M. Caton, 1990-02-22 The 1980s have witnessed a dramatic increase in homelessness among impoverished and dependent persons, particularly in major metropolitan areas. In this in-depth study, Carol L. M. Caton and her colleagues synthesize the available information on this alarming trend, providing a comprehensive discussion of the causes and historical antecedents of homelessness and answering such questions as: Who are the homeless and what are their day-to-day lives like? What can be done to help the homeless and ensure that society meets its responsibility to them? How many homeless are there and why are their numbers increasing? In addressing these questions, *Homeless in America* describes various public and private shelter programs and, utilizing a unique scientific approach, discusses social and economic policy innovations aimed at independent living. The result is an invaluable resource for students in the social sciences, medicine, law, public policy, and social work, as well as for mental health professionals. **The Vietnam Veteran in Contemporary Society** United States. passed a deeply radical law closing all its mental health hospitals This was the culmination of the growth and development of a very strong anti psychiatry movement which had sprung up in the late 1960 s Both the law the movement and its aftermath have been much discussed in Britain America and other European countries because of the need to reconsider their own mental health care policies but up to now there has been a lack of reliable literature on which to base the discussion The Politics of Mental Health in Italy provides for the first time a scholarly and very balanced account of events and phenomena that have been previously presented in a more idiosyncratic and polemical fashion Michael Donnelly introduces documents and comments critically on the three phases of the Italian experience the late sixties mental health movement the drafting and passage of the 1978 law and the aftermath of deinstitutionalisation which has disappointed its supporters and kept the whole topic at the centre of public debate **Publications Resulting from National Institute of Mental Health**
