Bulletin of the British Pelargonium and Geranium Society, 2004

The Passion for Pelargoniums Anne Wilkinson, 2007-05-24 Quick and reliable to grow for summer colour and well marketed most gardeners will have at least one pelargonium in their garden or conservatory without realising either the number or variety of species available nor the plant's extraordinary history The Passion for Pelargoniums reveals the fascinating and dramatic tales of those who have been involved in finding classifying collecting and breeding the plants It explodes the myth that all modern versions of the plant are descended from the oldest known variety the seventeenth century drab coloured *P. triste* literally translated as the sad pelargonium and reveals that 2 000 hybrids have been developed from less than a dozen plants originally imported from the East From the contribution of L Heritier whom Sir Joseph Banks named an impudent Frenchman to collectors like Masson and the Marquess of Blandford known for his elegant emporium competing nurserymen determined to make both fortunes and reputations and the burgeoning Victorian varieties as growers searched for the holy grail of the scarlet geranium the book recounts the plant's extraordinary history Today while traditional white ones doubles nosegays and rosebuds still flourish the lemon scented geranium is only one of a number of scented varieties while pelargoniums can have flowers of pink red purple yellow or black This is the story of how the passion felt by gardeners for their plants stirred them to bitter rivalry and criminal obsession scandal fraud and fast dealing and saw polite society being rather less than polite

The Kew Gardener's Guide to Growing Herbs Holly Farrell, Kew Royal Botanic Gardens, 2019-03-12. With an almost alchemical power, herbs can provide flavours and scents unlike any other. Growing the source of these intense flavours can now be a reality for gardeners and food enthusiasts with any size of garden, from an acre to a window box. Culinary herbs can be used as seeds, flowers, or leaves, cooked and eaten themselves or used to infuse a dish or drink. They are now being used in artisan gin, ice cubes, and cocktail syrups in foraged dishes and kitchen gardens, and often the only way to capture that elusive flavour is to have home-grown, freshly harvested herbs on your doorstep. Find out how to develop your own herb garden and grow herbs in all situations. Comprehensive information is given on how to plant, propagate, harvest, and use herbs in the most interesting ways, from planting a herb roof to making herbal oils. The 75 most exciting herbs are also identified, illustrated, and their uses explained. Underpinned by the authority of the Royal Botanic Gardens, Kew, and the expertise of Holly Farrell, *The Kew Gardener's Guide to Growing Herbs* combines practical elements with inspiration and beauty.
