Gribble, 2016-07-06 Funerals are usually the end of the story not the beginning Newly graduated warrior mages Toria Connor and Kane Nalamas find themselves the last remaining mages in the city when a mage school teacher mysteriously falls ill and dies But taking over the school themselves isn t in the cards They re set to become professional mercenaries if they make it through the next 18 months as journeymen first The debate over whether to hunt mutated monsters in the Wasteland or take

posh bodyguard jobs is put on hold when a city elder hires them to solve the mystery of the disappearing mages Toria and Kane's quest brings them to the British colonial city of New Angouleme where their initial investigation reveals that the problem is even greater than they feared But when a friend is kidnapped they'll have to travel to the other side of the globe to save her save themselves and save magic itself In this return to Gribble's unique world blend of fantasy and alternate history readers will relish the compelling portrayal of magic and the sometimes easy going sometimes sexy sometimes heart wrenching tests of the warrior mage bond Jen Brooks In a World Just Right Well written and a fun read Steel Magic by J L Gribble is filled with mystery sacrifice and challenges that will keep you turning the pages until the very end Jennifer Brozek Never Let Me Sleep

Night Magic Karen Robards, 2001-03-15 The new novel from the author of Amanda Rose To Love a Man and Dark Torment is a contemporary love story in which a mild mannered author of romantic thrillers becomes unwittingly embroiled in a hair raising adventure with a handsome stranger that surpasses anything in her fiction

The Magic Ring Piero Mella, 2014-05-06 This book presents a gradual path toward educating readers in understanding how Control Systems truly operate and in recognizing simulating and improving them in all fields of activity Starting from the hypothesis that knowledge of Control Systems is not only a technical fact but also represents a discipline that is A discipline is a developmental path for acquiring certain skills or competencies To practice a discipline is to be a lifelong learner You never arrive you spend your life mastering disciplines Senge 2006 p 10 Piero Mella has set the objective of making Control Systems a topic that is in a certain sense simple and attractive by turning to the effective symbolism typical of Systems Thinking models and avoiding too technical and formal a treatment of the subject Thus readers should know that this is not an engineering physics biology or economics text nor a mathematics one either Technical or mathematical tools are not necessary to construct Control Systems instead the book adopts a highly simple and universal logic behind the notion itself of control process and the simple and universal action of the Control Systems that produce this process The Magic Ring Systems Thinking Approach to Control Systems is divided into 10 chapters Chapter 1 seeks to review the basic language of Systems Thinking and the models it allows us to create while Chapter 2 introduces the control process presenting the theoretical structure of four simple Control Systems we all can observe and manage In Chapter 3 a general typology of Control Systems is proposed with examples taken from observations of reality The view of Control Systems is broadened in Chapter 4 by introducing two important generalizations 1 multi lever Control Systems with levers that are independent or dependent of each other 2 multi objective systems with independent or interdependent objectives Chapter 5 outlines the guidelines for recognizing observing or designing Control Systems and presents the problems that arise regarding their logical realization introducing the fundamental distinction between symptomatic and structural control Chapters 6 9 undertake a mental journey through various environments increasingly broader in scope suggesting to the reader how to recognize therein Control Systems that by their ubiquitous presence make the world possible in all its manifestations Finally

Chapter 10 covers ideas about a Discipline of Control Systems and the human aspects of control **Guns, Magic, and Talking Foxes** Kirby Exmoor,2024-12-20 Isaac thought that escaping from the cult he was born into was the end of his problems When a fae named Nasir begs for Isaac to help free him from his horrible master Isaac refuses not wanting to disappoint his mafia don But when his hand is forced Isaac finds himself entrenched in the past that he never truly escaped from Ten years ago three friends attempted to escape a heavily guarded commune In the chaos they lost each other each thinking the others were dead All of them build their lives Isaac becomes the underboss due to his unique immunity to magic Jasper is a high ranking gang member and Tansy is the understudy to a prominent fashion designer the threat of where they came from lurks in the background When the three of the collide again they are forced to deal with what they thought they buried As they delve into the depths of their shared history the threat of their former lives resurfaces demanding a reckoning they can no longer evade *Magic on the Hunt* Devon Monk,2011-04-05 In the secret lockup of the Authority the council that decides what can and can t be done with magic an undead magic user has possessed one of the prisoners He wants his freedom and then some Now Allie Beckstrom and her lover Zayvion are the first line of defense against the chaos he s about to unleash on the city of Portland **Understanding the Magic of the Bicycle** Joseph W Connolly,2017-01-01 The bicycle is a common yet unique mechanical contraption in our world In spite of this the bike s physical and mechanical principles are understood by a select few You do not have to be a genius to join this small group of people who understand the physics of cycling This is your guide to fundamental principles such as Newton s laws and the book provides intuitive basic explanations for the bicycle s behaviour Each concept is introduced and illustrated with simple everyday examples Although cycling is viewed by most as a fun activity and almost everyone acquires the basic skills at a young age few understand the laws of nature that give magic to the ride This is a closer look at some of these fun exhilarating and magical aspects of cycling In the reading you will also understand other physical principles such as motion force energy power heat and temperature
