within a short span of 30 years The heritage of Bangladesh s past has constrained its progress in overcoming structural weaknesses but in comparison Sri Lanka displays a very different pattern The sources used draw upon research in development economics economic history technology and studies in general and country studies in particular Brazil in the Uruguay Round of the GATT Ricardo Wahrendorff Caldas,2018-12-14 First published in 1998 this volume analyses Brazil s strategy in the Uruguay Round focusing on the issue of services Three different moments were chosen for analysis The first was during discussions before the launch of the Uruguay Round During this period Brazil led the Less Developed Countries LDCs in obstructing the inclusion of services on the agenda The Second was during the launch of the Uruguay Round when Brazil persisted with this policy This second period is referred to as the initial position of Brazil in the Uruguay Round The third was Montreal in 1988 when Brazil supported the principles which guided an agreement on services After this turning point Brazil s position in the Round was increasingly supportive of an agreement not only in services but in all fields
