Implementing Codes of Conduct Ivanka Mamic,2017-09-08 At the start of the 21st century manufacturing is in the midst of a major transformation with goods moving from factories in S o Paulo Ho Chi Minh and Guanzhou to the shelves of stores in New York Hamburg and Sydney As production of goods has become increasingly global with an impact on workers and societies around the world the ILO has sought to answer the challenging question how best to implement voluntary corporate initiatives in value chains that stretch around the globe from a constantly changing supply base of factories both large and small In order to address growing pressures from stakeholders a number of global companies have adopted codes of conduct with the aim of influencing the practices of their suppliers in less developed countries and providing a baseline of expected standards Typically codes of conduct draw on international labour standards setting guidelines on a range of issues including child labour forced labour wages and benefits working hours disciplinary practices the right to freedom of association health and safety and environmental practices Notwithstanding the array of initiatives that has emerged anecdotal evidence

suggests that in many cases managers both at the company and supplier level have struggled and continue to struggle with the issue of how to implement their codes of conduct Based on interviews with hundreds of managers activists government officials factory workers and workers representatives Implementing Codes of Conduct represents the most extensive research conducted to date into the emerging nature of corporate social responsibility and global supply chains Its objective is to provide useful examples and lessons learned to companies policy makers and others interested in implementing their own code of conduct or who are actively involved in this field This book has broad implications for firms that are serious about seeing the social and environmental objectives expressed in their corporate codes become a reality at the supplier level implications that stretch from the boardroom to the factory floor The book presents a model that maps a route from the creation of a vision to its implementation at the operational level Based on research conducted in the sports footwear apparel and retail sectors this book provides a detailed account of the approaches currently used by leading brands and retailers and practical suggestions for other companies to follow in addressing social pressures Given an increasingly clear link between corporate social responsibility and profits this book serves as an invaluable tool in assisting those interested in balancing the complex demands of society and competitive concerns **Today's Facility Manager** ,2005 *Making the Business Case for EHS Programs* ,

Regulation of Labor Standards in Global Supply Chains Sarosh Kuruvilla,2021-04-15 Private Regulation of Labor Standards in Global Supply Chains examines the effectiveness of corporate social responsibility on improving labor standards in global supply chains Sarosh Kuruvilla charts the development and effectiveness of corporate codes of conduct to ameliorate sweatshop conditions in global supply chains This form of private voluntary regulation spearheaded by Nike and Reebok became necessary given the inability of third world countries to enforce their own laws and the absence of a global regulatory system for labor standards Although private regulation programs have been adopted by other companies in many

different industries we know relatively little regarding the effectiveness of these programs because companies don't disclose information about their efforts and outcomes in regulating labor conditions in their supply chains *Private Regulation of Labor Standards in Global Supply Chains* presents data from companies, multi-stakeholder institutions and auditing firms in a comprehensive investigative dive into the world of private voluntary regulation of labor conditions. The picture he paints is wholistic and raw but it considers several ways in which this private voluntary system can be improved to improve the lives of workers in global supply chains.

Corporate Responses to Environmental Challenges Ann Rappaport, Margaret Fresher Flaherty, 1992-06-23 Environmental concerns are on the corporate agenda and companies are searching for effective managerial strategies. Multinational corporations command huge financial resources and technical skills and their actions toward the environment can have a profound impact. Drawing detailed examples from major multinational companies, this book provides a wealth of practical insight on how companies approach the difficult task of responding to an increasing variety of environmental challenges. The authors identify several specific programs being developed and implemented by corporations to establish accountability for environment health and safety and to integrate environmental concerns throughout the corporate decision making process. The material in this work is drawn from extensive interviews conducted in U.S.-based companies and examinations of production facilities in developed and developing countries. In addition, results of a survey on corporate environment health and safety practices are woven into the analysis. Although they note that there are inadequacies in some corporate responses to environmental challenges, the authors contend that improved practice will result from actions on the part of government and universities as well as companies themselves. This book will help decision makers review their environmental programs and develop sound strategies to overcome the corporate environmental anxiety that "We know we're out of compliance somewhere in the world all of the time."

Northern Ireland's Waste Management Strategy Northern Ireland Audit Office, 2005-06-23 Northern Ireland's total waste generation is estimated at 20 million tonnes per year. This report reviews the action being taken by the Department of the Environment and the Environment and Heritage Service to tackle Northern Ireland's waste problem. It examines the degree to which the legislative framework has kept pace with EU requirements, the comprehensiveness of the waste management strategy, the extent to which the strategy has been implemented and the progress to date.

Computers and the Environment: Understanding and Managing their Impacts R. Kuehr, Eric Williams, 2012-12-06 Personal computers have made life convenient in many ways but what about their impacts on the environment due to production use and disposal Manufacturing computers requires prodigious quantities of fossil fuels toxic chemicals and water Rapid improvements in performance mean we often buy a new machine every 1 3 years which adds up to mountains of waste computers How should societies respond to manage these environmental impacts This volume addresses the environmental impacts and management of computers through a set of analyses on issues ranging from environmental assessment technologies for recycling consumer behaviour strategies of computer manufacturing firms and government policies One conclusion is that extending the lifespan of computers e g through reselling is an environmentally and economically effective strategy that deserves more attention from governments firms and the general public The New Jersey Register ,2006 Case Studies in Waste Minimization ,1991 A compilation of 68 case studies reporting how companies reduced their production of pollutants previously published in the newsletter Hazardous and Solid Waste Management and Recycling Report or in EPA guides Includes reports on DuPont Hewlett Packard Newark Air Force Base and Kodak **The Environmental Forum** ,2002 Halting Biodiversity Loss Great Britain. Parliament. House of Commons. Environmental Audit Committee,2008 This is the thirteenth report from the Environmental Audit Committee of the 2007 08 session HCP 743 ISBN 9780215524843 The Committee states that the Government will fail to meet the 2010 target to halt biodiversity loss although the target might have been unrealistic The Committee does see some progress with 80% of Sites of Special Scientific Interest SSIs in a favourable condition with a number of rare species having recovered In general though biodiversity loss continues in the wider countryside with many species and habitats facing severe declines and local extinctions The Committee does believe though that with leadership and effective policies biodiversity loss could in fact be reversed and states the Government should adopt a new target to halt the loss Biodiversity policies need to be cross departmental and the Government s

ecosystem assessment is a way forward by encouraging such an approach and promoting biodiversity protection at the regional and local scales The Committee further states that the Government could make a large contribution in preventing biodiversity loss through more support for the UK Overseas Territories
