Roberts,2015-04-30 Expanded and fully updated the Crisis Intervention Handbook Assessment Treatment and Research Fourth Edition focuses on crisis intervention services for persons who are victims of natural disasters school based and home based violence violent crimes and personal or family crises It applies a unifying model of crisis intervention making it appropriate for front line crisis workers clinical psychologists social workers psychiatric mental health nurses and graduate students who need to know the latest steps and methods for intervening effectively with persons in acute crisis

Decolonizing Social Work Mel Gray,John Coates,Michael Yellow Bird,Tiani Hetherington,2016-05-13 Riding on the success of Indigenous Social Work Around the World this book provides case studies to further scholarship on decolonization a major analytical and activist paradigm among many of the world s Indigenous Peoples including educators tribal leaders activists scholars politicians and citizens at the grassroots level Decolonization seeks to weaken the effects of colonialism and create opportunities to promote traditional practices in contemporary settings Establishing language and cultural programs honouring land claims teaching Indigenous history science and ways of knowing self esteem programs celebrating ceremonies restoring traditional parenting approaches tribal rites of passage traditional foods and helping and healing using tribal approaches are central to decolonization These insights are brought to the arena of international social work still dominated by western based approaches Decolonization draws attention to the effects of globalization and the universalization of education methods of practice and international development that fail to embrace and recognize local knowledges and methods In this volume Indigenous and non Indigenous social work scholars examine local cultures beliefs values and practices as central to decolonization Supported by a growing interest in spirituality and ecological awareness in international social work they interrogate trends issues and debates in Indigenous social work theory practice methods and education models including a section on Indigenous research approaches The diversity of perspectives decolonizing methodologies and the shared struggle to provide effective professional social work interventions is reflected in the international nature of the subject matter and in the mix of contributors who write from their contexts in different countries and cultures including Australia Canada Cuba Japan Jordan Mexico New Zealand South Africa and the USA *Practising Social Work* Christopher Hanvey,Terry Philpot,2002-08-26 Practicing Social Workprovides a systematic exploratiuon of ar ange of social work approaches Each chapter focuses on a single theme and explains the practice implications of a particular method **The Changing Face of Health Care Social Work** Sophia F. Dziegielewski,2003-11-12 Full of practice oriented tips questions for further study select online resources and professional profiles in such diverse arenas as the emergency room home care case management and hospice *Models for Change in Social Group Work* Marian Fatout,2017-09-29 Intended for beginning students as was as for practitioners this volume shows how to make maximum use of the various models available for social group work Dr Fatout explores and delineates the mainstream model devotes separate and incisive sections to notable specific approaches and offers suggestions on ways in which social workers can utilize these

