Binnendijk, Richard L. Kugler, 2006. What is the current state of the global security system and where is it headed? What challenges and opportunities do we face and what dangers are emerging? How will various regions of the world be affected? How can the United States best act to help shape the future while protecting its security interests and values? How can the United States deal with the threats of terrorism and weapons of mass destruction? An intellectual history of U.S. national security thinking since the end of the fall of the Soviet Union. *Seeing the Elephant* is an attempt to see the evolving international security system and America's role in it through the eyes of more than fifty perceptive authors who have analyzed key aspects of the unfolding post-Cold War drama. Its premise is that like the blind men in the Buddhist fable, who each feels a different part of an elephant, these authors and their assessments taken together can give us a better view of where the world is headed. **Giants of the Monsoon Forest: Living and Working with Elephants** Jacob

Shell, 2019-06-11. No one who loves elephants or how humans interact with wildlife should pass up Jacob Shell's remarkable book. Dan Flores, author of *Coyote America*, *Giants of the Monsoon Forest* journeys deep into the mountainous rainforests of Burma and India to explore the world of teak logging, elephants, and their intriguing alliance with humans. Jacob Shell's narrative vividly depicts elephants' extraordinary intelligence and the complicated bond with individual human riders, a partnership that can last for decades. *Giants of the Monsoon Forest* reveals an unexpected relationship between evolution in the natural world and political struggles in the human one, while considering how Asia's secret forest culture might offer a way to help protect the fragile spaces both elephants and humans need to survive. **Dhantasura** Jayanth Dev, 2023-04-01

When injustice threatens Dharma, the Lord will set things straight. But what if God himself violates Dharma? Lord Ganesha's celestial manifestation took form via the horrific act of sacrificing an innocent elephant for its head at the deep cost of breaching the very foundations of Dharma. Is it morally justifiable to take one life to spare another? Gajasura, the father of the innocent elephant, met a brutal end simply for daring to question Shiva regarding the tragic demise of his child. Delving further into this cycle of violence, Mahishasura, Gajasura's father, also faced an unjust fate as he was slain by none other than Shiva's consort, Goddess Durga. It was at that moment when Dhantasura made his ominous entrance. He stood as a monstrous entity bearing the combined abilities of all living creatures. John Arthur Hoyt, 1994 Argues that the theory that endangered species must pay their own way to survive is a political expediency used to justify legalized killing in the name of conservation A Global History of Pre-Modern Warfare Kaushik Roy, 2021-09-14 This book examines the military histories of the regions beyond Western Europe in the pre modern era Existing works on global military history mainly focus on the western part of Eurasia after 1500 CE As regards the ancient period such works concentrate exclusively on Greece and Rome So global military history is actually the triumphal story of the West from Classical Greece onwards This volume focuses not only on the eastern part of Eurasia but also on South America Africa and Australasia and seeks to explain the history and varied trajectories of warfare in non Western regions in the pre modern era Further it evaluates whether warfare in non Western regions should be considered primitive or inferior when compared with Western warfare The book notes that Western Europe became militarily significant only in the early modern era and argues that the military divergence that occurred during the early modern era is not unique it had also occurred in the Bronze Age the Classical era and in the medieval period This was due to the dynamism and innovativeness of non Western militaries and the interconnectedness that existed in parts of the Eurasian landmass Further those polities which were able to construct a balanced military force by synthesising diverse elements were not only able to survive but also became capable of projecting power across continents This book will be of much interest to students of military history strategic studies and world history
