Eleven Black Kids And An Old White Man:

America on Fire: The Untold History of Police Violence and Black Rebellion Since the 1960s Elizabeth Hinton, 2021-05-18 Not since Angela Davis's 2003 book *Are Prisons Obsolete* has a scholar so persuasively challenged our conventional understanding of the criminal legal system. Ronald S. Sullivan Jr., *Washington Post*. From one of our top historians a groundbreaking story of policing and riots that shatters our understanding of the post-civil rights era. What began in spring 2020 as local protests in response to the killing of George Floyd by Minneapolis police quickly exploded into a massive nationwide movement. Millions of mostly young people defiantly flooded into the nation's streets demanding an end to police brutality and to the broader systemic repression of Black people and other people of color. To many observers the protests appeared to be without precedent in their scale and persistence. Yet as the acclaimed historian Elizabeth Hinton demonstrates in *America on Fire*, the events of 2020 had clear precursors and any attempt to understand our current crisis requires a reckoning with the recent past. Even in the aftermath of Donald Trump, many Americans consider the decades since the civil rights movement in the mid-1960s as a story of progress toward greater inclusiveness and equality. Hinton's sweeping narrative uncovers an altogether different history, taking us on a troubling journey from Detroit in 1967 and Miami in 1980 to Los Angeles in 1992 and beyond to chart the persistence of structural racism and one of its primary consequences: the so-called urban riot. Hinton offers a critical corrective: the word riot was nothing less than a racist trope applied to events that can only be properly understood as rebellions—explosions of collective resistance to an unequal and violent order. As she suggests, if rebellion and the conditions that precipitated it never disappeared, the optimistic story of a post-Jim Crow United States no longer holds. Black rebellion, *America on Fire* powerfully illustrates, was born in response to poverty and exclusion but most immediately in reaction to police violence. In 1968 President Lyndon Johnson launched the War on Crime, sending militarized police forces into impoverished Black neighborhoods. Facing increasing surveillance and brutality, residents threw rocks and Molotov cocktails at officers, plundered local businesses, and vandalized exploitative institutions. Hinton draws on exclusive sources to uncover a previously hidden geography of violence in smaller American cities, from York, Pennsylvania to Cairo, Illinois to Stockton, California. The central lesson from these eruptions: that police violence invariably leads to community violence. Hinton continues to escape policymakers who respond by further criminalizing entire groups instead of addressing underlying socioeconomic causes. The results are the hugely expanded policing and prison regimes that shape the lives of so many Americans today. Presenting a new framework for understanding our nation's enduring strife, *America on Fire* is also a warning: rebellions will surely continue unless police are no longer called on to manage the consequences of dismal conditions beyond their control and until an oppressive system is finally remade on the principles of justice and equality.

African American Life in South Carolina's Upper Piedmont, 1780-1900 W. J. Megginson, 2022-08-03 A rich portrait of Black life in South Carolina's Upstate. Encyclopedic in scope yet intimate in detail. *African American Life in South*

Carolina's Upper Piedmont 1780-1900 delves into the richness of community life in a setting where Black residents were relatively few, notably disadvantaged but remarkably cohesive. W. J. Megginson shifts the conventional study of African Americans in South Carolina from the much-examined Lowcountry to a part of the state that offered a quite different existence for people of color. In Anderson, Oconee, and Pickens counties, occupying the state's northwest corner, he finds an independent, brave, and stable subculture that persevered for more than a century in the face of political and economic inequities. Drawing on little-used state and county denominational records, privately held research materials, and sources available only in local repositories, Megginson brings to life African American society before, during, and after the Civil War.

Orville Vernon Burton, Judge Matthew J. Perry Jr., Distinguished Professor of History at Clemson University and University Distinguished Teacher-Scholar Emeritus at the University of Illinois, provides a new foreword.

