Black Athena Revisited Mary R. Lefkowitz, Guy MacLean Rogers, 2014-03-24 Was Western civilization founded by ancient Egyptians and Phoenicians Can the ancient Egyptians usefully be called black Did the ancient Greeks borrow religion science and philosophy from the Egyptians and Phoenicians Have scholars ignored the Afroasiatic roots of Western civilization as a result of racism and anti-Semitism In this collection of twenty essays leading scholars in a broad range of disciplines confront the claims made by Martin Bernal in Black Athena The Afroasiatic Roots of Classical Civilization In that work Bernal proposed a radical reinterpretation of the roots of classical civilization contending that ancient Greek culture derived from Egypt and Phoenicia and that European scholars have been biased against the notion of Egyptian and Phoenician influence on Western civilization The contributors to this volume argue that Bernal's claims are exaggerated and in many cases unjustified Topics covered include race and physical anthropology the question of an Egyptian invasion of Greece the origins of Greek language philosophy and science and racism and anti-Semitism in classical scholarship In the conclusion to the volume the editors propose an entirely new scholarly framework for understanding the relationship between the cultures of the ancient Near East and Greece and the origins of Western civilization The contributors are John Baines professor of Egyptology University of Oxford Kathryn A Bard assistant professor of archaeology Boston University C Loring Brace professor of anthropology and

The Private Feast Lists of Ancient Egypt Anthony John Spalinger,1996 This volume covers the numerous small lists of feasts that occur mainly on stelae and in tombs A chronological study is presented wherein the major phases of Pharaonic Egypt Old Kingdom to the Ptolemaic Period are covered Questions of dating these inscriptions as well as reasons concerning alterations in the lists form a major part of the discussion In particular differences in arrangement of these private celebrations both within a specific time period as well as between eras provide causes for the alterations of religious patterns

of a non royal sort Calendrical ideas are likewise surveyed although for the most part the aim of this study remains focused upon the religious events themselves Material of an ancillary nature including some data from royal inscriptions will be found only when they provide light upon the private religious practices
