Egyptology Intro History:

History of Ancient Egypt Erik Hornung, 1999 This volume presents an introduction to Egyptian history reflected by the author's treatment of religious developments and their relationship to current Egyptian society, ethics and politics. He begins his account by taking a brief look at the prehistoric era in Egypt. He then focuses on political events during the period beginning with the reign of Menes and closing with the conquest by Alexander the Great. Building on insights drawn from the civilization's surviving texts and monuments, he also describes significant cultural developments such as changes in burial customs and the building of the Great Pyramids and Sun Temples. **Egyptology** James Putnam, 1996 An illustrated overview of ancient Egyptian life.

An Introduction to the History of Modern Arabic Literature in Egypt J. Brugman, 2023-10-16 Arabic literature is noted for its tradition-conscious consistency and sophistication. In the classical period, poetry and prose reached a high level of refinement and attained standards which are still being applied in the modern Arab world today. The literature of the modern post-classical period is no less sophisticated, being a vibrant and flourishing expression of the continued Arabic tradition. The series *Studies in Arabic Literature Supplements to the Journal of Arabic Literature*, founded in 1971, is concerned with all kinds of literary expression in Arabic, including the oral and vernacular traditions of both the modern and the classical periods. Studies in the series can be literary, historical, analytical, or comparative in nature and can treat of individual works, authors, and genres as well as literary traditions in a wider context. Studies dealing with the social, political, and philosophical backgrounds of Arabic literature are particularly welcome in the series. The series comprises monographs, thematic collections of articles, handbooks, textual editions, and annotated translations. Text editions are as a rule accompanied by a translation on facing pages; both text editions and translations should include comprehensive critical introductions which give a full and proper appreciation of the text or texts in question.

A History of World Egyptology Andrew Bednarski, Aidan Dodson, Salima Ikram, 2021-05-27 A History of World Egyptology is a ground-breaking reference work that traces the study of ancient Egypt over the past 150 years. Global in purview, it enlarges our understanding of how and why people have looked and continue to look into humankind's distant past through the lens of the enduring allure of ancient Egypt. Written by an international team of scholars, the volume investigates how territories around the world have engaged with and have been inspired by ancient Egypt and its study, and how that engagement has evolved over time. Chapters present a specific territory from different perspectives, including institutional and national, while examining a range of transnational links as well. The volume thus touches on multiple strands of