White Man's Cotton Randy Somerton, 2004. In a twist on history, author R. W. Somerton looks at racism, hatred, and injustice from an alternative perspective. A group of elite African Americans is kidnapping selected white racists and turning them into slaves, picking White Man's Cotton. Told in turn from the perspective of the slaves and that of their captors, *White Man's Cotton* looks at the power of hate and its universality, regardless of race or creed. Violent, suspenseful, and thrilling, this novel examines the roots of hatred and explores the lengths to which people will go in their search for revenge, the struggle to end injustice and intolerance. A work of speculative fiction, it is intended to provoke an evaluation of our beliefs and our understanding of justice and equality.

My Father's Name Lawrence P. Jackson, 2020-03-04. An African American studies scholar traces his family lineage to a Black Virginia neighborhood in the era of Reconstruction in this historical memoir. As an expectant father, Lawrence P. Jackson decides to go looking for his late grandfather's home in Pittsylvania County, Virginia, an old house by the railroad tracks in Blair's Arm. With nothing but childhood memories, his journey evolves into a kind of detective story as he uncovers his ancestral history through the turmoil and torment of the 19th-century South. After asking around in Pittsylvania County, Jackson finds himself in the house of distant relations. He becomes increasingly absorbed by the search for his ancestors and soon realizes how few generations an African American needs to map in order to arrive at slavery, the door of no return. Ultimately, Jackson's dogged research leads him to his grandfather's grandfather, a man who was born or sold into slavery but who, when Federal troops abandoned the South in 1877, was able to buy forty acres of land. In this intimate study of a Black Virginia family and neighborhood, Jackson vividly reconstructs moments in the lives of his father's grandfather, Edward Jackson, and great grandfather, Granville Hundley, and gives life to revealing narratives of Pittsylvania County, recalling both the horror of slavery and the later struggles of postbellum freedom.

None of the Above Shani Robinson, Anna Simonton, 2019-01-15. An insider's account of the infamous Atlanta Public Schools cheating scandal that scapegoated Black employees for problems rooted in the education reform movement. A Place Called Appomattox William Marvel, 2016-02-11 Although Appomattox Court House is one of the most symbolically charged places in America it was an ordinary tobacco growing village both before and after an accident of fate brought the armies of Lee and Grant together there It is that Appomattox the typical small Confederate community that William Marvel portrays in this deeply researched compelling study He tells the story of the Civil War from the perspective of those who inhabited one of the conflict's most famous sites The village sprang into existence just as Texas became a state and reached its peak not long before Lee and Grant met there The postwar decline of the village mirrored that of the rural South as a whole and Appomattox served as the focal point for both Lost Cause myth making and reconciliation reveries Marvel draws on original documents diaries and letters composed as the war unfolded to produce a clear and credible portrait of everyday life in this town as well as examining the galvanizing events of April 1865 He also scrutinizes Appomattox the national symbol exposing and explaining some of the cherished myths surrounding the surrender there

A Piece of Chalk Joe Dotoli, 2023-04-25 A true story of racial and economic disparity set in America's oldest public high school in the 1970s is still shockingly relevant today Boston's 1970s busing crisis is a critical moment in America's civil rights movement Championed as a solution to segregation in northern city schools forced busing became one of the most divisive and regrettable episodes in Boston's long and distinguished history What ensued was a firestorm of riots heavy handed police response political ping pong disenfranchised students and lawsuits Those who were on the ground teachers administrators and students recount these events with empathy and precision Joe Dotoli who at the time was a young science teacher at Boston English High School narrates the events with all the cultural richness of Boston during the 70s This was the oldest public high school in America with a prestigious history going back to the historic moment in 1821 when it was established as the first public secondary school in America It boasts alumni like J P Morgan Samuel P Langley and General Matthew Ridgway By the 70s it was the epicenter of desegregation and crumbling under the pressure Today this story isn't so much one of clear triumph as perseverance in a racial and economic struggle still making American headlines today

