Growing Up and Growing Old in Ancient Rome Mary Harlow, Ray Laurence, 2002 Throughout history every culture has had its own ideas on what growing up and growing old means this volume highlights the role of age in determining behaviour across the life span of an inhabitant of ancient Rome

Growing Up Thomas B Robb, William M Clements, 2013-01-11 Growing Up Pastoral Nurture for the Later Years is a sensitive volume devoted to helping older adults retain their status as meaningful members of their congregations and communities In an honest approach based on the foundations that old age is supposed to happen the future belongs to the old and vocation for people of faith is lifelong Thomas Robb provides personal and Biblical perspectives as well as research from over 20 years as a pastor on the life process and the feelings worries and expectations accompanying growing up and growing old He then molds these concerns into a challenge for congregations and their spiritual leaders to actively assist the aged in coping with and overcoming fears and barriers limiting the fullest expression of faith in God This insightful book describes the tasks and suggests programs for pastors and congregations everywhere in meeting the challenge making life for the aged more than shuffleboard and bingo pot luck dinners and day trips Dimensions of pastoral ministries that nurture women and men who at midlife and beyond seek to find their way through the unexpected and unplanned through the third of life following parenthood and careers are described in detail Pastors church leaders congregations professors of courses in ministry and aging aging church members

and seminary students will benefit immensely from the wealth of information presented in *Growing Up Pastoral Nurture for the Later Years* **Growing Up in America** N. Ray Hiner, Joseph M. Hawes, 1985 *Growing Up in America* offers substantial and dramatic evidence that the history of childhood has come of age Its authors demonstrate the breadth and depth of interest as well as high quality of work in a field that is finally attracting the attention it deserves Strongly influenced by new social history and its concern for the powerless and inarticulate *Growing Up in America* provides illuminating insights on children from infancy to adolescence and from the colonial period to present The very title of this fine and enormously instructive anthology of essays makes its quiet but important point that children grow up in a particular nation rather than in a family or home isolated from the influence of social cultural political and historical forces An admirably diverse and instructive collection *Georgia Historical Quarterly* *Growing Up with Risk* Betsy Thom, Rosemary Sales, Jenny Pearce, 2007-05-16 This book provides a critical analysis of ways in which risk assessment and management are defined and applied in policy theory and practice in relation to children and young people It explores the complexities of balancing responsibility for protecting the young with the benefits of risk taking and the need to allow experimentation **Old Age, New Science** Hyung Wook Park, 2016-03-09 Between 1870 and 1940 life expectancy in the United States skyrocketed while the percentage of senior citizens age sixty five and older more than doubled a phenomenon owed largely to innovations in medicine and public health At the same time the Great Depression was a major tipping point for age discrimination and poverty in the West seniors were living longer and retiring earlier but without adequate means to support themselves and their families The economic disaster of the 1930s alerted scientists who were actively researching the processes of aging to the profound social implications of their work and by the end of the 1950s the field of gerontology emerged *Old Age New Science* explores how a group of American and British life scientists contributed to gerontology's development as a multidisciplinary field It examines the foundational biosocial visions they shared a byproduct of both their research and the social problems they encountered Hyung Wook Park shows how these visions shaped popular discourses on aging directly influenced the institutionalization of gerontology and also reflected the class gender and race biases of their founders
