secured Arthur Ransome s reputation as one of the most influential children s authors of all time yet prior to writing fiction he had had a turbulent career as a journalist and war correspondent in revolutionary Russia In this refreshing account of

Ransome's work Alan Kennedy sets out to explain his enduring appeal combining literary criticism with psychological expertise Not only did Ransome apply a careful narrative theory to his works his use of symbolism aligning them more with the modernist tradition than with the event driven children's literature of contemporaries such as Richmal Crompton and Enid Blyton but his novels are also more than usually autobiographical This Kennedy ably demonstrates with reference to three particular challenges Ransome faced in a seriously conflicted life his father's untimely death his abandonment of his infant daughter in order to escape his catastrophic first marriage and the innumerable compromises that kept him alive during his Russian exile *A Thoroughly Mischievous Person* is the first study to tackle this matter systematically giving casual and scholarly readers alike new insights into the other Arthur Ransome *The Friends' Library* William Evans, Thomas Evans, 1846

*Love and Need* Adam Plunkett, 2025-02-18 Braiding together biography and criticism Adam Plunkett challenges our understanding of Robert Frost's life and poetic legacy in a pathbreaking new work By the middle of the twentieth century Robert Frost was the best loved poet in America He was our nation's bard simple and sincere accompanying us on wooded roads and articulating our hopes and fears After Frost's death these clichés gave way to equally broad though opposed portraits sketched by his biographers chief among them Lawrance Thompson When the critic Helen Vendler reviewed Thompson's biography she asked whether anyone could avoid the conclusion that Frost was a monster In *Love and Need* The Life of Robert Frost's Poetry Adam Plunkett blends biography and criticism to find the truth of Frost's life one that lies between the two poles of perception Plunkett reveals a new Frost through a careful look at the poems and people he knew best showing how the stories of his most important relationships heretofore partly told mirror dominant themes of Frost's enduring poetry withholding and disclosure privacy and intimacy Not least of these relationships is the fraught intense friendship between Frost and Thompson the major biographer whose record of Frost Plunkett seeks to set straight Moving through Frost's most important work and closest relationships with the attention to detail necessary to see familiar things anew Plunkett offers an original interpretation of Frost's poetry tracing Frost's distinctive achievement to an engagement with poetic tradition far deeper and more extensive than he ever let on Frost invited his readers into a conversation like the one he sustained with his literary forebears intimate and profound yet Frost kept his private self at a remove Here Plunkett brings the two together the poet and the poetry and draws us back into conversation with America's poet

**The Poetry of Clare, Hopkins, Thomas, and Gurney** Andrew Hodgson, 2019-12-31 This book attends to four poets John Clare Gerard Manley Hopkins Edward Thomas and Ivor Gurney whose poems are remarkable for their personal directness and distinctiveness It shows how their writing conveys a potently individual quality of feeling perception and experience each poet responds with unusual commitment to the Romantic idea of art as personal expression The book looks closely at the vitality and intricacy of the poets' language the personal candour of their subject matter and their sense obdurate but persuasive of their own strangeness As it traces the tact and imagination with which each of the four writers

realises the possibilities of individualism in lyric it affirms the vibrancy of their contributions to nineteenth and twentieth century poetry

**Language, Truth, and Literature** Richard Gaskin, 2013-04-18 According to the literary humanist works of imaginative literature have an objective meaning which is fixed at the time of their production and which

is the same for all readers then and thereafter not subject to the vagaries of individual readers responses Such works refer to the real world and make statements about that world which are of cognitive as well as aesthetic value the two kinds of value are indeed intimately connected Richard Gaskin offers a defence of literary humanism so understood against assault from two directions On the one hand some analytic aestheticians have argued that works of literature do not bear referentially on the world and do not make true statements about it others hold that such works do not make a contribution to knowledge others again allow that works of literature may have cognitive value but deny that this depends on their having truth or reference On the other hand reception theorists and deconstructionists have rejected the humanist s objectivist conception of literary meaning and typically take a pragmatist and anti realist approach to truth and meaning This latter poststructuralist treatment of literature has often been accompanied by a radical politicization of its study In defending literary humanism against these various forms of attack Gaskin shows that the reading and appreciation of literature is a cognitive activity fully on a par with scientific investigation and that we can and should engage in it disinterestedly for the sake of what can be learnt about the world and our place in it     Locations of Literary Modernism Alex Davis, Lee M. Jenkins, 2000-10-05 In this 2000 collection an international team of contributors examine relationships between modernist poetry and place