Disillusioned Benjamin Herold, 2024-01-23 Astonishingly important Alex Kotlowitz *The Atlantic* Through the stories of five American families a masterful and timely exploration of how

hope history and racial denial collide in the suburbs and their schools Outside Atlanta a middle class Black family faces off with a school system seemingly bent on punishing their teenage son North of Dallas a conservative white family relocates to an affluent suburban enclave but can't escape the changes sweeping the country On Chicago's North Shore a multiracial mom joins an ultraprogressive challenge to the town's liberal status quo In Compton California whose suburban roots are now barely recognizable undocumented Hispanic parents place their gifted son's future in the hands of educators at a remarkable elementary school And outside Pittsburgh a Black mother moves to the same street where author Benjamin Herold grew up then confronts the destructive legacy left behind by white families like his Disillusioned braids these human stories together with penetrating local and national history to reveal a vicious cycle undermining the dreams upon which American suburbia was built For generations upwardly mobile white families have extracted opportunity from the nation's heavily subsidized suburbs then moved on before the bills for maintenance and repair came due leaving the mostly Black and Brown families who followed to clean up the ensuing mess But now sweeping demographic shifts and the dawning realization that endless expansion is no longer feasible are disrupting this pattern forcing everyday families to confront a truth their communities were designed to avoid The suburban lifestyle dream is a Ponzi scheme whose unraveling threatens us all How do we come to terms with this troubled history How do we build a future in which all children can thrive Drawing upon his decorated career as an education journalist Herold explores these pressing debates with expertise and perspective Then alongside Bethany Smith the mother from his old neighborhood who contributes a powerful epilogue to the book he offers a hopeful path toward renewal The result is nothing short of a journalistic masterpiece

Koch, 1965 **Halfway Home** Reuben Jonathan Miller, 2021-02-02 A persuasive and essential Matthew Desmond work that will forever change how we look at life after prison in America through Miller's stunning and deeply painful reckoning with our nation's carceral system Heather Ann Thompson Each year more than half a million Americans are released from prison and join a population of twenty million people who live with a felony record Reuben Miller a chaplain at the Cook County Jail in Chicago and now a sociologist studying mass incarceration spent years alongside prisoners ex prisoners their friends and their families to understand the lifelong burden that even a single arrest can entail What his work revealed is a simple if overlooked truth life after incarceration is its own form of prison The idea that one can serve their debt and return to life as a full fledge member of society is one of America's most nefarious myths Recently released individuals are faced with jobs that are off limits apartments that cannot be occupied and votes that cannot be cast As The Color of Law exposed about our understanding of housing segregation Halfway Home shows that the American justice system was not created to rehabilitate Parole is structured to keep classes of Americans impoverished unstable and disenfranchised long after they've paid their debt to society Informed by Miller's experience as the son and brother of incarcerated men captures the stories of the men women and communities fighting against a system that is designed for

Why Psychoanalysis? Elisabeth Roudinesco,2004-03-10 Why do some people still choose psychoanalysis Freud s so called talking cure when numerous medications are available that treat the symptoms of psychic distress so much faster Elisabeth Roudinesco tackles this difficult question exploring what she sees as a depressive society an epidemic of distress addressed only by an increasing reliance on prescription drugs Far from contesting the efficacy of new medications like Prozac Zoloft and Viagra in alleviating the symptoms of any number of mental or nervous conditions Roudinesco argues that the use of such drugs fails to solve patients real problems In the man who takes Viagra without ever wondering why he is suffering from impotence and the woman who is given antidepressants to deal with the loss of a loved one Roudinesco sees a society obsessed with efficiency and desperate for the quick fix She argues that the talking cure and pharmacology represent not just different approaches to psychiatry but different worldviews The rush to treat symptoms is itself symptomatic of an antiseptic and depressive culture in which thought is reduced to the firing of neurons and desire is just a chemical secretion In contrast psychoanalysis testifies to human freedom and the power of language
