Economics Of The Transformation Period With Lenins Critical Remarks:

Economics of the Transformation Period Nikolai Ivanovich Bukharin, 1971 Lenin's Terror James Ryan, 2012 This book explores the development of Lenin's thinking on violence throughout his career from the last years of the Tsarist regime in Russia through to the 1920s and the New Economic Policy and provides an important assessment of the significance of ideological factors for understanding Soviet state violence as directed by the Bolshevik leadership during its first years in power. It highlights the impact of the First World War in particular its place in Bolshevik discourse as a source of legitimating Soviet state violence after 1917 and explains the evolution of Bolshevik dictatorship over the half decade during which Lenin led the revolutionary state. It examines the militant nature of the Leninist worldview, Lenin's conception of the revolutionary state, the evolution of his understanding of dictatorship of the proletariat and his version of just war. The book argues that ideology can be considered primarily important for understanding the violent and dictatorial nature of the early Soviet state at least when focused on the party elite but it is also clear that ideology cannot be understood in a contextual vacuum. The oppressive nature of Tsarist rule, the bloodiness of the First World War and the vulnerability of the early Soviet state as it struggled to survive against foreign and domestic opponents were of crucial significance. The book sets Lenin's thinking on violence within the wider context of a violent world. *Lenin and the Logic of Hegemony* Alan Shandro, 2014-07-10 In *Lenin and the Logic of Hegemony* by means of a careful textual and contextual analysis of the writings of Lenin and his Marxist contemporaries Alan Shandro traces the contours of the anti-metaphysical event identified by Gramsci in Lenin's political practice and theory, the emergence of the philosophical fact of hegemony. In so doing he effectively disputes conventional caricatures of Lenin's role as a political actor and thinker and unearths the underlying parameters of the concept of hegemony in the class struggle. He thereby clarifies the conceptual status of this pervasive but now increasingly elusive notion and the logic of theory and practice at work in it. *Theories of Surplus and Transfer (Routledge Revivals)* Helen Heslop, 2014-10-10 First published in 1990 this is an analysis of the history of western economics from Petty to Supply Side through the prism of the controversies over productive labour and its product. It treats the early economists' productive/unproductive dichotomies as shorthands for many other sets of distinctions relevant for boundaries, value and welfare. Central to the debates is the question of whether the economy is said to generate a surplus. Economists and politicians with views on these matters include the Physiocrats, Smith and Ricardo, Marx and his Soviet and western admirers, the marginalists, Keynes, Polanyi, Becker and Reagan. The book maps the shifting emphases that economists and social thinkers have placed on markets and mode of production generally. This reissue will be useful to students of economic thought, welfare theory and policy, growth economics and economic systems. **Reification** Timothy Bewes, 2020-05-05 Of all the concepts which have emerged to describe the effects of capitalism on the human world, none is more graphic or easily grasped than reification, the process by which men and women are turned into objects, things. Arising out of Marx's account of commodity fetishism, the

concept of reification offers an unrivalled tool with which to explain the real consequences of the power of capital on consciousness itself Symptoms of reification are proliferating around us from the branding of goods and services to racial and sexual stereotypes all forms of religious faith the growth of nationalism and recent concepts like spin and globalization At such a time the term ought to enjoy greater critical currency than ever Recent thinkers however have expressed deep reservations about the concept and the term has become marginalized in the humanities and social sciences Eschewing this trend Timothy Bewes opens up a new formulation of the concept claiming that in the highly reflective age of late capitalism reification is best understood as a form of social and cultural anxiety further that such an understanding returns the concept to its origins in the work of Georg Lukacs Drawing upon writers including Kierkegaard Herman Melville Proust and Flannery O Connor he outlines a theory of reification which promises to unite politics with truth art with experience and philosophy with real life

Organizational Alternatives in Soviet-Type Economies Nicolas Spulber,1979-10-31 Monograph on a comparison of the USSR economic system and its alternatives in Eastern Europe socialist countries compares economic performances under planned economy the principles of economic administration bureaucracy decision making etc And includes selected essays and documents of political leaders relating to problems of workers self management economic policy industrialization the incentive system etc References

100 Years of Permanent Revolution Bill Dunn,Hugo Radice,2006-05-20 One hundred years on from their first appearance in Leon Trotsky s *Results and Prospects* this is a critical re evaluation of two key Marxist theories uneven and combined development and permanent revolution It brings together a formidable array of Marxist intellectuals from across the world including Daniel Bensaid Michael L wy Hillel Ticktin and Patrick Bond Marx saw societies progressing through distinct historical stages feudal bourgeois and communist Trotsky advanced this model by considering how countries at different stages of development influence each other Developed countries colonise less developed countries and exploit their people and resources Elsewhere even as many were kept in poverty the influence of foreign capital and state led industrialisation produced novel economic forms and prospects for political alliances and change The contributors show how 100 years on from its original publication Trotsky s theories are hugely useful for understanding today s globalised economy dominated by US imperialism

Discovering Imperialism Richard B. Day,Daniel Gaido,2011-11-25 This volume assembles the main documents of the international debate on imperialism that took place in the Second International during the period 1898 1916 It assesses the contributions of the individual participants placing them in the context of contemporary political debates

