explores a salient quality of much avant garde American poetry that has so far lacked sustained treatment namely its role as a transactional art Specifically Fredman describes this role as the ways it consistently engages in conversation talk correspondence going beyond the scope of its own subjects and forms its existential interactions with the outside world Poetry operating in this vein draws together images ideas practices rituals and verbal techniques from around the globe and across time not to equate them but to establish dialogue to invite as many guests as possible to the World Party which Robert Duncan has called the symposium of the whole Fredman invites new readers into contemporary poetry by providing lucid and nuanced analyses of specific poems and specific interchanges between poets and their surroundings He explores such topics as poetry s transactions with spiritual traditions and practices over the course of the twentieth century the impact of World War II on the poetry of Charles Olson and George Oppen exchanges between poetry and other art forms including sculpture performance art and ambient music the battle between poetry and prose in the early work of Paul Auster and in Lyn Hejinian s My Life The epilogue looks briefly at another crucial