strategies in an effective and systematic fashion **Handbook of Psychotherapy Integration** John C. Norcross, Marvin R. Goldfried, 2005-02-24 The 13 years between the publication of the original edition of the handbook and this second edition have been marked by memorable growth in psychotherapy integration The original classic was the first compilation of the early integrative approaches and was hailed by one reviewer as the bible of the integration movement In the interim psychotherapy integration has grown into a mature empirically supported and international movement This second edition provides a state of the art comprehensive description of psychotherapy and its clinical practices by leading proponents In addition to updates of all of the chapters the new edition features 1 eight new chapters covering topics such as cognitive analytic therapy integrative psychotherapy with culturally diverse clients cognitive behavioral analysis system and blending spirituality with psychotherapy 2 an entirely new section with two chapters on assimilative integration 3 updated reviews of the empirical research on integrative and eclectic treatments 4 chapter guidelines that facilitate comparative analyses and ensure comprehensiveness and 5 a summary outline to help readers compare the integrative approaches Blending the best of clinical expertise empirical research and theoretical pluralism the revision of this integration bible will prove invaluable to practitioners researchers and students alike *Social Work with the Aged and Their Families* Roberta R. Greene, 2017-07-12 In recent years theoreticians researchers and practitioners have become increasingly interested in older adults and the aging process This volume draws on related disciplines to better understand the biological psychological and social aspects of aging *Social Work with the Aged and Their Families* covers areas of central interest to those coping with the needs of an aging population Among the topics addressed are assessment of the aging taking into account biological age psychological age and socio cultural and spiritual age Greene also considers the importance of the family system family roles and development functional age individual and family intervention and group and community interventions The scientific and systematic study of aging is known as gerontology Geriatric social workers are those who have applied established social work theories in an attempt to find suitable techniques for working with their elderly clients The need for specialized services has given birth to various services and programs For example meals on wheels and home health care services have been designed to meet specific physical needs of older adults However mental health services have lagged far behind as practitioners struggled to adapt such specialties as family therapy to families of later years A major contribution of this book now in its third edition is the functional age model of intergenerational treatment FAM which is an outgrowth of that demand The functional age model of intergenerational treatment is an integrative theoretical framework for social workers interested in clinical social work practice with older adults and their families Since its initial construction in 1986 the model has been augmented by more recent concepts related to successful aging spirituality and resiliency These additions together with the original assessment and intervention strategies present the major converging conceptual trends that constitute a model for twenty first century social work practice in the field of aging *Narrative Social Work Practice* Roberta Greene, Nancy

Greene, Harriet Cohen, Taunya Cole, 2025-05-21 This book highlights the co creation of the narrative interview and explains how the narrative method can be used to promote competence and wellness resist oppression and ultimately liberate clients from their problems The person in environment concept brings together a wide range of personal and societal micro to macro influences that allow practitioners to engage in an effective helping process with diverse individuals families groups organizations and communities The textbook has been written at a time of pronounced sociocultural and historical flux uncertainty and civil strife that threaten to disrupt the social fabric of the United States Consequently the book augments the resilience enhancing stress model RESM approach to the narrative methodology Each chapter of the text describes a client or constituency undergoing a life transition and the associated risks stressors and protective factors surrounding them Among the topics covered are Adopting RESM Anti Oppressive Social Work Strategies A Micro to Macro Approach Co creating a Narrative Forming Personal Identity Macrolevel Narrative Skills and Techniques Proactive Resilience Social Work Practice Time Place and Resilience The ultimate purpose of the book is for social workers to develop the ability to enhance clients and constituencies optimal resilient social functioning in a just and equitable world that embraces diversity equity and inclusion Although narrative social work practice is not yet widely applied the text elucidates how storytelling can break new ground in achieving asset based resilience enhancing social work practice as well as redress social economic and political injustice Narrative Social Work Practice A Resilience Enhancing Anti Oppressive Approach is the third in a series of texts that defines risk and resilience theory and its offshoot the RESM The book is intended primarily for generalists and advanced students as well as practitioners in the social work field

Evaluating Family-Based Services Peter J. Pecora, 2018-02-06 Family based service FBS programs have been developing rapidly across the country at a time of increasingly scarce human resources and in a politically volatile climate Such a context has made evaluation of such programs imperative The present volume reviews basic elements of evaluation in the light of current knowledge and then highlights the most useful research instruments for measuring changes in child and family functioning Chapters focus on evaluation methods that can be employed to determine the success of existing policy and to influence the development of new policy The authors assume that their readers will have a basic familiarity with research methods and program evaluation They discuss the challenges they have encountered in conducting extensive research on family preservation family support and other related programs and pose practical solutions for administrators practitioners and evaluators confronted with similar difficult issues Each chapter presents a brief conceptual framework for understanding issues related to assessment Essential elements are reviewed while research design measurement variables and qualitative and quantitative analyses are discussed in turn The book concludes with a review of the limitations of evaluations