Profiting Without Producing Costas Lapavistas,2014-01-14 Financialization is one of the most innovative concepts to emerge in the field of political economy during the last three decades although there is no agreement on what exactly it is Profiting Without Producing puts forth a distinctive view defining financialization in terms of the fundamental conduct of non financial enterprises banks and households Its most prominent feature is the rise of financial

profit in part extracted from households through financial expropriation Financialized capitalism is also prone to crises none greater than the gigantic turmoil that began in 2007 Using abundant empirical data the book establishes the causes of the crisis and discusses the options broadly available for controlling finance

Authority, Power and Policy in the USSR T. H. Rigby, 1983-06-18

From Marx to Mises David Ramsay Steele, 2013-12-15 In 1920 Ludwig von Mises proclaimed that all attempts to establish socialism would come to grief for reasons of informational efficiency At first socialists and economists took Mises's argument seriously but by the end of the Second World War a consensus prevailed that Mises had been discredited More recently that consensus has been rapidly reversed it is now widely agreed that Mises was right Yet the momentous implications of the Mises argument for economics politics culture and philosophy remain largely unexplored

From Marx to Mises is a clear penetrating exposition of the economic calculation debate and a scrutiny of some of the broader issues it raises

Marx and Russia James D. White, 2018-09-06 Marx and Russia is a chronological account of the evolution of Marxist thought from the publication of Das Kapital in Russian translation to the suppression of independent ideological currents by Stalin at the end of the 1920s The book demonstrates the progressive emergence of different schools of Marxist thinking in the revolutionary era in Russia Starting from Marx's own connections with Russian revolutionaries and scholars James D White examines the contributions of such figures as Sieber Plekhanov Lenin Bogdanov Trotsky Bukharin and Stalin to Marxist ideology in Russia Using primary documents biographical sketches and a helpful timeline the book provides a useful guide for students to orientate themselves among the various Marxist ideologies which they encounter in modern Russian history White also incorporates valuable new research for Russian history specialists in a vital volume for anyone interested in the history of Marxism Soviet history and the history of Russia across the modern period

Trotskyism and the Dilemma of Socialism Chris Z. Hobson, Ronald D. Tabor, 1988-10-19 Written by two long time scholar activists this book is a detailed history of the Trotskyist movement set against the background of the Russian Revolution and the evolution of Soviet society As the first comprehensive study of the subject in English Trotskyism and the Dilemma of Socialism traces the ideas and activities of the Trotskyist movement over six decades and five continents The history is paced within the context of the attempts by Trotsky and the movement to understand the nature of the evolving Soviet society as in Trotsky's theory of the degenerated workers state Particularly valuable is the authors in depth analysis of the Soviet economy

The Dunayevskaya-Marcuse-Fromm Correspondence, 1954-1978 Kevin Anderson, Russell Rockwell, 2012-01-01 This volume contains the correspondence during the years 1954 to 1978 between Marxist Humanist and feminist philosopher Raya Dunayevskaya 1910-87 and the Hegelian Marxist philosopher and social theorist Herbert Marcuse 1898-1979 and the psychologist and social critic Erich Fromm 1900-80 The exchanges show the deeply Marxist and humanist concerns of these theorists while also highlighting their significant differences on key issues in philosophy politics and psychology during the

turbulent decades of the 1950s 1960s and 1970s *Selected Essays of Nigel Harris* Nigel Harris,2017-10-02 Nigel Harris s *Selected Essays From National Liberation to Globalisation* presents an encompassing overview of the work of one of the most prolific and insightful Marxist economists of the second half of the twentieth century It starts off with a new interview in which Harris reflects on the development of his thought over the more than half a century separating the death of Stalin from the latest developments in globalisation and capitalist restructuring The collected essays deal with topics ranging from imperialism and the state to the political economy of development and migration and offer an ample selection from Harris s political journalism Together the work constitutes at once a personal journey through the history of the British revolutionary left and a trenchant commentary on some of the most fundamental problems facing a renewed Marxist theory *Social Change Theories in Motion* Thomas C. Patterson,2018-02-01 This book assesses how theorists explained processes of change set in motion by the rise of capitalism It situates them in the milieu in which they wrote They were never neutral observers standing outside the conditions they were trying to explain Their arguments were responses to those circumstances and to the views of others commentators living and dead Some repeated earlier views others built on those perspectives a few changed the way we think While surveying earlier writers the author s primary concerns are theorists who sought to explain industrialization imperialism and the consolidation of nation states after 1840 Marx Durkheim and Weber still shape our understandings of the past present and future Patterson focuses on explanations of the unsettled conditions that crystallized in the 1910s and still persist the rise of socialist states anti colonial movements prolonged economic crises and almost continuous war After 1945 theorists in capitalist countries influenced by Cold War politics saw social change in terms of economic growth progress and modernization their contemporaries elsewhere wrote about underdevelopment dependency or uneven development In the 1980s theorists of postmodernity neoliberalism globalization innovations in communications technologies and post socialism argued that they rendered earlier accounts insufficient Others saw them as manifestations of a new imperialism capitalist accumulation on a global scale environmental crises and nationalist populism Theories of Surplus and Transfer Helen Harte Boss,1990 Soviet World Outlook United States.
