Bulletin of the Bureau of Labor Statistics ,1990      *Productivity: a Selected, Annotated Bibliography, 1976-78* United States. Bureau of Labor Statistics,1980      Productivity: a Selected Annotated Bibliography ,1990      Industrialization in Malaysia Rokiah Alavi,2006-09-07 Some of the most successful growth economies in the Pacific Rim have combined protectionist Import Substitution Industrialisation policies with export oriented policies This study provides a systematic rethinking of relationships between strategies within the Malaysian context      Import Controls And Export-oriented Development Richard Luedde-neurath,2019-04-02 This book aims to consider the role of import controls in an export oriented development strategy and is based on a case study of South Korea widely regarded as one of the classic success stories in this respect According to accepted wisdom a strategy of export orientation should be predicated upon a liberal import regime Trade controls should be avoided as they give rise to a host of negative consequences The South Korean experience is often held up as an empirical illustration of how liberal import policies constitute an integral part of export oriented success

**Economic Development of Southern Sudan** Benaiah Yongo-Bure,2007 Economic Development of Southern Sudan provides an overview of the Southern Sudanese economy and the main causes for the lack of development in the territory The book suggests strategies and policies for greatly reducing poverty and initiating sustainable development in the territory Yongo Bure outlines the significance of the resource base of Southern Sudan as well as the development programs of the first peace period 1972 1983 The prominent sectors analyzed include agriculture industry transport education health energy power and trade The exploration and exploitation of petroleum is highlighted      *Regional Cooperation in Southern Africa* Bertil Odén,Haroub Othman,Nordiska Afrikainstitutet,1989 A conference in Harare Zimbabwe in September 1988 arranged on the initiative of the Southern African Research Association SADRA and the Scandinavian Institute of African Studies SIAS aimed to initiate research and co operation between Nordic and Southern African researchers      **Review of Current**

**Information in the Treasury Department Library** United States. Department of the Treasury. Library,1977      **India's Economic Development Strategies 1951-2000 A.D.** J.N. Mongia,2012-12-06 It has been often said even by dispassionate observers that our economic policies built on ideological considerations and economic assumptions are far removed from the realities of our situation For more than three decades we have been striving to design an economic policy and a planning procedure that are distinctly Indian but the effort has often resulted in only mixing and merging borrowed ideas and experiences However whatever may have been the ideological elements influencing the thinking on economic policies in the formative period of the pre independence days the situation has changed considerably in the actual formation of economic policies since Independence and the effort has been not to be too closely identified with any ideology but to work out a policy that will draw upon all these ideological positions To what extent we have succeeded required a detailed examination

Accordingly I brought out a few years ago a treatise on India's Economic Policies which continues to be extremely popular with the intellectual elite the world over. In this the learned contributors dwelt at length on the different aspects of India's Economic Policies from 1947-77 and brought out the strength and weaknesses of the Indian economic scene. The present work on India's Economic Development Strategies is born out of the conviction that what India needs now is a set of strategies which are a consistent set of policies and that there is an urgent need for the same in Indian Planning.

**Public Interest** Lok-sang Ho, 2013-07-03 As a book on public policy this book is unique in addressing explicitly the role of human nature. Only with a good understanding of human nature can policy makers address their foremost needs and anticipate how people may respond to specific designs in policy. This way policy makers can avoid unintended consequences. The book also provides a new perspective on the meaning of public interest which is based on intellectual roots dating back to J. S. Mill and more recently Harsanyi and Rawls. Traditionally economists have referred to either the Hicksian criterion or the Kaldorian criterion as the yardstick to whether a policy is welfare enhancing, not realizing that both of these criteria fail abjectly in producing a convincing test for welfare improvement. This is because ex post typically some people will gain and some people will lose from any policy. The author argues for an alternative ex ante welfare increase criterion that is based on how people would assess a policy if they were completely impartial and totally ignored their personal interests. It applies the principles to key policy concerns such as health policy, tort law reform, education and cultural policy, and pension reform. The healthcare reform proposals in the book illustrate the application of the principles. The author proposes a basic protection plan under which standard basic healthcare services are priced the same whether they are provided by public or private caregivers at levels that can contain both demand side and supply side moral hazard. Annual eligible healthcare expenses are capped to alleviate worries. A Lifetime Healthcare Supplement that includes an element of risk sharing adds to patients' choice and protection without compromising fiscal sustainability.      *Strategy for Success in Asia* Andrew Delios, Kulwant Singh, 2012-02-03
