**Desert Visions and the Making of Phoenix, 1860-2009** Philip VanderMeer, 2010-12-16 Whether touted for its burgeoning economy affordable housing and pleasant living style or criticized

for being less like a city than a sprawling suburb Phoenix by all environmental logic should not exist Yet despite its extremely hot and dry climate and its remoteness Phoenix has grown into a massive metropolitan area This exhaustive study examines the history of how Phoenix came into being and how it has sustained itself from its origins in the 1860s to its present status as the nation s fifth largest city From the beginning Phoenix sought to grow and although growth has remained central to the city s history its importance meaning and value have changed substantially over the years The initial vision of Phoenix as an American Eden gave way to the Cold War Era vision of a High Tech Suburbia which in turn gave way to rising concerns in the late twentieth century about the environmental social and political costs of growth To understand how such unusual growth occurred in such an improbable location Philip VanderMeer explores five major themes the natural environment urban infrastructure economic development social and cultural values and public leadership Through investigating Phoenix s struggle to become a major American metropolis his study also offers a unique view of what it means to be a desert city

**Big Government and Affirmative Action** Jonathan Bean,2021-10-21 David Stockman Ronald Reagan s budget director proclaimed the Small Business Administration a billion dollar waste a rathole and set out to abolish the agency His scathing critique was but the latest attack on an agency better known as the Small Scandal Administration Loans to criminals government contracts for minority fronts the classification of American Motors as a small business Whitewater and other scandals the Small Business Administration has lurched from one embarrassment to another Despite the scandals and the policy failures the SBA thrives and small business remains a sacred cow in American politics Part of this sacredness comes from the agency s longstanding record of pioneering affirmative action Jonathan Bean reveals that even before the Civil Rights Act of 1964 the SBA promoted African American businesses encouraged the hiring of minorities and monitored the employment practices of loan recipients Under Nixon the agency expanded racial preferences During the Reagan administration politicians wrapped themselves in the mantle of minority enterprise even as they denounced quotas elsewhere Created by Congress in 1953 the SBA does not

conform to traditional interpretations of interest group democracy Even though the public and Congress favors small enterprise there has never been a unified group of small business owners requesting the government's help Indeed the SBA often has failed to address the real problems of Mom and Pop shop owners fueling the ongoing debate about the agency's viability

Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U.S. Constitution and the development of the party system [The National Civic Federation and the Making of a New Liberalism, 1900-1915](#) Christopher J. Cyphers, 2002-01-30 Founded in 1900 the National Civic Federation (NCF) a broad-based nongovernmental social and policy reform organization emerged throughout the Progressive Era as one of the nation's most powerful policy research and lobbying groups Amidst the strong demand by rank-and-file Americans for economic and social reform the NCF proposed that the government begin to assume a more prominent role in managing the nation's economy and providing for the needs of the country's weakest and most vulnerable citizens The organization constructed broad-based coalitions of business leaders labor leaders social scientists and politicians with diverse backgrounds to fashion model legislation and promote public policy aimed at meeting the demands created by modern capitalism Cyphers' work challenges the longstanding assumption that organizations like the NCF existed simply to build a relationship between big business and the government for the sole benefit of big business He argues that the NCF sought the preservation of the fundamental tenets of American liberalism and the redefinition of this liberalism for a modern polity whose life was shaped by industrial and commercial capitalism It saw the individual states rather than the federal government as the ideal mechanism to promote uniform economic and social reform Cyphers also charts the origins of civic cooperation and the creation of voluntary associations as alternatives to the statist remedies to modern economic and social problems that were championed by America's early 20th-century socialist movement [U.S. Supreme Court Advance Sheet April 2012](#), [Race and Liberty in America](#) Jonathan Bean, 2025-02-04 In this long-awaited updated edition of *Race* How classical liberals led the fights against slavery and racism against seemingly insurmountable odds and long before such positions became popular What classical liberals' defense of a natural right to migration implies for today's immigration controversies How capitalism

undermines racism by penalizing those who act on their taste for discrimination Why America's obtuse preoccupation with left versus right politics overshadows solutions to racial division How we can improve race relations in the United States today And much much more From the Declaration of Independence the antislavery movement post Civil War reconstruction the Progressive Era the Great Depression and World War II the civil rights era George Floyd and Black Lives Matter all the way up to the present day each chapter in this new and improved updated edition illuminates how specific time periods in American history grappled with the demands of equality Citing such influential Americans as Thomas Jefferson Louis Marshall Frederick Douglass Booker T Washington and Zora Neale Hurston plus those missing from other books and heretofore lost to history Bean shows how classical liberal thought on race relations has helped shape both law and public opinion and how it will need to do so again if America as we know it is to prosper and thrive If you're ready to trade the tired and failed left versus right politics for timeless principles that actually work and uplift societies read *Race Liberty in America*

Why Budgets Matter Dennis S. Ippolito, 2016-06-07 When the first edition of *Why Budgets Matter* was published in 2003 the federal budget had fallen back into deficit At the time fairly modest changes in taxes and spending would have ensured that deficits and debt would remain at tolerable levels Instead the disconnect between taxes and spending that had plagued the United States since the 1960s grew even greater A near catastrophic economic collapse beginning in December 2007 then magnified the fiscal consequences of irresponsible policy choices This new edition examines how and why the balanced budget equilibrium of the 1990s was destabilized in the 2000s It also places this latest partisan battle over the size of government in historical perspective by exploring its connection to earlier budget policy eras *The Sources of Social Power: Volume 4, Globalizations, 1945-2011* Michael Mann, 2012-12-28 Distinguishing four sources of power ideological economic military and political this series traces their interrelations throughout human history This fourth volume covers the period from 1945 to the present focusing on the three major pillars of post war global order capitalism the nation state system and the sole remaining empire of the world the United States In the course of this period capitalism nation states and empires interacted with one another and were transformed Mann's key argument is that globalization is not just a single process because there are globalizations of all four sources of social power each of which has a different rhythm of development Topics include the rise and beginnings of decline of the American Empire the fall or transformation of communism respectively the Soviet Union and China the shift from neo Keynesianism to neoliberalism and the three great crises emerging in this period nuclear weapons the great recession and climate change