Social Work Constructivist Research Mary Katherine O'Connor, 2015-12-22 This is the first textbook to offer a clear concise articulation of the dimensions of constructivism relevant to social work practice and research Professor Rodwell recognizes the need to systematize a process of knowledge building and presents

specific techniques to accomplish that while maintaining an interpretative stance with the focus on meaning Social work students will see that their basic way of engaging clients in an assessment and problem solving process is very much in keeping with constructivist research practice In addition to delineating the philosophical assumptions of constructivism this very practical text is geared to classroom use with chapters on research design rigor data collection data analysis research oversight and presentation of results Social Work Constructivist Research is divided into four sections that together should give the reader the intellectual and practical background necessary to understand and undertake rigorous constructivist inquiry The structure of this textbook is intended to provide the reader with sufficient information to competently confront all the design implementation and reporting elements of a constructivist inquiry process At the completion of all sections readers will know how the assumptions of constructivism differ from mainstream research primarily characterized by positivism or post positivism Readers will know how rigor expectations for research methods derived from different assumptions also differ They will know how to determine the feasibility of undertaking a constructivist inquiry when and where it is possible manage an emergent design and establish the trustworthiness and authenticity dimensions of a rigorous research effort For those interested in constructivist research and its relevancy to social work this book will prove to be a necessary resource

Social Work, Constructivist Research Mary K. Rodwell, 1998 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company

Under the Cover of Kindness Leslie Margolin, 1997 In Under the Cover of Kindness Leslie Margolin looks at how this country's social welfare system developed and with what results From his detailed examination of social work texts primarily case histories he argues persuasively that social work disguises its own assumptions and claims to power as a way of further legitimizing its actions By attending to these case histories Margolin shows how social work entails not only the intrusion into the previously private space of the home but also the constant justification of this intervention to both clients and workers themselves as representing charitable and disinterested help This book critically assesses how social workers invent themselves as they simultaneously invent their field of knowledge

Travels in the Trench Between Child Welfare Theory and Practice George Thomas, 1994 Travels in the Trench Between Child Welfare Theory and Practice examines how the child welfare field's rush to establish credibility and permanence through program growth during the post World War II era gave rise to a massive but fragile conglomerate unprepared to prove its merits when challenged by an increasingly dubious public Author George Thomas proposes a broad based shift from program growth to knowledge based growth in policy management education research and information technology initiatives to revitalize performance and restore public confidence in the system Thomas's book proposes to shift the leadership emphasis away from the big business flavor of child welfare and re define it into a mediator role of trusting worker and client competencies Travels in the Trench Between Child Welfare Theory and Practice shows how the two sides merge and concentrate on five key issues Policy Contrasts the impact of the two orientations on shaping the field's sense of

mission defining its role establishing its priorities for growth relative to size specialization and knowledge base and stimulating or reducing client adversarialism and public perceptions of chronic mission failure Management Examines how the priorities of the two orientations differ relative to preserving hierarchical authority rewarding work that exceeds mandates promoting innovation and experimentation and relying on process as distinct from client outcome accountability Education Examines how the priorities of the two orientations differ relative to relying on manpower and brain power on one right way of doing things versus doing what is legal and ethical Research Examines how the priorities of the two orientations differ relative to confirming the rightness of the field's existing knowledge base and testing it to expand its scientifically validated portion through discovery Information Technology Explores how the priorities of the two orientations differ relative to disclosing and preserving privileged communications developing common and specialized language and breaking down or protecting authority and status differentials This historical and cross sectional analysis forms a framework proposing that the field's future value in meeting the nation's child welfare needs must have a willingness to shift its commitments from problem to competency oriented theory and practice to accept a de emphasis on growth and a reduction in specialization and to redirect investments in education research and information technology According to Thomas this enables readers to revitalize practice wisdom grow the scientifically validated portion of the field's knowledge base and begin to restore public confidence in the system The book's contents are presented in interview style to enliven the material and make it more accessible to a wide audience The reader determines the sense and direction of the analysis and the appropriateness of the questions from which it flows Travels in the Trenches is intended to promote critical analysis of the link between long range vision and its impact on daily practice
