mission of assessing the condition of regional economies and making prognoses about future conditions The essays describe how each commission has added local perspectives to global debates over economic development and brought an authentic regional voice to the UN Contributors are Adebayo Adedeji Yves Berthelot Leelananda de Silva Blandine Destremau Paul Rayment and Gert Rosenthal *The Struggle for Social Sustainability* Christopher Deeming, 2022-09 The ongoing social crises and moral conflicts evident in global social policy debates are addressed in this timely volume Leading interdisciplinary scholars focus on the social of social policy which is increasingly conceived in a globalised form as new international agreements and global goals engender social struggles They tackle pressing social questions many of which have been exacerbated by COVID 19 including growing inequality changing world population ageing societies migration and intersectional disadvantage This ground breaking volume critically engages with contested conceptions of the social which are increasingly deployed by international institutions and policy makers Focusing on social sustainability social cohesion social justice social wellbeing and social progress this text is even more crucial as policy makers look to accelerate socially sustainable solutions to the world s biggest challenges The European Guilds Sheilagh Ogilvie, 2021-06-15 Guilds ruled many crafts and trades from the Middle Ages to the Industrial Revolution and have always attracted debate and controversy They were sometimes viewed as efficient institutions that guaranteed quality and skills But they also excluded competitors manipulated markets and blocked innovations Did the benefits of guilds outweigh their costs Analyzing thousands of guilds that dominated European economies from 1000 to 1880 The European Guilds uses vivid examples and clear economic reasoning to answer that question Sheilagh Ogilvie s book features the voices of honorable guild masters underpaid journeymen exploited apprentices shady officials and outraged customers and follows the stories of the vile encroachers Women migrants Jews gypsies bastards and many others desperate to work but hunted down by the guilds as illicit competitors She investigates the benefits of guilds but also shines a light on their dark side Guilds sometimes provided important services but they also manipulated markets to profit their members They regulated quality but prevented poor consumers from buying goods cheaply They fostered work skills but denied apprenticeships to outsiders They transmitted useful techniques but blocked innovations that posed a threat Guilds existed widely not because they corrected market failures or served the common good but because they benefited two powerful groups guild members and political elites Rabat de la jaquette *The Stationery Office Agency Catalogue* Stationery Office (Great Britain), 1998 **The United Nations in Southeast Asia and the South Pacific** Roderic Alley, 2016-07-27 This study of the United Nations in Southeast Asia and the South Pacific evaluates the organization s role and performance in Cambodia and over refugees regarding human rights development environment and the needs of women within regional cooperation and as an instrument of state policy These cases illustrate how multilateral conduct through the United nations provides a barometer indicating the intensity with which policy initiatives and values are sustained by relevant governmental interests alike In the regional settings considered

conduct towards and within the UN has amplified unresolved value differences regarding relations with major powers
