management of leadership development The book is important because almost all leadership development relies to a great
degree on the leader's capability to manage his or her personal development It is timely because there is currently no single

take personal responsibility for their own development This distinguished book is differentiated from other books on this
topic with its view on the instrumental role played by individuals in managing their own development rather than depending
on others such as their organization to guide them Expert scholars in the area of leadership emphasize the importance of self
awareness as the critical starting point in the process Explicit recommendations are provided on how individuals can manage
their own self assessment as a starting point to their development The contributors present insights and practical
recommendations on how individuals can actively self manage through a number of typical leadership challenges Business
